

AMENDED IN ASSEMBLY MARCH 26, 2015

CALIFORNIA LEGISLATURE—2015–16 REGULAR SESSION

ASSEMBLY BILL

No. 1363

Introduced by Assembly Member Salas

February 27, 2015

An act to amend ~~Section 411~~ *Sections 17001.5 and 17002* of the Food and Agricultural Code, relating to ~~food and agriculture~~ *animals*.

LEGISLATIVE COUNSEL'S DIGEST

AB 1363, as amended, Salas. ~~Food and agriculture: production forecasts.~~ *Animals: estrays: livestock animals.*

Existing law prescribes requirements for the seizure, management, and care of estrays. Existing law, for purposes of those provisions, defines "estrays" to mean any impounded or seized bovine animal, horse, mule, sheep, swine, or burro whose owner is unknown or cannot be located. Existing law requires that any animal that is seized by, or comes into the possession of, an inspector pursuant to those provisions, be disposed of in accordance with specified requirements. Existing law makes it a misdemeanor to violate specified provisions in the Food and Agricultural Code governing the care and treatment of animals, including estrays.

This bill would additionally include any other livestock animal within that definition of "estrays," and would instead require that any animal that is seized by, or comes into the possession of, an inspector pursuant to those provisions be managed in accordance with specified requirements. The inclusion of other livestock animals within the definition of "estrays" would expand the definition of a crime, thereby imposing a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

~~Existing law establishes the Department of Food and Agriculture and vests with the department various duties and obligations related to regulation of the agricultural industry of the state. Existing law requires the department to supply the Department of Water Resources with a specified forecast that estimates the amount of production of food, fiber, livestock, and other farm products, as specified.~~

~~This bill would make nonsubstantive changes in the provisions relating to that forecast.~~

Vote: majority. Appropriation: no. Fiscal committee: ~~no~~-yes.
 State-mandated local program: ~~no~~-yes.
