

AMENDED IN ASSEMBLY APRIL 8, 2015

CALIFORNIA LEGISLATURE—2015–16 REGULAR SESSION

ASSEMBLY BILL

No. 1253

Introduced by Assembly Member Steinorth

February 27, 2015

An act to amend Section 3151.1 of the Business and Professions Code, relating to optometry.

LEGISLATIVE COUNSEL'S DIGEST

AB 1253, as amended, Steinorth. Optometry: license: retired volunteer service designation.

The Optometry Practice Act provides for the licensure and regulation of the practice of optometry by the State Board of Optometry and makes a violation of the act a crime. The act requires the board to issue, upon application and payment of a specified fee, a retired license to an optometrist with a current and active license, and prohibits the holder of a retired license from engaging in the practice of optometry. The act authorizes the holder of a retired license issued for less than 3 years to reactivate the license to active status if certain requirements have been met, including, the filing of an application for reactivation on a form prescribed by the board. The act authorizes the holder of a retired license issued for more than 3 years to reactivate the license to active status if certain additional requirements have been met, including, that the holder of the retired license passes both the National Board of Examiners in Optometry's Clinical Skills examination, or other clinical examination approved by the board, and the board's jurisprudence examination. The act requires the board to issue a license with retired volunteer service designation to an optometrist who holds a retired license or a license that is current and active upon application and payment of a specified

fee if the applicant certifies that he or she has completed the required continuing education hours. The act requires the applicant for a license with retired volunteer service designation to, among other things, certify that the sole purpose of the license with retired volunteer service designation is to provide voluntary, unpaid optometric services at health fairs, vision screenings, and public service eye programs.

This bill would limit the existing requirement that the board issue a license with retired volunteer service designation to an optometrist who holds a retired license to an optometrist who holds a retired license issued for less than ~~3~~ 5 years. The bill would require the board to issue, upon application and payment of a specified fee, a license with retired volunteer service designation to an optometrist who holds a retired license issued for ~~3~~ 5 years or more, if that licensee meets all the requirements for an optometrist to reactivate his or her retired license issued for more than 3 years, as described above, and satisfies all other requirements of an applicant for a license with retired volunteer service designation. *The bill would also require an applicant for a license with retired volunteer service designation who has held a retired license for more than 3 years to complete, and certify on the application that he or she has completed, an additional 50 hours of formal continuing education coursework. By expanding the scope of the crime of perjury, this bill would impose a state-mandated local program.*

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Vote: majority. Appropriation: no. Fiscal committee: yes.
 State-mandated local program: ~~no~~ yes.
