An act to add Section 706 to the Public Utilities Code, relating to electrical and gas corporations.

LEGISLATIVE COUNSEL'S DIGEST

AB 1266, as amended, Gonzalez. Electrical and gas corporations: excess compensation.

Under existing law, the Public Utilities Commission has regulatory authority over public utilities, including electrical corporations and gas corporations. Existing law authorizes the commission to fix the rates and charges for every public utility, and requires that those rates and charges be just and reasonable. Existing law requires that any expense resulting from a bonus paid to an executive officer, as defined, of a public utility that has ceased to pay its debts in the ordinary course of business, be borne by the shareholders of the public utility and prohibits any expense from being recovered in rates.

This bill would prohibit an electrical corporation or gas corporation from recovering from ratepayers expenses for excess compensation, as defined, paid to an officer of the utility following a triggering event, as defined, unless the utility obtains the approval of the commission. Following a triggering event and prior to paying or seeking recovery of excess compensation, the electrical corporation or gas corporation would be required to file a Tier 3 advice letter with the commission containing specified ~~information and~~ *information*. *If the electrical corporation or gas corporation sought or received authorization prior*

*to the triggering event to recover excess compensation in rates, the commission would be required to open a proceeding or expand the scope of an existing proceeding to evaluate the advice letter and, following a duly notice public hearing in the proceeding, to issue a written decision determining ~~whether, and if so, how much, of each officers' compensation shall be recoverable from~~ whether any expenses for excess compensation that the corporation was authorized to recover in rates should be refunded to ratepayers.*

Under existing law, a violation of the Public Utilities Act or any order, decision, rule, direction, demand, or requirement of the commission is a crime.

Because the provisions of this bill would be a part of the act and because a violation of an order or decision of the commission implementing its requirements would be a crime, the bill would impose a state-mandated local program by creating a new crime.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Vote: majority. Appropriation: no. Fiscal committee: yes.  
State-mandated local program: yes.

*The people of the State of California do enact as follows:*

38 Section 6 of Article XIII B of the California Constitution because

3 the Government Code, or changes the definition of a crime within  
4 the meaning of Section 6 of Article XIII B of the California
