

**ASSEMBLY BILL**

**No. 101**

---

**Introduced by Assembly Member Alejo**

January 8, 2015

---

An act to amend Section 33500 of the Education Code, relating to state educational programs.

LEGISLATIVE COUNSEL'S DIGEST

AB 101, as introduced, Alejo. State educational programs: educational advisory bodies.

Existing law establishes preschool programs and public and private elementary and secondary schools throughout the state. Existing law also establishes the State Board of Education and the State Department of Education to provide guidance and support to local educational agencies and other entities that operate schools and preschool programs, and further authorizes the establishment and operation of numerous educational programs on the state level that are administered by the state board, the department, or other state agencies.

Existing law expresses the finding and declaration of the Legislature that there is a need to encourage the adoption of new or improved educational ideas, practices, and techniques in solving critical educational problems in preschool, elementary, and secondary schools throughout the state, but that there are a large number of permanent commissions, committees, and councils, some of which have overlapping duties and functions or that have been perpetuated in existence beyond the original need or purpose for which they were created. Existing law expresses the intent of the Legislature to create 3 levels of educational advisory bodies, as specified.

This bill would make nonsubstantive changes in these provisions.

Vote: majority. Appropriation: no. Fiscal committee: no.  
State-mandated local program: no.

*The people of the State of California do enact as follows:*

1     SECTION 1. Section 33500 of the Education Code is amended  
2     to read:  
3     33500. (a) ~~The Legislature hereby declares that there finds~~  
4     ~~and declares both of the following:~~  
5     (1) *There* is further need to encourage the adoption of new or  
6     improved educational ideas, practices, and techniques in solving  
7     critical educational problems in preschool, elementary, and  
8     secondary schools throughout the state. In recognition of the need  
9     for the planning and developing of new programs involving a wide  
10    range of new approaches designed to improve the quality of  
11    education available in this state, this chapter is expressly enacted  
12    to foster innovation and create change in education, based on  
13    research and proven need. It is the purpose of this chapter to bring  
14    purposeful change and experimentation to schools throughout the  
15    state, through the use of all available resources of the state.  
16    ~~The Legislature further finds that there~~  
17    (2) *There* are in existence a large number of permanent  
18    commissions, committees, and councils, some of which have  
19    overlapping duties and functions, and some of which have been  
20    perpetuated *in existence* beyond the original need or purpose for  
21    which *they were* created. ~~In~~  
22    (b) *Therefore*, in order to provide a more economical, efficient,  
23    and logical structure to educational policymaking, it is the intent  
24    of the Legislature to create three levels of educational advisory  
25    bodies: educational policy advisory commissions, educational  
26    advisory committees, and educational task forces.
