

**Introduced by Senator Padilla**

February 22, 2013

---

---

An act to amend Section 121595 of the Health and Safety Code, relating to public health.

LEGISLATIVE COUNSEL'S DIGEST

SB 711, as introduced, Padilla. Public health: communicable diseases: rabies.

Existing law requires that whenever any case of rabies is reported, the State Department of Public Health must make, or cause to be made, a preliminary investigation as to whether the disease exists, and as to the probable area of the state in which the population or animals are endangered.

This bill would make a technical, nonsubstantive change to that provision.

Vote: majority. Appropriation: no. Fiscal committee: no. State-mandated local program: no.

*The people of the State of California do enact as follows:*

- 1 SECTION 1. Section 121595 of the Health and Safety Code
- 2 is amended to read:
- 3 121595. Whenever ~~any~~ a case of rabies is reported as existing
- 4 in any county or city, the department shall make, or cause to be
- 5 made, a preliminary investigation as to whether the disease exists,
- 6 and as to the probable area of the state in which the population or
- 7 animals are endangered.
