

ASSEMBLY BILL

No. 1336

Introduced by Assembly Member Salas

February 27, 2015

An act to amend Section 38571 of the Health and Safety Code, relating to greenhouse gases.

LEGISLATIVE COUNSEL'S DIGEST

AB 1336, as introduced, Salas. California Global Warming Solutions Act of 2006: methodologies.

The California Global Warming Solutions Act of 2006 designates the State Air Resources Board as the state agency charged with monitoring and regulating sources of emissions of greenhouse gases. The state board is required to adopt a statewide greenhouse gas emissions limit equivalent to the statewide greenhouse gas emissions level in 1990 to be achieved by 2020. The act requires the state board to adopt methodologies for the quantification of voluntary greenhouse gas emission reductions.

This bill would make a technical, nonsubstantive change to that provision.

Vote: majority. Appropriation: no. Fiscal committee: no.
State-mandated local program: no.

The people of the State of California do enact as follows:

- 1 SECTION 1. Section 38571 of the Health and Safety Code is
- 2 amended to read:
- 3 38571. The state board shall adopt methodologies for the
- 4 quantification of voluntary greenhouse gas emission reductions.

1 The state board shall adopt regulations to verify and enforce any
2 voluntary greenhouse gas emission reductions that are authorized
3 by the state board ~~for use~~ *to be used* to comply with greenhouse
4 gas emission limits established by the state board. The adoption
5 of methodologies is exempt from the rulemaking provisions of the
6 Administrative Procedure Act (Chapter 3.5 (commencing with
7 Section 11340) of Part 1 of Division 3 of Title 2 of the Government
8 Code).
