An act relating to school facilities.

LEGISLATIVE COUNSEL'S DIGEST

AB 1372, as introduced, Holden. School facilities: funding.

Existing law, the Leroy F. Greene School Facilities Act of 1998 (the Greene Act), requires the State Allocation Board to allocate to applicant school districts prescribed per-unhoused-pupil state funding for construction and modernization of school facilities, including hardship funding, and supplemental funding for site development and acquisition, and requires the board to adopt rules and regulations for the administration of the Greene Act.

Existing law, the Field Act, generally requires the Department of General Services to supervise the design and construction of, the reconstruction or alteration of, or the addition to, a school building to ensure, among other things, that plans and specifications comply with adopted rules and regulations and building standards.

This bill would state the intent of the Legislature to enact legislation to adopt a long-term funding solution to ensure California meets its obligation to provide adequate funding to school districts for facility construction and maintenance.
