

Senate Bill No. 468

CHAPTER 683

An act to add Section 4685.8 to the Welfare and Institutions Code, relating to developmental services.

[Approved by Governor October 9, 2013. Filed with
Secretary of State October 9, 2013.]

LEGISLATIVE COUNSEL'S DIGEST

SB 468, Emmerson. Developmental services: statewide Self-Determination Program.

Under existing law, the Lanterman Developmental Disabilities Services Act, the State Department of Developmental Services contracts with regional centers to provide services and supports to individuals with developmental disabilities. Under existing law, the regional centers purchase needed services and supports for individuals with developmental disabilities through approved service providers, or arrange for their provision through other publicly funded agencies. The services and supports to be provided to a regional center consumer are contained in an individual program plan (IPP), developed in accordance with prescribed requirements. Existing law establishes, contingent upon approval of a federal waiver, the Self-Directed Services Program, and requires the program to be available in every regional center catchment area to provide participants, within an individual budget, greater control over needed services and supports.

This bill would require the department, contingent upon approval of federal funding, to establish and implement a state Self-Determination Program, as defined, that would be available in every regional center catchment area to provide participants and their families, within an individual budget, increased flexibility and choice, and greater control over decisions, resources, and needed and desired services and supports to implement their IPP, in accordance with prescribed requirements. The statewide program would be phased in over 3 years, serving up to 2,500 regional center consumers during the phase-in period, and thereafter, available on a voluntary basis to all eligible regional center consumers. The bill would require the department to, among other things, apply for federal funding for the program by December 31, 2014.

This bill would provide that program participants receive an individual budget, as prescribed, to be used for the purchase of services and supports necessary to implement the participant's IPP. The bill would require program participants to agree to, among other things, manage self-determination services and supports within the individual budget. The bill would require the department to require nonvendored providers of services and supports who meet specified criteria to submit to a criminal background check, as

specified. The bill would require the department, with respect to this background check, to submit fingerprint images and related information to the Department of Justice, and would require the Department of Justice to provide specified responses to the department. The bill would require the Department of Justice to charge a fee sufficient to cover the cost of processing this request. The bill would, among other things, require each regional center to be responsible for implementing the program as a term of its contract, and to establish a local voluntary advisory committee to provide oversight of the project. The bill would require the State Council on Developmental Disabilities to form a volunteer statewide committee to, among other things, identify self-determination best practices. The bill would require the State Council on Developmental Disabilities, in collaboration with specified entities, to issue to the Legislature a report regarding the status of the program and recommendations to the program, as specified, and would require the department, beginning January 10, 2017, to provide to the appropriate policy and fiscal committees of the Legislature prescribed information relating to the program.

The people of the State of California do enact as follows:

SECTION 1. The Legislature finds and declares all of the following:

(a) In 1998, the Legislature expanded the Lanterman Developmental Disabilities Services Act to include self-determination pilot projects. Those pilot projects were continued by the Legislature in 2002 and 2003. However, the pilot projects were only available at three regional centers pursuant to Section 13 of Chapter 1043 of the Statutes of 1998, as amended, and two additional regional centers pursuant to Article 4 (commencing with Section 4669.2) of Chapter 5 of Division 4.5 of the Welfare and Institutions Code, and the number of individuals served by the local self-determination pilot projects remains small at about 140 regional center consumers.

(b) As reflected in the State Department of Developmental Services 2002 Report to the Legislature, the pilot projects remain an innovative, cost-effective, and successful way of providing services to regional center consumers and their families. The findings in the report show that self-determination pilot project participants were happy and experienced more freedom and responsibility in controlling the direction of their services and life choices, and the project was cost neutral in the aggregate. The report also found that good self-determination requires intensive person-centered planning, collaboration, and follow-along services and supports.

(c) Most other states have self-directed or self-determination services as a model for providing services. Many California consumers and families have asked for a statewide expansion of the pilot project believing it will do the following: increase innovative and effective services, eliminate bureaucracy, and increase choices for consumers and parents, thereby allowing them to increase their control of services and supports by easily navigating increasingly complex service systems.

