

Introduced by Senator Galgiani

February 22, 2013

An act to amend Section 24275 of the Health and Safety Code, relating to asbestos safety.

LEGISLATIVE COUNSEL'S DIGEST

SB 688, as introduced, Galgiani. Asbestos safety: regulations.

Under existing law, if the State Department of Public Health believes that the air monitoring standard for asbestos in public school buildings should be revised, the department is required to promulgate a regulation to that effect. Existing law requires the department to provide the Office of Public School Construction with appropriate sampling methodology for use in taking air samples in public school buildings.

This bill would make a technical, nonsubstantive change to these provisions.

Vote: majority. Appropriation: no. Fiscal committee: no. State-mandated local program: no.

The people of the State of California do enact as follows:

- 1 SECTION 1. Section 24275 of the Health and Safety Code is
- 2 amended to read:
- 3 24275. (a) If the State Department of ~~Health Services~~ *Public*
- 4 *Health* believes that the air monitoring standard for asbestos in
- 5 public school buildings as specified in Section 49410.7 of the
- 6 Education Code should be revised, it shall promulgate a regulation
- 7 to that effect.

- 1 (b) The department shall provide the Office of Public School
- 2 Construction with appropriate sampling methodology for use in
- 3 taking air samples in public school buildings.
