

Assembly Bill No. 775

CHAPTER 700

An act to add Article 2.7 (commencing with Section 123470) to Chapter 2 of Part 2 of Division 106 of the Health and Safety Code, relating to public health.

[Approved by Governor October 9, 2015. Filed with
Secretary of State October 9, 2015.]

LEGISLATIVE COUNSEL'S DIGEST

AB 775, Chiu. Reproductive FACT Act.

Existing law, the Reproductive Privacy Act, provides that every individual possesses a fundamental right of privacy with respect to reproductive decisions. Existing law provides that the state shall not deny or interfere with a woman's right to choose or obtain an abortion prior to viability of the fetus, as defined, or when necessary to protect her life or health. Existing law specifies the circumstances under which the performance of an abortion is deemed unauthorized.

This bill would enact the Reproductive FACT (Freedom, Accountability, Comprehensive Care, and Transparency) Act, which would require a licensed covered facility, as defined, to disseminate a notice to all clients, as specified, stating, among other things, that California has public programs that provide immediate free or low-cost access to comprehensive family planning services, prenatal care, and abortion, for eligible women. The bill would also require an unlicensed covered facility, as defined, to disseminate a notice to all clients, as specified, stating, among other things, that the facility is not licensed as a medical facility by the State of California.

The bill would authorize the Attorney General, city attorney, or county counsel to bring an action to impose a specified civil penalty against covered facilities that fail to comply with these requirements.

The people of the State of California do enact as follows:

SECTION 1. The Legislature finds and declares that:

(a) All California women, regardless of income, should have access to reproductive health services. The state provides insurance coverage of reproductive health care and counseling to eligible, low-income women. Some of these programs have been recently established or expanded as a result of the federal Patient Protection and Affordable Care Act.

(b) Millions of California women are in need of publicly funded family planning services, contraception services and education, abortion services, and prenatal care and delivery. In 2012, more than 2.6 million California

women were in need of publicly funded family planning services. More than 700,000 California women become pregnant every year and one-half of these pregnancies are unintended. In 2010, 64.3 percent of unplanned births in California were publicly funded. Yet, at the moment they learn that they are pregnant, thousands of women remain unaware of the public programs available to provide them with contraception, health education and counseling, family planning, prenatal care, abortion, or delivery.

(c) Because pregnancy decisions are time sensitive, and care early in pregnancy is important, California must supplement its own efforts to advise women of its reproductive health programs. In California, low-income women can receive immediate access to free or low-cost comprehensive family planning services and pregnancy-related care through the Medi-Cal and the Family PACT programs. However, only Medi-Cal providers who are enrolled in the Family PACT program are authorized to enroll patients immediately at their health centers.

(d) The most effective way to ensure that women quickly obtain the information and services they need to make and implement timely reproductive decisions is to require licensed health care facilities that are unable to immediately enroll patients into the Family PACT or Presumptive Eligibility for Pregnant Women Medi-Cal programs to advise each patient at the time of her visit of the various publicly funded family planning and pregnancy-related resources available in California, and the manner in which to directly and efficiently access those resources.

(e) It is also vital that pregnant women in California know when they are getting medical care from licensed professionals. Unlicensed facilities that advertise and provide pregnancy testing and care must advise clients, at the time they are seeking or obtaining care, that these facilities are not licensed to provide medical care.

SEC. 2. The purpose of this act is to ensure that California residents make their personal reproductive health care decisions knowing their rights and the health care services available to them.

SEC. 3. Article 2.7 (commencing with Section 123470) is added to Chapter 2 of Part 2 of Division 106 of the Health and Safety Code, to read:

Article 2.7. Reproductive FACT Act

123473. (a) Covered facilities that fail to comply with the requirements of this article are liable for a civil penalty of five hundred dollars (\$500) for a first offense and one thousand dollars (\$1,000) for each subsequent offense. The Attorney General, city attorney, or county counsel may bring an action to impose a civil penalty pursuant to this section after doing both of the following:
