## LEGISLATIVE COUNSEL'S DIGEST

AB 1600, as amended, Committee on Budget. ~~Budget Act of 2016.~~  
*School finance: education omnibus trailer bill.*

(1) *Existing law, the Child Care and Development Services Act, requires the Superintendent of Public Instruction to administer child care and development programs that offer a full range of services for eligible children from infancy to 13 years of age. The act requires families to meet certain requirements in various areas to be eligible for federal and state subsidized child development services. Existing law also provides for income eligibility standards for families to receive child care and development services. Existing law provides that “income eligible,” for purposes of the act, means that a family’s adjusted monthly income is at or below 70% of the state median income, adjusted for family size, and adjusted annually. Notwithstanding this provision, existing law sets the income eligibility limits for the 2014–15 fiscal year at 70% of the state median income that was in use for the 2007–08 fiscal year, adjusted for family size.*

*This bill would require, if only one parent has signed an application for enrollment in child care services and the information provided on the application indicates that there is a second parent who has not signed the application, the parent who has signed the application to self-certify the presence or absence of the second parent under penalty of perjury. By expanding the crime of perjury, the bill would impose a state-mandated local program. The bill would prohibit requiring the parent who has signed the application to submit additional information documenting the presence or absence of the second parent. The bill would also set the income eligibility limits for the 2016–17 fiscal year at 70% of the state median income that was in use for the 2007–08 fiscal year, adjusted for family size.*

(2) *The Child Care and Development Services Act requires the Superintendent of Public Instruction to implement a plan that establishes reasonable standards and assigned reimbursement rates for child care services, as provided. Existing law provides that the standard reimbursement rate for a 250-day year is \$9,572.50 per unit of average daily enrollment, and the full-day state preschool reimbursement rate for a 250-day year is \$9,632.50 per unit of average daily enrollment.*

*This bill would make those rates effective only until December 31, 2016, and, commencing January 1, 2017, would increase those rates to \$10,529.75 and \$10,595.75, respectively.*

(3) Existing law requires the cost of child care services provided to recipients of the California Work Opportunity and Responsibility to Kids (CalWORKs) program under specified law to be governed by regional market rates. Existing law requires the regional market rate ceiling to be established at 104.5% of the greater of 2 figures.

This bill would make those provisions operative only until December 31, 2016. The bill, commencing January 1, 2017, and until June 30, 2018, would require the regional market rate ceiling to be established at the 75th percentile of the 2014 regional market rate survey for that region or at the regional market rate ceiling for that region as it existed on December 31, 2016, whichever is greater. The bill, commencing July 1, 2018, would require the regional market rate ceilings to be established at the 75th percentile of the 2014 regional market rate survey for that region.

(4) Existing law prohibits reimbursement to license-exempt child care providers that exceeds 65% of the family child care home rate, as specified.

This bill would make that provision operative until December 31, 2016, and, commencing January 1, 2017, would prohibit reimbursement to license-exempt child care providers that exceeds 70% of the family child care home rate, as specified.

(5) Existing law requires the State Department of Education to implement the regional market rate schedules based upon the 85th percentile of county aggregates, as determined by the regional market rate survey conducted in 2009, and, commencing January 1, 2015, requires the regional market rate schedule developed pursuant to that provision to be reduced by 10.11 percent. Existing law requires the department, if a market rate ceiling for a county is less than the ceiling provided for that county before January 1, 2015, to use the ceiling from the regional market rate survey conducted in 2005, and requires, commencing October 1, 2015, the regional market rate ceilings for all counties to be increased by 4.5%.

This bill would delete those provisions and would instead require the department to implement the regional market rate schedules based upon county aggregates, as specified in a certain provision and the annual Budget Act.

(6) Existing law establishes the K–12 High-Speed Network (K–12 HSN) to, among other things, provide high-speed, high-bandwidth Internet connectivity to the public school system. Existing law provides for the administration of the K–12 HSN by a Lead Education Agency

*selected by the Superintendent of Public Instruction, and requires the Lead Education Agency to develop an annual budget request for K–12 HSN for submission to the State Department of Education and the Department of Finance to be included in the annual Budget Act.*

*This bill would require the Superintendent to apportion  $\frac{3}{4}$  of the total amount appropriated in a given fiscal year by August 31 and to apportion up to  $\frac{1}{4}$  of the total amount appropriated by January 31.*

*(7) Existing law requires, for the 1990–91 fiscal year and each fiscal year thereafter, that moneys to be applied by the state for the support of school districts, community college districts, and direct elementary and secondary level instructional services provided by the state be distributed in accordance with certain calculations governing the proration of those moneys among the 3 segments of public education. Existing law makes that provision inapplicable to the 1992–93 to 2015–16 fiscal years, inclusive.*

*This bill would also make that provision inapplicable to the 2016–17 fiscal year.*

*(8) Section 8 of Article XVI of the California Constitution sets forth a formula for computing the minimum amount of revenues that the state is required to appropriate for the support of school districts and community college districts for each fiscal year.*

*This bill would appropriate \$218,000,000 from the General Fund to the Controller for allocation to school districts and community college districts for the purpose of offsetting the 2009–10 outstanding balance of the minimum funding obligation to school districts and community college districts, as specified.*

*(9) Existing law establishes the office of Superintendent of Public Instruction and assigns numerous duties to that office with respect to the funding and governance of public elementary and secondary education in this state. Existing law also establishes certain block grants that may be apportioned to local educational agencies for specified purposes.*

*This bill would appropriate \$200,000,000 from the General Fund to the Superintendent of Public Instruction for allocation by the Superintendent to establish the College Readiness Block Grant program. The bill would specify that the College Readiness Block Grant would be established to provide California’s high school pupils, particularly unduplicated pupils, additional supports to increase the number who enroll at institutions of higher education and complete an undergraduate degree within four years.*

*(10) Existing law establishes the Foster Youth Services Coordinating Program, administered by the Superintendent of Public Instruction, as specified, to provide supplemental funding to county offices of education, or a consortium of county offices of education, to coordinate and ensure that local educational agencies within its jurisdiction are providing services to foster youth pupils pursuant to a foster youth services coordinating plan. Existing law authorizes a county office of education, or consortium of county offices of education, to apply to the Superintendent for grant funding, to the extent funds are available, to operate an education-based foster youth services coordinating program to provide educational support for pupils in foster care. Existing law requires the Superintendent, on or before October 31, 2015, to develop an allocation formula to determine the allocation amounts for which each county office of education or consortium of county offices of education is eligible and, within 30 days, to submit the allocation formula to the appropriate policy and fiscal committees of the Legislature and the Department of Finance for review and to the Department of Finance for approval, as specified.*

*This bill would, commencing with the 2016–17 fiscal year, instead require the Superintendent to provide a base grant of \$75,000 to each participating county office of education or consortia of county offices of education that served at least one foster youth pupil in the prior fiscal year. After providing base grants, the bill would require the Superintendent to allocate the remaining funding to participating county offices of education or consortium of county offices of education based on the following criteria: 70% of the allocation shall be based on the number of pupils in foster care in the county and 30% of the allocation shall be based on the number of school districts in the county.*

*(11) Existing law establishes minimum requirements for the issuance of a preliminary multiple or single subject teaching credential by the Commission on Teacher Credentialing. Among other requirements, existing law requires satisfactory completion of a program of professional preparation accredited by the Committee on Accreditation, but specifies that the program shall not include more than 2 years of full-time study, except for certain programs, including for integrated programs of subject matter and professional preparation. Existing law requires an integrated program of professional preparation to enable candidates for teaching credentials to engage in professional preparation, concurrently with subject matter preparation, while completing baccalaureate degrees at regionally accredited*

