**ASSEMBLY BILL**

**No. 1549**

**Introduced by Assembly Member Wood**

September 11, 2015

---

---

An act to add Section 14051 to the Government Code, relating to highways.

LEGISLATIVE COUNSEL'S DIGEST

AB 1549, as amended, Wood. Department of Transportation: state highway rights-of-way: fiber optic cables.

Existing law provides that the Department of Transportation has full possession and control of state highways and associated property. Existing law provides for the department to issue encroachment permits with respect to structures and activities in, under, or over any portion of the right-of-way of a state highway.

This bill would require the department to maintain an inventory on a centralized database of all broadband conduits that house fiber optic communication cables and are owned by the department, located on state highway rights-of-way, and installed on or after January 1, 2017, and to make that information ~~available~~ *available*, upon ~~request~~ of

*request, to* companies or organizations working on broadband deployment. The bill would require the department to notify those companies and organizations on its Internet Web site of specified department-led highway construction projects and would authorize those companies ~~or~~ *and* organizations to collaborate with the department to install a broadband conduit as part of each project. The bill would require the department, as part of each project, to install broadband conduit capable of supporting fiber optic communication cables if no company or organization working on broadband deployment collaborates with the department and no broadband conduit previously exists in a project area.

Vote: majority. Appropriation: no. Fiscal committee: yes.  
State-mandated local program: no.

*The people of the State of California do enact as follows:*

- 1 SECTION 1. Section 14051 is added to the Government Code,
- 2 to read:
- 3 14051. (a) For purposes of this section, “companies or
- 4 organizations working on broadband deployment” includes, but
- 5 is not limited to, local governments, nonprofit organizations, *cable*
- 6 *television corporations, as defined in Section 216.4 of the Public*
- 7 *Utilities Code*, and telephone corporations, as defined in Section
- 8 234 of the Public Utilities Code.
- 9 (b) The department shall maintain an inventory on a centralized
- 10 database of all broadband conduits that house fiber optic
- 11 communication cables and are owned by the department, located
- 12 on state highway rights-of-way, and installed on or after January
- 13 1, 2017. The department shall make the information ~~available~~
- 14 *available, upon request of request, to* companies or organizations
- 15 working on broadband deployment.
- 16 (c) (1) During the design phase of a department-led highway
- 17 construction project that is parallel to the highway, spans at least
- 18 two overpasses, and involves construction methods that are suitable
- 19 for installing broadband conduit, the department shall notify
- 20 companies and organizations working on broadband deployment
- 21 of the project on its Internet Web site to encourage collaborative
- 22 broadband installations.
- 23 (2) For the purpose of supporting fiber optic communication
- 24 cables, after receiving notification from the department, a company

1 or organization working on broadband deployment may collaborate  
2 with the department to install a broadband conduit as part of the  
3 project.

4 (3) If no company or organization working on broadband  
5 deployment collaborates with the department and no broadband  
6 conduit previously exists in the project area, the department, as  
7 part of the project, shall install a broadband conduit capable of  
8 supporting fiber optic communication cables.

9 (4) Nothing in paragraphs (1) to (3), inclusive, requires the  
10 department to report on cables owned by other entities.

O
