An act to add Sections 7872 and 7873 to the Labor Code, relating to refineries.

LEGISLATIVE COUNSEL'S DIGEST

SB 1300, as amended, Hancock. Refineries: turnarounds.

Existing law, the California Refinery and Chemical Plant Worker Safety Act of 1990, states that its purpose is to prevent or minimize the consequences of catastrophic releases of toxic, flammable, or explosive chemicals. The act provides for the adoption by the Occupational Safety and Health Standards Board of specified process safety management standards for, among others, refineries that handle acutely hazardous material. The act declares the intent of the Legislature for the standards board and the Division of Occupational Safety and Health to promote worker safety through implementation of training and process safety management, as defined, in refineries and other facilities as deemed appropriate. A violation of the act is a crime.

This bill would require every petroleum refinery employer to, every September 15, submit to the division a full schedule for the following

calendar year of planned turnarounds, meaning a planned, periodic shutdown of a refinery process unit or plant to perform maintenance, overhaul, and repair operations and to inspect, test, and replace process materials and equipment, as specified. The bill would also require a petroleum refinery employer, upon the request of the division, to provide access onsite and provide the division with specified documentation relating to a planned turnaround within a certain period of time, as provided. The bill would, except as specified, prohibit the division from releasing to the public any information submitted to the division pursuant to these provisions that is designated as a trade secret, as defined. The bill would require the division to notify a petroleum refinery employer in writing of a request for the release of information to the public that includes information that the petroleum refinery employer has notified the division is a trade secret, as provided. The bill would authorize an employer to seek a court order prohibiting public disclosure. The bill establishes misdemeanor penalties for knowingly and willfully disclosing trade secrets.

Because a violation of the bill's requirements would be a crime, the bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Vote: majority. Appropriation: no. Fiscal committee: yes.  
State-mandated local program: yes.

*The people of the State of California do enact as follows:*

1 SECTION 1. Section 7872 is added to the Labor Code, to read:  
2 7872. (a) As used in this section and in Section 7873,  
3 “turnaround” means a planned, periodic shutdown, total or partial,  
4 of a refinery process unit or plant to perform maintenance,  
5 overhaul, and repair operations and to inspect, test, and replace  
6 process materials and equipment. “Turnaround” does not include  
7 unplanned shutdowns that occur due to emergencies or other  
8 unexpected maintenance matters in a process unit or plant.  
9 “Turnaround” also does not include routine maintenance, where  
10 routine maintenance consists of regular, periodic maintenance on

1 one or more pieces of equipment at a refinery process unit or plant  
2 that may require shutdown of such equipment.

3 (b) Every September 15, every petroleum refinery employer  
4 shall submit to the division a full schedule of planned turnarounds  
5 for all affected units for the following calendar year.

6 (c) At the request of the division, at least 60 days prior to the  
7 shutdown of a process unit or plant as part of a planned turnaround,  
8 a petroleum refinery employer shall provide access onsite and  
9 allow the division to review the following documentation for the  
10 process unit or plant scheduled to be shut down for that turnaround:

11 (1) All corrosion reports and risk-based inspection reports  
12 generated since the last turnaround.

13 (2) Process hazard analyses generated since the last turnaround.

14 (3) Boiler permit schedules.

15 (4) All management of change records related to repairs, design  
16 modifications, and process changes implemented since the last  
17 turnaround or scheduled to be completed in the planned turnaround  
18 referenced in this subdivision and identified in subdivision (b).

19 (5) Work orders scheduled to be completed in the planned  
20 turnaround referenced in this subdivision and identified in  
21 subdivision (b).

22 (6) All temporary repairs made since the last turnaround,  
23 including, but not limited to, clamps and encapsulations. As used  
24 in this section, “temporary repairs” means repairs made to piping  
25 systems in order to restore sufficient integrity to continue safe  
26 operation until permanent repairs can be scheduled.

27 (7) Notification and description of all repairs, design  
28 modifications, or process changes described in a corrosion report,  
29 risk-based inspection report, process hazard analysis, boiler permit  
30 schedule, management of change record, work order, or other  
31 document listed in paragraphs (1) to (6), inclusive, that the  
32 petroleum refinery employer has deferred to a subsequent  
33 operational period or turnaround.

34 (d) The division may request additional information as necessary  
35 to perform its responsibilities in this part pursuant to Section 6314.

36 (e) At the request of the division, at least 30 days before the  
37 shutdown of a process unit or plant as part of a planned turnaround,  
38 a petroleum refinery employer shall provide access onsite and  
39 allow the division to review any changes to the information or

1 documents reviewed by the division pursuant to subdivision (c)  
2 and relevant supporting documents.

3 (f) At the division's request, a petroleum refinery employer  
4 shall provide the division with physical copies, or, at the division's  
5 discretion, electronic copies if available, of the documentation  
6 reviewed by the division pursuant to subdivisions (c), (d), and (e).

7 (g) By agreement with a petroleum refinery employer, the  
8 division may modify the reporting period as to any individual item  
9 of information.

10 (h) This section is not intended to limit or increase the division's  
11 authority in Part 1 (commencing with Section 6300) to prohibit  
12 use of a place of employment, machine, device, apparatus, or  
13 equipment or any part thereof that constitutes an imminent hazard  
14 to employees.

15 (i) The Legislature finds and declares that the purpose of this  
16 section is to improve the ability of the state to conduct inspections  
17 of petroleum refining operations.

18 SEC. 2. Section 7873 is added to the Labor Code, to read:

19 appropriate court for a declaratory judgment that the information  
20 is subject to protection under subdivision (b) and promptly notifies  
21 the division of that action.

22 (B) Within 120 days of receipt of the notice of the request for  
23 information, the refinery petroleum employer obtains an order  
24 prohibiting disclosure of the information to the public and promptly  
25 notifies the division of that action.