*postsecondary institutions and to provide opportunities for candidates to complete intensive field experiences in public elementary and secondary schools early in the undergraduate sequence.*

*Existing law requires that an integrated program of professional preparation offered by the California State University be designed to concurrently lead to a preliminary multiple subject or single subject teaching credential and a baccalaureate degree.*

*This bill would require those intensive field experiences to include student teaching. The bill would authorize a postsecondary educational institution to offer a 4-year or 5-year integrated program of professional preparation that allows a student to earn a baccalaureate degree and a preliminary multiple or single subject teaching credential, or an education specialist instruction credential authorizing the holder to teach special education, including student teaching requirements, concurrently and within 4 or 5 years of study. The bill would, contingent upon appropriation of funds in the annual Budget Act or another statute, require the commission to develop and implement a program to award grants of up to \$250,000 each to postsecondary educational institutions for the development of transition plans to guide the creation of 4-year integrated programs of professional preparation, as provided.*

*The bill would instead require that an integrated program of professional preparation offered by the California State University be designed to concurrently lead to a preliminary multiple subject or single subject teaching credential, or an education specialist instruction credential authorizing the holder to teach special education, and a baccalaureate degree.*

*The bill would also, for the 2016–17 fiscal year, appropriate \$5,000,000 from the General Fund to the Commission on Teacher Credentialing for allocation to a local educational agency to establish the California Center on Teaching Careers, as specified, for the purpose of recruiting qualified and capable individuals into the teaching profession.*

*(12) The Wildman-Keeley-Solis Exemplary Teacher Training Act of 1997 establishes the California School Paraprofessional Teacher Training Program for the purpose of recruiting paraprofessionals to participate in a program designed to encourage them to enroll in teacher training programs and to provide instructional service as teachers in the public schools. The act requires, among other things, that the Commission on Teacher Credentialing, in consultation with certain other educational entities, select, pursuant to specified criteria, 24 or*

*more school districts or county offices of education representing rural, urban, and suburban areas that apply to participate in the program. The act requires a school district or county office of education to require a person participating in the program to commit to fulfilling certain specified obligations relating to obtaining a teaching credential and employment as a teacher in the school district or county office of education. The act requires a school district or county office of education to require a program participant to obtain a certificate of clearance from the commission and provide verification of a specified level of academic achievement prior to participating in the program. The act expresses the intent of the Legislature that, in each fiscal year, funding for the California School Paraprofessional Teacher Training Program be allocated to the commission for grants to school districts and county offices of education, limits grants to \$3,500 per program participant per year, and makes funding for the grants contingent upon an appropriation in the annual Budget Act.*

*This bill would substantially revise those provisions to instead establish the California Classified School Employee Teacher Credentialing Program for the purpose of recruiting classified school employees to participate in a program designed to encourage them to enroll in teacher training programs and to provide instructional service as teachers in the public schools and would expand the program to authorize charter schools to participate. Subject to an appropriation for these purposes, the bill would require the commission, among other things, to solicit applications for funding, adopt selection criteria, contract with an independent evaluator to conduct an evaluation of the program, and to make a specified report to the Legislature, as specified.*

*The bill would, for the 2016–17 fiscal year, appropriate \$20,000,000 from the General Fund to the Commission on Teacher Credentialing for the California Classified School Employee Teacher Credentialing Program to be available for the 2016–17, 2017–18, 2018–19, 2019–20, and 2020–21 fiscal years. The bill would require the commission to allocate grants, not exceed \$4,000 per participant per year, for up to 1,000 new participants per year.*

*(13) Existing law requires the Superintendent of Public Instruction, by no later than July 1, 2017, to provide the Legislature with an evaluation of kindergarten program implementation in the state, including part-day and full-day kindergarten programs. Existing law requires the evaluation to include, among other things, recommendations for best practices for providing full-day kindergarten programs.*

