January 26, 2015

An act to add Section 66027.1 to the Education Code, and to amend Section 8310.7 of, and to add Section 8310.6 to, the Government Code, relating to data collection.

LEGISLATIVE COUNSEL'S DIGEST

AB 176, as amended, Bonta. Data collection.

Existing law requires any state agency, board, or commission that directly or by contract collects demographic data as to the ancestry or ethnic origin of Californians to use separate collection categories and tabulations for specified Asian groups and Pacific Island groups, and requires a state agency, board, or commission to include data on specified collection categories and tabulations in every demographic report on ancestry or ethnic origins of California residents that it publishes or releases. Existing law requires specified agencies to use additional separate collection categories and other tabulations for major Asian groups and Native Hawaiian and other Pacific Islander groups, and also requires those agencies to take additional actions, including, among other things, posting, and annually updating, the demographic data collected on their Internet Web sites, and updating the reporting

categories to reflect these Asian and Pacific Islander groups as they are reported for the 2020 decennial census.

This bill would require the updating of the reporting categories for future decennial censuses. The bill would require, on or after July 1, 2016, ~~whenever the State Department of Public Health, the State Department of Health Care Services, or and the Department of Managed Health Care collects demographic data as to the ancestry or ethnic origin of persons for a report that includes specified categories of information; that entity~~ to use the additional separate collection categories and other tabulations for specified Asian groups and Pacific Island groups, and to take additional actions as specified above, ~~including posting the demographic data collected on its Internet Web site under certain circumstances.~~

This bill would, on and after July 1, 2016, require the Board of Governors of the California Community Colleges, the Trustees of the California State University, and the Regents of the University of California, whenever those entities collect demographic data as to the ancestry or ethnic origin of students for a report that includes student admission, enrollment, completion, or graduation rates, to use specified collection and tabulation categories for Asian, Native Hawaiian, and Pacific Islander groups, as specified. The bill would require each entity specified above to make ~~the~~ *this* demographic data publicly available by posting the data on the applicable entity's Internet Web site and would require the updating of the reporting categories for each decennial census. *The bill would not apply these categorization requirements to demographic data of graduate and professional schools of the University of California.* The bill would ~~specify that the bill's provisions would~~ be applicable to the University of California only if the Regents of the University of California, by resolution, make ~~the provisions~~ *it* applicable.

To the extent the bill would impose additional requirements on community colleges, the bill would impose a state-mandated local program.

The California Constitution requires the State to reimburse local agencies and school districts for certain costs mandated by the State. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the State, reimbursement for those costs shall be made pursuant to these statutory provisions.

Vote: majority. Appropriation: no. Fiscal committee: yes.
State-mandated local program: yes.

The people of the State of California do enact as follows:
