An act to add Section 66014.3 to the Education Code, relating to public postsecondary education.

LEGISLATIVE COUNSEL'S DIGEST

SB 1022, as amended, Huff. Public postsecondary education: labor market outcome information.

Existing law establishes the California State University and the University of California as 2 of the segments of public postsecondary education in this state. Instruction is provided to students at the 25 institutions constituting the California State University and the 10 institutions constituting the University of California.

This bill would require the California State University, and request the University of California, to publicly provide labor market prematriculation and outcome information relating to their graduates. The information required by the bill would include, but not necessarily be limited to, salary data, *and the percentage distribution of graduates*, classified by industry. The bill would specify requirements for presentation of this data, including the use of easily understood labor market measures, aggregation of the data to the systemwide level and by particular areas of study, timeframes before and after graduation for the presentation of the data in each labor market prematriculation and

outcome category, and adherence to pertinent state and federal privacy laws.

The bill would require that this information be made publicly available through publication on the Internet Web sites of the respective segments, and updated no later than June 1 of each year.

Vote: majority. Appropriation: no. Fiscal committee: yes. State-mandated local program: no.

*The people of the State of California do enact as follows:*

1 SECTION 1. It is the intent of the Legislature that the impact  
2 of public postsecondary education on the employment and earnings  
3 of students be made publicly available, to the extent possible, to  
4 students and families consistently across the segments of public  
5 postsecondary education.

6 SEC. 2. Section 66014.3 is added to the Education Code, to  
7 read:

8 66014.3. (a) The California State University shall, and the  
9 University of California is requested to, publicly provide labor  
10 market prematriculation and outcome information relating to their  
11 graduates. This information shall include, but not necessarily be  
12 limited to, salary data, *and the percentage distribution of graduates*,  
13 classified by industry.

14 (b) The information required by this section shall be provided  
15 using data including, but not necessarily limited to, information  
16 provided by the Employment Development Department pursuant  
17 to Section 1095 of the Unemployment Insurance Code and the  
18 segments' own databases. The information shall be presented in  
19 accordance with all of the following requirements:

20 (1) The data shall be presented in terms of easily understood  
21 labor market measures, such as median annual wage.

22 (2) The data shall be aggregated to the systemwide level and  
23 by particular areas of study.

24 (3) Labor market outcome data for each category shall, at a  
25 minimum, provide data relating to graduates one or two years, and  
26 five years, after their graduation, and prematriculation labor market  
27 data for graduates six years before the receipt of their degrees. The  
28 Legislature encourages the California State University and the  
29 University of California to additionally provide labor market  
30 outcome data for periods longer than five years after graduation.

1 (4) In the collection and publication of data pursuant to this  
2 section, the segments shall adhere to all pertinent state and federal  
3 privacy laws.

4 (c) The information required by this section shall be made  
5 publicly available through publication on the Internet Web sites  
6 of the respective segments, and shall be updated no later than June  
7 1 of each year.