*This bill would require the evaluation to also include an estimate of the average costs, including fixed and marginal costs, associated with full-day and part-day kindergarten programs and options for incentivizing full-day kindergarten, including providing differentiated funding rates for full-day and part-day kindergarten.*

*(14) Existing law provides for the State Department of Education, in cooperation with school districts and county superintendents of schools, to provide information and limited financial assistance to encourage school breakfast program startup and expansion into all qualified schools, as specified. Existing law authorizes the department to award grants of up to \$15,000 per schoolwide on a competitive basis to school districts, county superintendents of schools, or entities approved by the department for nonrecurring expenses incurred in initiating or expanding a school breakfast program, as prescribed.*

*This bill would authorize the use of grants awarded under these provisions to implement school breakfast programs that serve breakfast after the start of the schoolday. The bill would also appropriate \$2,000,000 from the General Fund to the Superintendent of Public Instruction for grants awarded pursuant to the provisions of existing law described above, to be available for the 2017–18 and 2018–19 fiscal years. The bill would specify that up to \$1,000,000 of these funds would be prioritized annually for school districts or county superintendents of schools to start or expand programs serving school breakfasts after the start of the schoolday in school districts where at least 60% of enrolled pupils are needy children, as defined.*

*(15) Existing law, on or before July 1, 2014, requires the governing board of each school district and each county board of education to adopt a local control and accountability plan. Existing law requires the governing board of each school district and each county board of education to update its local control and accountability plan before July 1 of each year. Existing law requires a local control and accountability plan to include, among other things, a description of the annual goals to be achieved for each state priority, as specified, for all pupils and certain subgroups of pupils, including, among others, pupils who are English learners or foster youth.*

*Existing law, the Charter Schools Act of 1992, requires a charter school petition to contain those same elements. Existing law requires, on or before July 1, 2015, and each year thereafter, a charter school to annually update the goals and annual actions to achieve those goals, as specified, including a requirement that the charter school consult*

*with teachers, principals, administrators, other school personnel, parents, and pupils in developing the annual update. The act requires each chartering authority to, among other things, ensure that each charter school under its authority complies with all reports required of charter schools by law, including the annual update referenced above, and requires each charter school to annually prepare and submit specified reports to its chartering authority and the county superintendent of schools, including the update referenced above.*

*This bill would specifically reference those charter school petition and update requirements as a local control and accountability plan and an update to a local control and accountability plan, respectively. The bill would also require a charter school's local control and accountability plan, in addition to the update, to be developed in consultation with teachers, principals, administrators, other school personnel, parents, and pupils. The bill would also require a charter school to prepare and submit the local control and accountability plan with its update and would require the chartering authority to ensure compliance with these actions. To the extent this would impose additional duties on local educational agency officials, the bill would impose a state-mandated local program.*

*This bill would also, for the 2016–17 fiscal year, appropriate \$20,000,000 from the General Fund to the State Department of Education to support charter school startup grants in an amount not to exceed \$575,000 per eligible applicant operating a classroom-based charter school and \$375,000 per eligible applicant operating a nonclassroom-based charter school, as specified.*

*(16) Existing law establishes the California Collaborative for Educational Excellence for purposes of advising and assisting school districts, county superintendents of schools, and charter schools in achieving the goals set forth in a local control and accountability plan.*

*This bill would require the collaborative, commencing with the 2016–17 fiscal year, to establish, using a specified amount of moneys appropriated by the bill, a statewide process to provide specified professional development training to school districts, county offices of education, and charter schools for the purpose of successfully utilizing the evaluation rubrics adopted by the state board.*

*The bill would require the collaborative to submit an implementation plan to the relevant policy and fiscal committees of the Legislature, the Director of Finance, and the Legislative Analyst's Office within 30 days of the state board's adoption of the evaluation rubrics, as specified.*

*The bill also would require the collaborative, during the 2017–18 fiscal year, to conduct a survey of school districts, county offices of education, and charter schools on how they used the evaluation rubrics. The bill would authorize the collaborative to contract with one or more entities to develop, administer, monitor, and analyze the survey.*

