An act to amend Section 1367.003 of, and to add Section 1367.004 to, the Health and Safety Code, and to amend Section 10112.25 of, and to add Section 10112.26 to, the Insurance Code, relating to health care coverage.

LEGISLATIVE COUNSEL’S DIGEST

Existing law, the Knox-Keene Health Care Service Plan Act of 1975, provides for the licensure and regulation of health care service plans by the Department of Managed Health Care and makes a willful violation of the act a crime. Existing law requires a health care service plan or health insurer to comply with specified minimum medical loss ratios and requires a plan or insurer to provide an annual rebate to enrollees and insureds if the ratio of the amount of premium revenue expended by the plan or insurer on specified costs to the total amount of premium revenue is less than a certain percentage. Existing law specifies that these requirements do not apply to specialized health care service plan contracts or specialized health insurance policies.

This bill would require specialized dental health care service plan contracts and specialized dental health insurance policies to comply with parallel requirements. The bill would authorize the departments
to adopt regulations implementing these provisions and would require that those regulations parallel the regulations adopted with respect to full-service plan contracts and policies. Because a willful violation of the bill’s requirements by a health care service plan would be a crime, the bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

The people of the State of California do enact as follows:

SECTION 1. Section 1367.003 of the Health and Safety Code is amended to read:

1367.003. (a) Every health care service plan that issues, sells, renews, or offers health care service plan contracts for health care coverage in this state, including a grandfathered health plan, but not including specialized health care service plan contracts, except as provided in Section 1367.004, shall provide an annual rebate to each enrollee under such coverage, on a pro rata basis, if the ratio of the amount of premium revenue expended by the health care service plan on the costs for reimbursement for clinical services provided to enrollees under such coverage and for activities that improve health care quality to the total amount of premium revenue, excluding federal and state taxes and licensing or regulatory fees and after accounting for payments or receipts for risk adjustment, risk corridors, and reinsurance, is less than the following:

(1) With respect to a health care service plan offering coverage in the large group market, 85 percent.

(2) With respect to a health care service plan offering coverage in the small group market or in the individual market, 80 percent.

(b) Every health care service plan that issues, sells, renews, or offers health care service plan contracts for health care coverage in this state, including a grandfathered health plan, shall comply with the following minimum medical loss ratios:
With respect to a health care service plan offering coverage in the large group market, 85 percent.

With respect to a health care service plan offering coverage in the small group market or in the individual market, 80 percent.

(1) The total amount of an annual rebate required under this section shall be calculated in an amount equal to the product of the following:

(A) The amount by which the percentage described in paragraph (1) or (2) of subdivision (a) exceeds the ratio described in paragraph (1) or (2) of subdivision (a).

(B) The total amount of premium revenue, excluding federal and state taxes and licensing or regulatory fees and after accounting for payments or receipts for risk adjustment, risk corridors, and reinsurance.

(2) A health care service plan shall provide any rebate owing to an enrollee no later than August 1 of the calendar year following the year for which the ratio described in subdivision (a) was calculated.

(d) (1) The director may adopt regulations in accordance with the Administrative Procedure Act (Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2 of the Government Code) that are necessary to implement the medical loss ratio as described under Section 2718 of the federal Public Health Service Act (42 U.S.C. Sec. 300gg-18), and any federal rules or regulations issued under that section.

(2) The director may also adopt emergency regulations in accordance with the Administrative Procedure Act (Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2 of the Government Code) when it is necessary to implement the applicable provisions of this section and to address specific conflicts between state and federal law that prevent implementation of federal law and guidance pursuant to Section 2718 of the federal Public Health Service Act (42 U.S.C. Sec. 300gg-18). The initial adoption of the emergency regulations shall be deemed to be an emergency and necessary for the immediate preservation of the public peace, health, safety, or general welfare.
