Assembly Concurrent Resolution No. 38—Relative to unpaid family caregivers.

## LEGISLATIVE COUNSEL'S DIGEST

ACR 38, as amended, Brown. California Task Force on Family Caregiving.

This measure would establish the California Task Force on Family Caregiving, to meet, if a nonstate organization agrees to provide administrative support to the task force, to examine issues relative to the challenges faced by family caregivers and opportunities to improve caregiver support, review the current network and the services and supports available to caregivers, and make policy recommendations to the Legislature. The task force would be required to submit an interim report to the Legislature no later than January 1, 2017, and a final report no later than July 1, 2018.

Fiscal committee: no.

- 1 WHEREAS, A caregiver can be any relative, spouse, partner,
- 2 friend, or neighbor who has a significant relationship with, and
- 3 who provides a broad range of assistance to, an older person or an
- 4 adult with a chronic or disabling condition; and
- 5 WHEREAS, Almost three-fourths of older people living in a
- 6 typical community who receive personal assistance rely exclusively
- 7 on unpaid caregivers for help; and
- 8 WHEREAS, At present, there is no complete inventory of
- 9 caregiving programs available to Californians performing unpaid
- 10 caregiving services for an aging or disabled family member, friend,
- 11 or neighbor; and
- 12 WHEREAS, An estimated 5.8 million adults in the state provide
- 13 care to adult relatives or friends, which equates to an estimated
- 14 3.9 billion hours a year at an estimated value of \$47 billion each
- 15 year; and
- 16 WHEREAS, The economic value of caregivers' unpaid
- 17 contributions is equivalent to 1.25 times the total Medi-Cal
- 18 spending, and 4.1 times the funding allotted to Medi-Cal long-term
- 19 services and supports; and
- 20 WHEREAS, If family caregivers were no longer available, the
- 21 economic cost to California's health care and long-term services
- 22 and supports systems would increase astronomically; and
- 23 WHEREAS, Family support is a key driver in remaining in
- 24 one's home and community, but it comes at substantial physical,

1 emotional, and financial cost to the caregivers, their families, and  
2 to society; and

3 WHEREAS, Fifty-nine percent of all family caregivers are  
4 employed full or part time and family caregivers typically spend  
5 20 hours a week caring for a family member who needs help with  
6 bathing, dressing, and other kinds of personal care, as well as  
7 household tasks such as shopping and managing finances; and

8 WHEREAS, Seventy percent of people with Alzheimer’s disease  
9 or a related disorder live at home and need assistance with activities  
10 of daily living; and

11 WHEREAS, Testimony and data acquired during an Assembly  
12 “Faces of Aging” hearing series in 2014, conducted by the  
13 Assembly Committee on Aging and Long-Term Care, documented  
14 variations in the way different populations respond to caregiving  
15 needs and responsibilities, thus informing policymakers of specific  
16 cultural competencies necessary to meet a diverse population’s  
17 needs, as well as specific untapped resources and strategies that  
18 could relieve caregiver stress; and

19 WHEREAS, It is critical to family caregivers for there to be a  
20 state-led effort to compile an inventory of the resources available  
21 to family caregivers, determine where access barriers in the current  
22 system exist, and consider the cultural and linguistic factors that  
23 impact caregivers and care recipients who are from diverse  
24 populations; and

25 WHEREAS, Consistency of access across the counties is critical  
26 for caregivers and the vulnerable population they serve, so the best  
27 practices in California and in other states should be identified and  
28 considered as means to improve caregiving programs; and

29 WHEREAS, Technology is a critical tool for family caregivers,  
30 and the development of an internet Web site or portal that contains  
31 information about California’s current resources and supports  
32 available in the state’s family caregivers’ community will help  
33 family caregivers better navigate current support services; and

34 WHEREAS, To successfully address the surging population of  
35 older adults who have significant needs for long-term services and  
36 supports, the state must develop methods to both encourage and  
37 support families to assist their aging loved ones and develop ways  
38 to recruit and retain a qualified, culturally competent, responsive  
39 in-home care workforce; now, therefore, be it

1 *Resolved by the Assembly of the State of California, the Senate*  
2 *thereof concurring, That the California Task Force on Family*  
3 *Caregiving is hereby established, which shall consist of 12*  
4 *members as follows:*

5 (a) The Speaker of the Assembly and the Senate Committee on