*The bill would require the collaborative, during the 2016–17 and 2017–18 fiscal years, to implement a pilot program that will inform its long-term efforts to advise and assist school districts, county superintendents of schools, and charter schools in improving pupil outcomes. The bill would require the collaborative, after consulting with the Superintendent of Public Instruction, to assist school districts, county offices of education, and charter schools in the pilot program, as provided, but participation in the pilot program by a local educational agency would be voluntary. The bill would require the governing board of the collaborative to submit to the relevant policy and fiscal committees of the Legislature, the Director of Finance, and the Legislative Analyst's Office an implementation plan for the pilot program on or before August 15, 2016, as specified, and a report about lessons learned from the pilot program and its implications for the ongoing work of the collaborative on or before November 1, 2018.*

*The bill would appropriate \$24,000,000 from the General Fund to the State Department of Education for transfer by the Controller to Section A of the State School Fund for allocation by the Superintendent to the Riverside County Office of Education to support the collaborative for purposes of these provisions.*

*(17) Existing law authorizes the Superintendent of Public Instruction to direct the California Collaborative for Educational Excellence to advise and assist a school district, county superintendent of schools, or charter school in specified circumstances.*

*This bill would instead authorize the collaborative, after consulting with the Superintendent, to accept a request or referral to advise or assist a school district, county superintendent of schools, or charter school in those circumstances.*

*(18) Existing law establishes a system of public elementary and secondary schools in this state and authorizes local educational agencies throughout the state to operate schools and provide instruction to pupils in kindergarten and grades 1 to 12, inclusive. Existing law requires the adopted course of study for grades 7 to 12, inclusive, to include specified areas of study, including, among others, mathematics.*

*This bill would establish the Mathematics Readiness Challenge program to be administered by the State Department of Education. The bill would require that the program adhere to the minimum criteria, standards, and requirements set forth in a specified federal statute.*

*The bill would provide that the department would make awards to eligible partnerships selected by a 3-person committee consisting of one representative each from the department, the California State University, and the California Mathematics Project to award grants of \$1,280,000 each to 5 eligible partnerships, as specified. The bill would specify the funding source for the grants and would require the grants to be used for professional development for teachers, paraprofessionals, and principals for these purposes and for the development and provision of assistance necessary for the professional development of those individuals, consistent with federal law. The bill would also require the Trustees of the California State University, on or before November 30, 2018, to report to the Director of Finance and the Legislature any policy changes made based on evidence collected through the program.*

*(19) Existing law authorizes the governing board of a school district or a county office of education to offer independent study to meet the educational needs of pupils in accordance with prescribed criteria. Existing law requires a written agreement for each independent study pupil, not to exceed one school year, signed by prescribed individuals, and maintained on file, which is authorized to include maintaining it electronically.*

*This bill would authorize supplemental agreements, assignment records, work samples, and attendance records assessing time value of work or evidence that an instructional activity occurred to also be maintained as an electronic file, as specified.*

*(20) Existing law requires the Superintendent of Public Instruction, with the approval of the State Board of Education, to develop an Academic Performance Index (API), as specified, to measure the performance of schools and school districts. Existing law authorizes the Superintendent, with the approval of the state board, for the 2013–14 and 2014–15 school years only, to not provide an API score to a school or school district due to a determination by the Superintendent that a transition to new standards-based assessments would compromise comparability of results across schools or school districts.*

*This bill would extend that authorization to the 2015–16 school year as well.*

(21) Existing law prohibits the state reimbursement of a nonpublic, nonsectarian agency for special education and related services, administration, or supervision provided by an individual who is or was an employee of a contracting local educational entity within the last 365 days, with specified exceptions.

This bill would repeal that prohibition.

