An act to add Section 66749.5 to the Education Code, relating to public postsecondary education.

LEGISLATIVE COUNSEL'S DIGEST

AB 1016, as amended, Santiago. Public postsecondary education: Student Transfer Achievement Reform Act.

Existing law establishes the California Community Colleges and the California State University as 2 of the segments of public postsecondary education in this state. Existing law, the Student Transfer Achievement Reform Act, encourages community colleges to facilitate the acceptance of credits earned at other community colleges toward the associate degree for transfer. The act requires the California State University to guarantee admission with junior status to a community college student who meets the requirements for the associate degree for transfer, and provides that admission to the California State University under these provisions does not guarantee admission for specific majors or campuses.

This bill would require the Office of the Chancellor of the California Community Colleges to report to the Legislature, on or before ~~March~~

December 1, 2016, the status of each community college’s compliance with the act’s provisions related to creating associate degrees for transfer. To the extent this reporting requirement would place additional requirements on community college districts, it would impose a state-mandated local program.

This bill would require the California State University to submit 2 reports to the Legislature on campus acceptance of transfer model curricula by concentration, on or before ~~March~~ December 1, 2016, and on or before ~~March~~ December 1, 2017, respectively. The bill would require the California State University, commencing December 1, 2016, to annually, until November 30, 2021, publicly post available data, including, among other data, the number of students with an associate degree for transfer who applied to a campus of the California State University and were redirected to another campus than that indicated in the application, and the proportion of students with an associate degree for transfer who graduate from the California State University, as specified.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

Vote: majority. Appropriation: no. Fiscal committee: yes.  
State-mandated local program: yes.
