An act to add Section 12289 to the Elections Code, relating to elections.

LEGISLATIVE COUNSEL'S DIGEST

SB 267, as amended, Pavley. Polling places: higher education campuses.

(1) Existing law requires elections officials to establish a convenient number of election precincts and designate a polling place for each precinct. Under existing law, the local elections official may request the use of school buildings as polling places.

This bill would, for elections conducted by a county or city and county, require the county or city and county elections official to establish precincts consisting solely of, and corresponding polling places within, each campus of a community college, the California State University, or the University of California, if the campus meets specified requirements. The bill would require the California State University and the California Community Colleges, and request the University of California, to provide access for the use of their campuses as polling places. By requiring county and city and county elections officials to perform new duties, and the California Community Colleges to provide access as polling places, the bill would impose a state-mandated local program.

(2) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

Vote: majority. Appropriation: no. Fiscal committee: yes.  
State-mandated local program: yes.
