LEGISLATIVE COUNSEL’S DIGEST

AB 2019, as introduced, Fong. Commercial fishing: drift gill net shark and swordfish fishery.

(1) Existing law prohibits a person from using or operating, or assisting in using or operating, a boat, aircraft, net, trap, line, or other appliance to take fish or amphibia for commercial purposes unless the person holds a commercial fishing license issued by the Department of Fish and Wildlife. Existing law prohibits the taking of shark and swordfish for commercial purposes with drift gill nets except under a valid drift gill net shark and swordfish permit issued to that person that has not been suspended or revoked and is issued to at least one person aboard the boat, except as provided. Existing law prohibits a person from taking shark and swordfish under a drift gill net permit during certain times of the year and in certain locations. Under existing law, a violation of these provisions is a crime.
This bill would prohibit a person from using a drift gill net to take shark and swordfish for commercial purposes, except as provided. Because a violation of this provision would be a crime, this bill would impose a state-mandated local program. The bill would recast the drift gill net shark and swordfish permit as the shark and swordfish permit and would authorize a person to take shark and swordfish under this permit using only specified methods of take, including hand-held hook and line and handthrust harpoon. The bill would eliminate in the new shark and swordfish fishery provisions the time and area restrictions that existed for the use of drift gill nets for shark and swordfish. The bill would require the department to issue a shark and swordfish permit to a person who actively participated, as defined, in the drift gill net shark and swordfish fishery and who holds a valid drift gill net shark and swordfish permit as of January 31, 2015. The bill would authorize the department to issue a shark and swordfish permit to a person who did not actively participate in the drift gill net shark and swordfish fishery and who holds a valid drift gill net permit as of January 31, 2015, based on specified considerations. The bill would make additional conforming changes. The bill would make these provisions operative on February 1, 2015.

This bill would require the department, through its member on the Pacific Fishery Management Council, to initiate and support an amendment to the Highly Migratory Species Fishery Management Plan to prohibit the use of drift gill nets to target shark and swordfish in the area subject to the oversight of the council.

This bill would provide that the provisions of this act are severable.

(2) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement. This bill would provide that no reimbursement is required by this act for a specified reason.

The people of the State of California do enact as follows:

SECTION 1. The heading of Article 16 (commencing with Section 8561) of Chapter 2 of Part 3 of Division 6 of the Fish and Game Code is amended to read:
Article 16. Drift Gill Net Shark and Swordfish Fishery

SEC. 2. Section 8561 of the Fish and Game Code is amended to read:

8561. (a) Notwithstanding Section 8394, shark and swordfish shall not be taken for commercial purposes with drift gill nets except under a valid drift gill net shark and swordfish permit issued to that person that has not been suspended or revoked and is issued to at least one person aboard the boat.

(b) A drift gill net shark and swordfish permit shall not be required for the taking of sharks with drift gill nets with a mesh size smaller than eight inches in stretched mesh and twine size no. 18 or the equivalent of this twine size or smaller.

(c) This section shall become inoperative on February 1, 2015, and, as of January 1, 2016, is repealed, unless a later enacted statute, that becomes operative on or before January 1, 2016, deletes or extends the dates on which it becomes inoperative and is repealed.

(B) The person did not actively participate in the drift gill net shark and swordfish fishery.

(2) The department shall make the determination described in paragraph (1) based on the following considerations:
Whether issuing the permit would result in overcapacity in the fishery.

(B) Whether issuing the permit would adversely impact natural resources and wildlife.

(d) For purposes of this section, the following terms have the following meanings:

(1) “Actively participate” means to have held a valid drift gill net shark and swordfish permit that was not suspended or revoked and to have made landings of shark or swordfish, or both, under that permit in each year since January 1, 2010.

(d) This section shall become operative on February 1, 2015.

The reflector shall be at least six feet above the surface of the ocean and not less than 10 inches in any dimension except thickness.
