An act to add Sections 2704.76 and 2704.77 to the Streets and Highways Code, relating to transportation.

## LEGISLATIVE COUNSEL'S DIGEST

SB 557, as introduced, Hill. High-speed rail.

Existing law creates the High-Speed Rail Authority with specified powers and duties relating to the development and implementation of an intercity high-speed rail system. Existing law, pursuant to the Safe, Reliable, High-Speed Passenger Train Bond Act for the 21st Century, authorizes \$9.95 billion in general obligation bonds for high-speed rail development and other related purposes. Existing law appropriates specified funds from the High-Speed Passenger Train Bond Fund and from federal funds for high-speed rail and connecting rail projects.

This bill would add detail to provisions governing the expenditure of certain of those appropriated funds. The bill would specify that of the \$1,100,000,000 appropriated for early high-speed rail improvement projects in the Budget Act of 2012, \$600,000,000 and \$500,000,000 shall be allocated solely for purposes of specified memoranda of understanding approved by the High-Speed Rail Authority for the Metropolitan Transportation Commission region and the southern California region, respectively. The bill would limit fund transfer authority between certain appropriations to temporary transfers for account management purposes. The bill would restrict use of certain appropriated funds, to the extent they are allocated to the San Francisco-San Jose segment of the high-speed rail system, to implement a rail system in that segment that primarily consists of a 2-track blended

system to be used jointly by high-speed trains and Caltrain commuter trains, with the system to be contained substantially within the existing Caltrain right-of-way.

This bill would also require any track expansion for the San Francisco to San Jose segment beyond the blended system approach to be approved by all 9 parties to the Bay Area High-Speed Rail Early Investment Strategy Memorandum of Understanding, as specified.

Vote: majority. Appropriation: no. Fiscal committee: yes.  
State-mandated local program: no.
