An act to amend Section 60901 of the Education Code, relating to pupil attendance.

LEGISLATIVE COUNSEL’S DIGEST

AB 1866, as introduced, Bocanegra. Pupil attendance: California Longitudinal Pupil Achievement Data System.

(1) Existing law establishes the California Longitudinal Pupil Achievement Data System, as provided. Existing law requires the State Department of Education, in consultation with the Department of Finance and the Legislative Analyst’s Office, contingent upon the receipt of federal funds, to prepare the system to include data on pupil attendance, as specified. Existing law requires the system to support local educational agencies in their efforts to identify and support pupils at risk of dropping out and be capable of issuing periodic reports to local educational agencies that include district, school, class, and individual pupil reports on the rates of absence and chronic absentees, as defined.

This bill would, among other things, instead require the State Department of Education to enhance the system, as provided. The bill would require the periodic reports to local educational agencies to also include reports on the rates of absence, rates of chronic absenteeism and the number of chronic absentees, rates of truancy and the number of truants, rates of habitual truancy and the number of habitual truants, and rates of chronic truancy and the number of chronic truants. The bill would revise the definition of “chronic absentee” and establish a
definition for “rates of absence”. The bill would delete the federal funding requirement on these provisions.

(2) Existing law, once the system is prepared to accept data on a quarterly rate of pupil attendance, authorizes a local educational agency to submit data to the State Department of Education on a quarterly rate of pupil attendance, and other indicators as identified by the department.

This bill would, once the system is enhanced to accept data on pupil attendance, require a local educational agency to submit specified data, and other indicators identified by the department, to the department at least 4 times per school year on dates to be determined by the department. By imposing additional duties on local educational agencies, the bill would impose a state-mandated local program.

(3) This bill would also make conforming and nonsubstantive changes.

(4) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

(5) This bill would become operative only if legislation is enacted in the 2013–14 Regular Session that establishes an annual report on elementary school truancy and chronic absenteeism, that takes effect on or before January 1, 2015.

The people of the State of California do enact as follows:
