An act to amend Section 1797.252 of the Health and Safety Code, relating to emergency medical services.

LEGISLATIVE COUNSEL'S DIGEST

AB 2588, as introduced, Roger Hernández. Emergency medical services: local EMS agencies.

Existing law, the Emergency Medical Services System and the Prehospital Emergency Medical Care Personnel Act, authorizes each county to develop an emergency medical services program. The act further authorizes a local emergency medical services (EMS) agency to develop and submit a plan to the Emergency Medical Services Authority for an emergency medical services system, and requires the local EMS agency to coordinate and facilitate arrangements necessary to develop the system, consistent with the plan.

This bill would make technical, nonsubstantive changes to these provisions.
