AMENDED IN ASSEMBLY APRIL 21, 2015
CALIFORNIA LEGISLATURE—2015–16 REGULAR SESSION

ASSEMBLY BILL

No. 862

Introduced by Committee on Agriculture

February 26, 2015

An act to amend Sections 405, 409, and 410 of the Food and Agricultural Code, relating to the Department of Food and Agriculture.

LEGISLATIVE COUNSEL'S DIGEST

AB 862, as amended, Committee on Agriculture. Department of Food and Agriculture: powers and duties.

Existing law authorizes the Department of Food and Agriculture, with the prior approval of the Department of Fish and Wildlife and the State Department of Health Care Services, to reproduce or distribute biological control organisms that are not detrimental to the public health and safety that are known to be useful in reducing or preventing plant or animal damage due to pests or diseases.

This bill would ~~instead authorize the department, with the prior approval of the Department of Fish and Game and the State Department of Public Health, to reproduce or distribute biological control organisms that are not detrimental to the environment or the public health and safety that are known to be useful in reducing or preventing plant or animal damage due to pests or diseases.~~ *substitute the State Department of Public Health for the State Department of Health Care Services in these provisions.*

Existing law authorizes the ~~department~~ *Department of Food and Agriculture*, by rule or regulation, to provide for the issuance and

renewal on a 2-year basis of licenses, certificates of registration, or other indicia of authority issued pursuant to the Food and Agricultural Code by the department or any agency in the department, and to set the fees for the issuance or renewal of those licenses, certificates of registration, or other indicia.

This bill would instead specify that those licenses, certificates of registration, or other indicia of authority issued pursuant to the Food and Agricultural Code are those issued by the department or any division, office, or other entity within the department.

Existing law specifies that it is the intent of the Legislature that the department, in cooperation with appropriate county officials and industry representatives, develop mutually satisfactory sources of nonstate funding to augment budget programs in the areas of county agricultural commissioners and weights and measures.

This bill would clarify that provision to specify that it is the intent of the Legislature that the department develop mutually satisfactory sources of nonstate funding to augment budget programs in the areas of county agricultural commissioners and county sealers of weights and measures.

Vote: majority. Appropriation: no. Fiscal committee: yes.
State-mandated local program: no.
