ASSEMBLY BILL

No. 192

Introduced by Assembly Member Travis Allen

January 28, 2015

An act to add Sections 5166 and 5168 to the Vehicle Code, relating to license plates.

LEGISLATIVE COUNSEL'S DIGEST

AB 192, as amended, Travis Allen. Specialized license plates.

Existing law establishes a specialized license plate program and requires the Department of Motor Vehicles (DMV) to issue specialized license plates on behalf of a sponsoring state agency that meets certain requirements. Existing law requires that the DMV charge specified additional fees for the issuance, renewal, or transfer of specialized license plates, and requires the DMV to deposit the fees, less the DMV's costs, into the Specialized License Plate Fund. Existing law requires that moneys in the fund be allocated, upon appropriation by the Legislature, to each sponsoring agency in proportion to the amount that is attributable to the agency's specialized license plate program. Existing law authorizes the sponsoring state agency to use these moneys to fund projects and programs that promote the state agency's official policy, mission, or work.

This bill would require the State Coastal Conservancy to apply to the DMV to sponsor a license plate for coastal conservancy awareness, and would require the DMV, in consultation with the State Coastal Conservancy, to design for issuance these special license plates bearing a decal depicting a surfer design, as specified. The bill would require the DMV to deposit the fees for the issuance, renewal, or transfer of these specialized license plates, less the DMV’s costs, into the Coastal Conservancy Awareness Fund, which the bill would establish in the Specialized License Plate Fund, for the deposit of revenue derived from these specialized license plates. The bill would require that these funds be allocated, upon appropriation by the Legislature, to the State Coastal Conservancy to fund specified projects and programs related to coastal conservancy, including providing for the maintenance and operation of coastal access infrastructure.

The bill would require the DMV to deposit fees for the issuance, renewal, or transfer of the Pet Lover’s specialized license plates, less the DMV’s costs, into the Pet Lover’s Fund, which the bill would establish in the Specialized License Plate Fund, for the deposit of revenue derived from these specialized license plates. The bill would require that these funds be allocated, upon appropriation by the Legislature, to the Veterinary Medical Board for disbursement by a nonprofit organization selected by the board to fund grants to providers of no-cost or low-cost animal sterilization services. The bill would require the board to determine eligibility requirements for the grants, establish the grant application process, and develop program specifics. The bill would authorize the board to contract with an entity, including a nonprofit organization, to provide advice, consultation, and administrative services for purposes of implementing and administering the grant program. The bill would require the board to provide oversight for the disbursement of grant funds under the grant program.