(d) Consumers in traditionally underserved linguistic, cultural, socioeconomic, and ethnic communities have unique challenges in accessing needed regional center services that have been impacted by service limitations imposed as a response to California's recent budget shortfalls. This is particularly true for consumers living at home with a parent or guardian. The Self-Determination Program offers increased service flexibility, which will help promote access to needed services for these consumers and their families.

(e) This act allows for voluntary participation in the Self-Determination Program in all 21 regional centers and ensures cost-neutrality and a consistent statewide method of administration. The intent of this act is to ensure that the program is available to all consumers regardless of geographic location, economic or educational background, or race or ethnicity.

(f) To ensure these outcomes are achieved, it is the intent of the Legislature that the State Department of Developmental Services and regional centers be responsible for oversight and monitoring of funds used for the Self-Determination Program and the achievement of consumer outcomes.

(g) In addition, the intent of this act is that the Self-Determination Program be phased in over a three-year period and that the program will continue to be available to all consumers as an option after the initial phase-in period ends.

SEC. 2. Section 4685.8 is added to the Welfare and Institutions Code, to read:

4685.8. (a) The department shall implement a statewide Self-Determination Program. The Self-Determination Program shall be available in every regional center catchment area to provide participants and their families, within an individual budget, increased flexibility and choice, and greater control over decisions, resources, and needed and desired services and supports to implement their IPP. The statewide Self-Determination Program shall be phased in over three years, and during this phase-in period, shall serve up to 2,500 regional center consumers, inclusive of the remaining participants in the self-determination pilot projects authorized pursuant to Section 13 of Chapter 1043 of the Statutes of 1998, as amended, and Article 4 (commencing with Section 4669.2) of Chapter 5. Following the phase-in period, the program shall be available on a voluntary basis to all regional center consumers who are eligible for the Self-Determination Program. The program shall be available to individuals who reflect the disability, ethnic, and geographic diversity of the state.

(b) The department in establishing the statewide program shall do both of the following:

(1) For the first three years of the Self-Determination Program, determine, as part of the contracting process described in Sections 4620 and 4629, the number of participants each regional center shall serve in its Self-Determination Program. To ensure that the program is available on an equitable basis to participants in all regional center catchment areas, the number of Self-Determination Program participants in each regional center

shall be based on the relative percentage of total consumers served by the regional centers minus any remaining participants in the self-determination pilot projects authorized pursuant to Section 13 of Chapter 1043 of the Statutes of 1998, as amended, and Article 4 (commencing with Section 4669.2) of Chapter 5 or another equitable basis.

(2) Ensure all of the following:

(A) Oversight of expenditure of self-determined funds and the achievement of participant outcomes over time.

(B) Increased participant control over which services and supports best meet their needs and the IPP objectives. A participant's unique support system may include the purchase of existing service offerings from service providers or local businesses, hiring his or her own support workers, or negotiating unique service arrangements with local community resources.

(C) Comprehensive person-centered planning, including an individual budget and services that are outcome based.

(D) Consumer and family training to ensure understanding of the principles of self-determination, the planning process, and the management of budgets, services, and staff.

(E) Choice of independent facilitators who can assist with the person-centered planning process and choice of financial management services providers vendored by regional centers who can assist with payments and provide employee-related services.

(F) Innovation that will more effectively allow participants to achieve their goals.

(c) For purposes of this section, the following definitions shall apply:

(1) "Financial management services" means services or functions that assist the participant to manage and direct the distribution of funds contained in the individual budget, and ensure that the participant has the financial resources to implement his or her IPP throughout the year. These may include bill paying services and activities that facilitate the employment of service and support workers by the participant, including, but not limited to, fiscal accounting, tax withholding, compliance with relevant state and federal employment laws, assisting the participant in verifying provider qualifications, including criminal background checks, and expenditure reports. The financial management services provider shall meet the requirements of Sections 58884, 58886, and 58887 of Title 17 of the California Code of Regulations and other specific qualifications established by the department. The costs of financial management services shall be paid by the participant out of his or her individual budget, except for the cost of obtaining the criminal background check specified in subdivision (w).

(2) "Independent facilitator" means a person, selected and directed by the participant, who is not otherwise providing services to the participant pursuant to his or her IPP and is not employed by a person providing services to the participant. The independent facilitator may assist the participant in making informed decisions about the individual budget, and in locating, accessing, and coordinating services and supports consistent with the participant's IPP. He or she is available to assist in identifying immediate

and long-term needs, developing options to meet those needs, leading, participating, or advocating on behalf of the participant in the person-centered planning process and development of the IPP, and obtaining identified services and supports. The cost of the independent facilitator, if any, shall be paid by the participant out of his or her individual budget. An independent facilitator shall receive training in the principles of self-determination, the person-centered planning process, and the other responsibilities described in this paragraph at his or her own cost.

(3) “Individual budget” means the amount of regional center purchase of service funding available to the participant for the purchase of services and supports necessary to implement the IPP. The individual budget shall be determined using a fair, equitable, and transparent methodology.

(4) “IPP” means individual program plan, as described in Section 4646.

(5) “Participant” means an individual, and when appropriate, his or her parents, legal guardian or conservator, or authorized representative, who has been deemed eligible for, and has voluntarily agreed to participate in, the Self-Determination Program.

(6) “Self-determination” means a voluntary delivery system consisting of a defined and comprehensive mix of services and supports, selected and directed by a participant through person-centered planning, in order to meet the objectives in his or her IPP. Self-determination services and supports are designed to assist the participant to achieve personally defined outcomes in community settings that promote inclusion. The Self-Determination Program shall only fund services and supports provided pursuant to this division that the federal Centers for Medicare and Medicaid Services determines are eligible for federal financial participation.

(d) Participation in the Self-Determination Program is fully voluntary. A participant may choose to participate in, and may choose to leave, the Self-Determination Program at any time. A regional center shall not require or prohibit participation in the Self-Determination Program as a condition of eligibility for, or the delivery of, services and supports otherwise available under this division. Participation in the Self-Determination Program shall be available to any regional center consumer who meets the following eligibility requirements:

(1) The participant has a developmental disability, as defined in Section 4512 and is receiving services pursuant to this division.

(2) The consumer does not live in a licensed long-term health care facility, as defined in paragraph (44) of subdivision (a) of Section 54302 of Title 17 of the California Code of Regulations. An individual, and when appropriate his or her parent, legal guardian or conservator, or authorized representative, who is not eligible to participate in the Self-Determination Program pursuant to this paragraph may request that the regional center provide person-centered planning services in order to make arrangements for transition to the Self-Determination Program, provided that he or she is reasonably expected to transition to the community within 90 days. In that case, the regional center shall initiate person-centered planning services within 60 days of that request.

(3) The participant agrees to all of the following terms and conditions:

(A) The participant shall receive an orientation to the Self-Determination Program prior to enrollment, which includes the principles of self-determination, the role of the independent facilitator and the financial management services provider, person-centered planning, and development of a budget.

(B) The participant shall utilize the services and supports available within the Self-Determination Program only when generic services and supports are not available.

(C) The participant shall only purchase services and supports necessary to implement his or her IPP and shall comply with any and all other terms and conditions for participation in the Self-Determination Program described in this section.

(D) The participant shall manage Self-Determination Program services and supports within his or her individual budget.

(E) The participant shall utilize the services of a financial management services provider of his or her own choosing and who is vended by a regional center.

(F) The participant may utilize the services of an independent facilitator of his or her own choosing for the purpose of providing services and functions as described in paragraph (2) of subdivision (c). If the participant elects not to use an independent facilitator, he or she may use his or her regional center service coordinator to provide the services and functions described in paragraph (2) of subdivision (c).

(e) A participant who is not Medi-Cal eligible may participate in the Self-Determination Program and receive self-determination services and supports if all other program eligibility requirements are met and the services and supports are otherwise eligible for federal financial participation.

(f) An individual receiving services and supports under a self-determination pilot project authorized pursuant to Section 13 of Chapter 1043 of the Statutes of 1998, as amended, or pursuant to Article 4 (commencing with Section 4669.2) of Chapter 5, may elect to continue to receive self-determination services and supports pursuant to this section or the regional center shall provide for the participant's transition from the self-determination pilot program to other services and supports. This transition shall include the development of a new IPP that reflects the services and supports necessary to meet the individual's needs. The regional center shall ensure that there is no gap in services and supports during the transition period.

(g) The additional federal financial participation funds generated by the former participants of the self-determination pilot projects authorized pursuant to Section 13 of Chapter 1043 of the Statutes of 1998, as amended, or pursuant to Article 4 (commencing with Section 4669.2) of Chapter 5, shall be used as follows:

(1) First, to offset the cost to the department for the criminal background check conducted pursuant to subdivision (w), and other administrative costs incurred by the department in implementing the Self-Determination Program.

(2) With the remaining funds, to offset the costs to the regional centers in implementing the Self-Determination Program, including, but not limited to, operations costs for caseload ratio enhancement, training for regional center staff, costs associated with the participant's initial person-centered planning meeting, the development of the participant's initial individual budget, and the costs associated with training consumers and family members.

(h) If at any time during participation in the Self-Determination Program a regional center determines that a participant is no longer eligible to continue in, or a participant voluntarily chooses to exit, the Self-Determination Program, the regional center shall provide for the participant's transition from the Self-Determination Program to other services and supports. This transition shall include the development of a new IPP that reflects the services and supports necessary to meet the individual's needs. The regional center shall ensure that there is no gap in services and supports during the transition period.

(i) An individual determined to be ineligible for or who voluntarily exits the Self-Determination Program shall be permitted to return to the Self-Determination Program upon meeting all applicable eligibility criteria and upon approval of the participant's planning team, as described in subdivision (j) of Section 4512. An individual who has voluntarily exited the Self-Determination Program shall not return to the program for at least 12 months. During the first three years of the program, the individual's right to return to the program is conditioned on his or her regional center not having reached the participant cap imposed by paragraph (1) of subdivision (b).

(j) An individual who participates in the Self-Determination Program may elect to continue to receive self-determination services and supports if he or she transfers to another regional center catchment area, provided that he or she remains eligible for the Self-Determination Program pursuant to subdivision (d). The balance of the participant's individual budget shall be reallocated to the regional center to which he or she transfers.

(k) The IPP team shall utilize the person-centered planning process to develop the IPP for a participant. The IPP shall detail the goals and objectives of the participant that are to be met through the purchase of participant-selected services and supports. The IPP team shall determine the individual budget to ensure the budget assists the participant to achieve the outcomes set forth in his or her IPP and ensures his or her health and safety. The completed individual budget shall be attached to the IPP.

(l) The participant shall implement his or her IPP, including choosing and purchasing the services and supports allowable under this section necessary to implement the plan. A participant is exempt from the cost control restrictions regarding the purchases of services and supports pursuant to Sections 4648.5 and 4686.5. A regional center shall not prohibit the purchase of any service or support that is otherwise allowable under this section.

(m) A participant shall have all the rights established in Sections 4646 to 4646.6, inclusive, and Chapter 7 (commencing with Section 4700).

(n) (1) Except as provided in paragraph (4), the IPP team shall determine the initial and any revised individual budget for the participant using the following methodology:

(A) (i) Except as specified in clause (ii), for a participant who is a current consumer of the regional center, his or her individual budget shall be the total amount of the most recently available 12 months of purchase of service expenditures for the participant.

(ii) An adjustment may be made to the amount specified in clause (i) if both of the following occur:

(I) The IPP team determines that an adjustment to this amount is necessary due to a change in the participant's circumstances, needs, or resources that would result in an increase or decrease in purchase of service expenditures, or the IPP team identifies prior needs or resources that were unaddressed in the IPP, which would have resulted in an increase or decrease in purchase of service expenditures.

(II) The regional center certifies on the individual budget document that regional center expenditures for the individual budget, including any adjustment, would have occurred regardless of the individual's participation in the Self-Determination Program.

(iii) For purposes of clauses (i) and (ii), the amount of the individual budget shall not be increased to cover the cost of the independent facilitator or the financial management services.

(B) For a participant who is either newly eligible for regional center services or who does not have 12 months of purchase service expenditures, his or her individual budget shall be calculated as follows:

(i) The IPP team shall identify the services and supports needed by the participant and available resources, as required by Section 4646.

(ii) The regional center shall calculate the cost of providing the services and supports to be purchased by the regional center by using the average cost paid by the regional center for each service or support unless the regional center determines that the consumer has a unique need that requires a higher or lower cost. The regional center shall certify on the individual budget document that this amount would have been expended using regional center purchase of service funds regardless of the individual's participation in the Self-Determination Program.

(iii) For purposes of clauses (i) and (ii), the amount of the individual budget shall not be increased to cover the cost of the independent facilitator or the financial management services.

(2) The amount of the individual budget shall be available to the participant each year for the purchase of program services and supports. An individual budget shall be calculated no more than once in a 12-month period, unless revised to reflect a change in circumstances, needs, or resources of the participant using the process specified in clause (ii) of subparagraph (A) of paragraph (1).

(3) The individual budget shall be assigned to uniform budget categories developed by the department in consultation with stakeholders and distributed according to the timing of the anticipated expenditures in the IPP and in a manner that ensures that the participant has the financial resources to implement his or her IPP throughout the year.

(4) The department, in consultation with stakeholders, may develop alternative methodologies for individual budgets that are computed in a fair, transparent, and equitable manner and are based on consumer characteristics and needs, and that include a method for adjusting individual budgets to address a participant's change in circumstances or needs.

(o) Annually, participants may transfer up to 10 percent of the funds originally distributed to any budget category set forth in paragraph (3) of subdivision (n) to another budget category or categories. Transfers in excess of 10 percent of the original amount allocated to any budget category may be made upon the approval of the regional center or the participant's IPP team.

(p) Consistent with the implementation date of the IPP, the IPP team shall annually ascertain from the participant whether there are any circumstances or needs that require a change to the annual individual budget. Based on that review, the IPP team shall calculate a new individual budget consistent with the methodology identified in subdivision (n).

(q) (1) On or before December 31, 2014, the department shall apply for federal Medicaid funding for the Self-Determination Program by doing one or more of the following:

(A) Applying for a state plan amendment.

(B) Applying for an amendment to a current home- and community-based waiver for individuals with developmental disabilities.

(C) Applying for a new waiver.

(D) Seeking to maximize federal financial participation through other means.

(2) To the extent feasible, the state plan amendment, waiver, or other federal request described in paragraph (1) shall incorporate the eligibility requirements, benefits, and operational requirements set forth in this section. Except for the provisions of subdivisions (k), (m), (p), and this subdivision, the department may modify eligibility requirements, benefits, and operational requirements as needed to secure approval of federal funding.

(3) Contingent upon approval of federal funding, the Self-Determination Program shall be established.

(r) (1) The department, as it determines necessary, may adopt regulations to implement the procedures set forth in this section. Any regulations shall be adopted in accordance with the requirements of Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2 of the Government Code.

(2) Notwithstanding paragraph (1) and Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2 of the Government Code, and only to the extent that all necessary federal approvals are obtained, the department, without taking any further regulatory action, shall implement,

interpret, or make specific this section by means of program directives or similar instructions until the time regulations are adopted. It is the intent of the Legislature that the department be allowed this temporary authority as necessary to implement program changes only until completion of the regulatory process.

(s) The department, in consultation with stakeholders, shall develop informational materials about the Self-Determination Program. The department shall ensure that regional centers are trained in the principles of self-determination, the mechanics of the Self-Determination Program, and the rights of consumers and families as candidates for, and participants in, the Self-Determination Program.

(t) Each regional center shall be responsible for implementing the Self-Determination Program as a term of its contract under Section 4629. As part of implementing the program, the regional center shall do both of the following:

(1) Contract with local consumer or family-run organizations to conduct outreach through local meetings or forums to consumers and their families to provide information about the Self-Determination Program and to help ensure that the program is available to a diverse group of participants, with special outreach to underserved communities.

(2) Collaborate with the local consumer or family-run organizations identified in paragraph (1) to jointly conduct training about the Self-Determination Program.

(u) The financial management services provider shall provide the participant and the regional center service coordinator with a monthly individual budget statement that describes the amount of funds allocated by budget category, the amount spent in the previous 30-day period, and the amount of funding that remains available under the participant's individual budget.

(v) Only the financial management services provider is required to apply for vendorization in accordance with Subchapter 2 (commencing with Section 54300) of Chapter 3 of Title 17 of the California Code of Regulations, for the Self-Determination Program. All other service and support providers shall not be on the federal debarment list and shall have applicable state licenses, certifications, or other state required documentation, including documentation of any other qualifications required by the department, but are exempt from the vendorization requirements set forth in Title 17 of the California Code of Regulations when serving participants in the Self-Determination Program.

(w) To protect the health and safety of participants in the Self-Determination Program, the department shall require a criminal background check in accordance with all of the following:

(1) The department shall issue a program directive that identifies nonvended providers of services and supports who shall obtain a criminal background check pursuant to this subdivision. At a minimum these staff shall include both of the following:

(A) Individuals who provide direct personal care services to a participant.

(B) Other nonvendored providers of services and supports for whom a criminal background check is requested by a participant or the participant's financial management service.

(2) Subject to the procedures and requirements of this subdivision, the department shall administer criminal background checks consistent with the department's authority and the process described in Sections 4689.2 to 4689.6, inclusive.

(3) The department shall electronically submit to the Department of Justice fingerprint images and related information required by the Department of Justice of nonvendored providers of services and supports, as specified in paragraph (1), for the purposes of obtaining information as to the existence and content of a record of state or federal convictions and state or federal arrests and also information as to the existence and content of a record of state or federal arrests for which the Department of Justice establishes that the person is free on bail or on his or her recognizance pending trial or appeal.

(4) When received, the Department of Justice shall forward to the Federal Bureau of Investigation requests for federal summary criminal history information received pursuant to this section. The Department of Justice shall review the information returned from the Federal Bureau of Investigation and compile and disseminate a response to the department.

(5) The Department of Justice shall provide a state or federal response to the department pursuant to paragraph (1) of subdivision (p) of Section 11105 of the Penal Code.

(6) The department shall request from the Department of Justice subsequent notification service, as provided pursuant to Section 11105.2 of the Penal Code, for persons described in paragraph (1).

(7) The Department of Justice shall charge a fee sufficient to cover the cost of processing the request described in this subdivision.

(8) The fingerprints of any provider of services and supports who is required to obtain a criminal background check shall be submitted to the Department of Justice prior to employment. The costs of the fingerprints and the financial management service's administrative cost authorized by the department shall be paid by the services and supports provider or his or her employing agency. Any administrative costs incurred by the department pursuant to this subdivision shall be offset by the funds specified in subdivision (g).

(9) If the criminal record information report shows a criminal history, the department shall take the steps specified in Section 4689.2. The department may prohibit a provider of services and supports from becoming employed, or continuing to be employed, based on the criminal background check, as authorized in Section 4689.6. The provider of services and supports who has been denied employment shall have the rights set forth in Section 4689.6.

(10) The department may utilize a current department-issued criminal record clearance to enable a provider to serve more than one participant, as long as the criminal record clearance has been processed through the

department and no subsequent arrest notifications have been received relative to the cleared applicant.

(11) Consistent with subdivision (h) of Section 4689.2, the participant or financial management service that denies or terminates employment based on written notification from the department shall not incur civil liability or unemployment insurance liability.

(x) To ensure the effective implementation of the Self-Determination Program and facilitate the sharing of best practices and training materials commencing with the implementation of the Self-Determination Program, local and statewide advisory committees shall be established as follows:

(1) Each regional center shall establish a local volunteer advisory committee to provide oversight of the Self-Determination Program. The regional center and the area board shall each appoint one-half of the membership of the committee. The committee shall consist of the regional center clients' rights advocate, consumers, family members, and other advocates, and community leaders. A majority of the committee shall be consumers and their family members. The committee shall reflect the multicultural diversity and geographic profile of the catchment area. The committee shall review the development and ongoing progress of the Self-Determination Program, including whether the program advances the principles of self-determination and is operating consistent with the requirements of this section, and may make ongoing recommendations for improvement to the regional center and the department.

(2) The State Council on Developmental Disabilities shall form a volunteer committee, to be known as the Statewide Self-Determination Advisory Committee, comprised of the chairs of the 21 local advisory committees or their designees. The council shall convene the Statewide Self-Determination Advisory Committee twice annually, or more frequently in the sole discretion of the council. The Statewide Self-Determination Advisory Committee shall meet by teleconference or other means established by the council, to identify self-determination best practices, effective consumer and family training materials, implementation concerns, systemic issues, ways to enhance the program, and recommendations regarding the most effective method for participants to learn of individuals who are available to provide services and supports. The council shall synthesize information received from the Statewide Self-Determination Advisory Committee, local advisory committees, and other sources, shall share the information with consumers, families, regional centers, and the department, and shall make recommendations, as appropriate, to increase the program's effectiveness in furthering the principles of self-determination.

(y) Commencing January 10, 2017, the department shall annually provide the following information to the appropriate policy and fiscal committees of the Legislature:

(1) Number and characteristics of participants, by regional center.

(2) Types and amount of services and supports purchased under the Self-Determination Program, by regional center.

(3) Range and average of individual budgets, by regional center, including adjustments to the budget to address the adjustments permitted in clause (ii) of subparagraph (A) of paragraph (1) of subdivision (n).

(4) The number and outcome of appeals concerning individual budgets, by regional center.

(5) The number and outcome of fair hearing appeals, by regional center.

(6) The number of participants who voluntarily withdraw from the Self-Determination Program and a summary of the reasons why, by regional center.

(7) The number of participants who are subsequently determined to no longer be eligible for the Self-Determination Program and a summary of the reasons why, by regional center.

(z) (1) The State Council on Developmental Disabilities, in collaboration with the protection and advocacy agency identified in Section 4900 and the federally funded University Centers for Excellence in Developmental Disabilities Education, Research, and Service, may work with regional centers to survey participants regarding participant satisfaction under the Self-Determination Program, and, when data is available, the traditional service delivery system, including the proportion of participants who report that their choices and decisions are respected and supported and who report that they are able to recruit and hire qualified service providers, and to identify barriers to participation and recommendations for improvement.

(2) The council, in collaboration with the protection and advocacy agency identified in Section 4900 and the federally funded University Centers for Excellence in Developmental Disabilities Education, Research, and Service, shall issue a report to the Legislature, in compliance with Section 9795 of the Government Code, no later than three years following the approval of the federal funding on the status of the Self-Determination Program authorized by this section, and provide recommendations to enhance the effectiveness of the program. This review shall include the program's effectiveness in furthering the principles of self-determination, including all of the following:

(A) Freedom, which includes the ability of adults with developmental disabilities to exercise the same rights as all citizens; to establish, with freely chosen supporters, family and friends, where they want to live, with whom they want to live, how their time will be occupied, and who supports them; and, for families, to have the freedom to receive unbiased assistance of their own choosing when developing a plan and to select all personnel and supports to further the life goals of a minor child.

(B) Authority, which includes the ability of a person with a disability, or family, to control a certain sum of dollars in order to purchase services and supports of their choosing.

(C) Support, which includes the ability to arrange resources and personnel, both formal and informal, that will assist a person with a disability to live a life in his or her community that is rich in community participation and contributions.

(D) Responsibility, which includes the ability of participants to take responsibility for decisions in their own lives and to be accountable for the use of public dollars, and to accept a valued role in their community through, for example, competitive employment, organizational affiliations, spiritual development, and general caring of others in their community.

(E) Confirmation, which includes confirmation of the critical role of participants and their families in making decisions in their own lives and designing and operating the system that they rely on.
