An act to amend Sections 1798.29 and 1798.82 of, and to add Title 1.81.23 (commencing with Section 1798.90.5) to Part 4 of Division 3 of of, the Civil Code, relating to personal information.

LEGISLATIVE COUNSEL'S DIGEST

SB 893, as amended, Hill. Automated license plate recognition systems: use of data.

~~Existing~~

~~(1) Existing law authorizes the Department of the California Highway Patrol to retain license plate data captured by license plate recognition (LPR) technology, also referred to as an automated license plate recognition (ALPR) system, for not more than 60 days unless the data is being used as evidence or for the investigation of felonies. Existing law prohibits the department from selling the data or from making the data available to an agency that is not a law enforcement agency or an individual that is not a law enforcement officer.~~

Existing law authorizes the department to use LPR data for the purpose of locating vehicles or persons reasonably suspected of being involved in the commission of a public offense, and requires the department to monitor the internal use of the data to prevent unauthorized use and to submit to the Legislature, as a part of the annual automobile theft report, information on the department's LPR practices and usage.

~~This bill would impose similar restrictions on a person, as defined, that operates an ALPR system by prohibiting the sale of ALPR data, and otherwise prohibiting a person from sharing the data, except with~~

~~a law enforcement agency or officer, as specified. This bill would provide that ALPR data retained for more than 5 years may be accessed only for law enforcement purposes, pursuant to a warrant or other court order. It would impose specified requirements on an “ALPR operator,” as defined, including, among others, complying with all applicable statutory and constitutional requirements and the provisions of the bill, ensuring that the information or data the ALPR operator collects is protected with certain safeguards, and to implement and maintain specified security procedures and a usage and privacy policy with respect to that information or data.~~

*This bill would also prohibit an ALPR operator from engaging in certain acts, including, among others, collecting any information or data other than the license plate number, the date and time the information or data is collected, and the location coordinates where the information or data is collected. The bill would further prohibit a public agency from disclosing, distributing, making available, selling, accessing, or otherwise providing that information or data, to any private entity or individual unless authorized by a court order, or as part of civil or criminal discovery. Unless otherwise authorized, the bill would prohibit a person authorized to access or distribute that information or data from further disclosing, distributing, making available, selling, accessing, or otherwise providing that information or data to another person for any purpose. The bill would require an ALPR operator that accesses or provides access to information or data collected through the use or operation of an ALPR system to maintain a specified record of that access.*

*The bill would, in addition to any other sanctions, penalties, or remedies provided by law, authorize an individual whose information is sold or disclosed in violation of these provisions to bring a civil action and would entitle the individual to recover any and all consequential and incidental damages, including all costs and attorney’s fees, in any court of competent jurisdiction against a person who knowingly obtains, discloses, or uses information or data collected through the use of an ALPR system for a purpose not authorized by the bill, and would authorize a court to award specified remedies.*

*(2) Existing law requires any agency, and any person or business conducting business in California, that owns or licenses computerized data that includes personal information, as defined, to disclose in specified ways, any breach of the security of the system or data, as defined, following discovery or notification of the security breach, to*

any California resident whose unencrypted personal information was, or is reasonably believed to have been, acquired by an unauthorized person. Existing law defines “personal information” for these purposes to include an individual’s first name and last name, or first initial and last name, in combination with one or more designated data elements relating to, among other things, social security numbers, driver’s license numbers, financial accounts, and medical information.

This bill would include information or data collected through the use or operation of an automated license plate recognition system, when that information or data is not encrypted, in the definition of “personal information” discussed above. By creating new duties for local officials, the bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

Vote: majority. Appropriation: no. Fiscal committee: ~~no~~-yes. State-mandated local program: ~~no~~-yes.

*The people of the State of California do enact as follows:*

- 1     SECTION 1. Section 1798.29 of the Civil Code is amended to
- 2     read:
- 3     1798.29. (a) Any agency that owns or licenses computerized
- 4     data that includes personal information shall disclose any breach
- 5     of the security of the system following discovery or notification
- 6     of the breach in the security of the data to any resident of California
- 7     whose unencrypted personal information was, or is reasonably
- 8     believed to have been, acquired by an unauthorized person. The
- 9     disclosure shall be made in the most expedient time possible and
- 10    without unreasonable delay, consistent with the legitimate needs
- 11    of law enforcement, as provided in subdivision (c), or any measures
- 12    necessary to determine the scope of the breach and restore the
- 13    reasonable integrity of the data system.
- 14    (b) Any agency that maintains computerized data that includes
- 15    personal information that the agency does not own shall notify the

1 owner or licensee of the information of any breach of the security  
2 of the data immediately following discovery, if the personal  
3 information was, or is reasonably believed to have been, acquired  
4 by an unauthorized person.

5 (c) The notification required by this section may be delayed if  
6 a law enforcement agency determines that the notification will  
7 impede a criminal investigation. The notification required by this  
8 section shall be made after the law enforcement agency determines  
9 that it will not compromise the investigation.

10 (d) Any agency that is required to issue a security breach  
11 notification pursuant to this section shall meet all of the following  
12 requirements:

13 (1) The security breach notification shall be written in plain

18 subject to this section.

19 (B) A list of the types of personal information that were or are  
20 reasonably believed to have been the subject of a breach.

21 (C) If the information is possible to determine at the time the  
22 notice is provided, then any of the following: (i) the date of the  
23 breach, (ii) the estimated date of the breach, or (iii) the date range  
24 within which the breach occurred. The notification shall also  
25 include the date of the notice.

26 (D) Whether the notification was delayed as a result of a law  
27 enforcement investigation, if that information is possible to  
28 determine at the time the notice is provided.

29 (E) A general description of the breach incident, if that  
30 information is possible to determine at the time the notice is  
31 provided.

32 (F) The toll-free telephone numbers and addresses of the major  
33 credit reporting agencies, if the breach exposed a social security  
34 number or a driver's license or California identification card  
35 number.

36 (3) At the discretion of the agency, the security breach  
37 notification may also include any of the following:

4 personal information defined in paragraph (2) of subdivision (g)  
5 for an online account, and no other personal information defined  
6 in paragraph (1) of subdivision (g), the agency may comply with  
7 this section by providing the security breach notification in  
8 electronic or other form that directs the person whose personal  
9 information has been breached to promptly change his or her  
10 password and security question or answer, as applicable, or to take  
11 other steps appropriate to protect the online account with the  
12 agency and all other online accounts for which the person uses the  
13 same user name or email address and password or security question  
14 or answer.

15 (5) In the case of a breach of the security of the system involving  
16 personal information defined in paragraph (2) of subdivision (g)  
17 for login credentials of an email account furnished by the agency,  
18 the agency shall not comply with this section by providing the  
19 security breach notification to that email address, but may, instead,  
20 comply with this section by providing notice by another method  
21 described in subdivision (i) or by clear and conspicuous notice  
22 delivered to the resident online when the resident is connected to  
23 the online account from an Internet Protocol address or online  
24 location from which the agency knows the resident customarily  
25 accesses the account.

26 (e) Any agency that is required to issue a security breach  
27 notification pursuant to this section to more than 500 California  
28 residents as a result of a single breach of the security system shall

39 reasonable integrity of the data system.

1 (b) Any person or business that maintains computerized data

29 enforcement investigation, if that information is possible to  
30 determine at the time the notice is provided.

31 (E) A general description of the breach incident, if that  
32 information is possible to determine at the time the notice is  
33 provided.

34 (F) The toll-free telephone numbers and addresses of the major  
35 credit reporting agencies if the breach exposed a social security  
36 number or a driver's license or California identification card  
37 number.

38 (3) At the discretion of the person or business, the security  
39 breach notification may also include any of the following:
