An act to ~~amend Section 20003 of~~ *add Section 22511.2 to the Vehicle Code*, relating to vehicles.

LEGISLATIVE COUNSEL'S DIGEST

AB 2565, as amended, Muratsuchi. ~~Vehicles: accidents. Electric vehicles: offstreet parking facilities.~~

*Existing law authorizes a local authority, by ordinance or resolution, and a person in lawful possession of an offstreet parking facility, to designate stalls or spaces for the exclusive purpose of charging and parking a vehicle that is connected for electric charging purposes. Existing law also authorizes the removal of a vehicle from an offstreet parking facility if the vehicle is not connected for electric charging purposes.*

*This bill would require, on or before July 1, 2015, an offstreet parking facility with more than 50 parking stalls or spaces to have at least 1% of the parking stalls or spaces within that facility designated for the exclusive use of electric vehicles and equipped with electric charging stations, as defined. The bill would authorize an owner or person or entity in lawful possession of multiple offstreet parking facilities within a one-mile radius to designate fewer parking stalls or spaces for electric vehicles in one or more facilities, if the total number of electric vehicle stalls or spaces, for all facilities within the one-mile radius, equals the number that would otherwise be required. The bill would prohibit a parking stall or space designated for this purpose from displacing or*

*reducing certain accessible stalls or spaces required by federal Americans with Disabilities Act Accessibility Guidelines.*

~~Existing law requires the driver of any vehicle involved in an accident resulting in injury to or death of any person to also give his or her name, current residence address, the names and current residence addresses of any occupant of the driver's vehicle injured in the accident, the registration number of the vehicle he or she is driving, and the name and current residence address of the owner to the person struck or the driver or occupants of any vehicle collided with, and must give the information to any traffic or police officer at the scene of the accident. Existing law also requires the driver to render to any person injured in the accident reasonable assistance, including transporting, or making arrangements for transporting, any injured person to a physician, surgeon, or hospital for medical or surgical treatment if it is apparent that treatment is necessary or if that transportation is requested by any injured person.~~

~~This bill would make a technical, nonsubstantive change to that provision.~~

Vote: majority. Appropriation: no. Fiscal committee: ~~no~~-yes.  
State-mandated local program: no.

*The people of the State of California do enact as follows:*