(22) Existing law requires the Superintendent of Public Instruction, commencing with the 2004–05 fiscal year and each fiscal year thereafter, to make certain calculations for, and the State Department of Education to apportion certain amounts to, special education local plan areas, as provided, with respect to children and youth residing in foster family homes, foster family agencies, group homes, skilled nursing facilities, intermediate care facilities, and community care facilities.

This bill would, notwithstanding certain provisions, require the Superintendent to use the rate classification levels as they exist on December 31, 2016, and the capacity of each group home licensed by the State Department of Social Services located in each special education local plan area on December 31, 2016, for purposes of the 2016–17 fiscal year funding for group homes.

(23) Existing law establishes the California Career Technical Education Incentive Grant Program, under the administration of the State Department of Education, as a state education, economic, and workforce development initiative with the goal of providing pupils in kindergarten and grades 1 to 12, inclusive, with the knowledge and skills necessary to transition to employment and postsecondary education. Existing law appropriates funds for the grant program, including \$300,000,000 for the 2016–17 school year, and designates certain percentages of those appropriations to different applicant tiers based on their average daily attendance.

This bill would authorize the Superintendent of Public Instruction, in collaboration with the executive director of the State Board of Education, to adjust that allocation formula. The bill would also authorize the Superintendent to annually review grant recipients' expenditures on career technical education programs for purposes of determining if grant recipients have met the dollar-for-dollar match requirement of the program and to reduce the following year's grant allocation if the grant recipient failed to meet that requirement, as provided.

(24) Existing law, the Leroy Greene California Assessment of Academic Achievement Act, among other things, states the intent of the

*Legislature to provide a system of assessments of pupils that has the primary purposes of assisting teachers, administrators, and pupils and their parents; improving teaching and learning; and promoting high-quality teaching and learning using a variety of assessment approaches and item types.*

*This bill would state the intent of the Legislature for the State Department of Education to minimize the impact to teachers and administrators and state resources by ensuring, where feasible, that future California computer-based assessments utilize the assessment delivery system infrastructure and hosting platform outlined in the Smarter Balanced Technical Hosting Solution project, as approved by the Department of Technology for the statewide pupil assessment system.*

*(25) This bill would state the intent of the Legislature to enact legislation that would govern the use of funds distributed from the Safe Neighborhoods and Schools Fund to the State Department of Education for purposes of supporting programs aimed at improving outcomes for public school pupils in kindergarten and grades 1 to 12, inclusive, by reducing truancy and supporting pupils who are at risk of dropping out of school or are victims of crime.*

*(26) This bill would appropriate \$945,589,000 from the General Fund for allocation to school districts and county superintendents of schools, and \$105,501,000 from the General Fund to the Chancellor of the California Community Colleges for allocation to community college districts, as specified. The bill would require the funds to first satisfy any outstanding claims pursuant to Section 6 of Article XIII B of the California Constitution for reimbursement of state-mandated local program costs for any fiscal year, but would authorize the governing boards of school districts and community college districts to expend these one-time funds for any purpose, as determined by a governing board.*

*(27) Existing law, the California Safe Drinking Water Act, governs drinking water quality and requires the State Water Resources Control Board to ensure that all public water systems are operated in compliance with the act. The act, among other things, requires the state board to adopt primary drinking water standards for contaminants in drinking water, as specified.*

*Existing law requires a school district to provide access to free, fresh drinking water during meal times in school food service areas unless the governing board of a school district adopts a resolution stating that it is unable to comply with this requirement and demonstrates the*

*reasons why it is unable to comply due to fiscal constraints or health and safety concerns.*

*This bill would require the State Water Resources Control Board to establish a grant program, in consultation with the State Department of Education, to award grants to local educational agencies for the purposes of improving access to, and the quality of, drinking water in public schools serving kindergarten or any of grades 1 to 12, inclusive, and preschools and child day care facilities located on public school property. The bill would require the state board to give priority to projects for schools within, or serving pupils from, small disadvantaged communities, as defined, and to projects that have a high effectiveness in increasing access to safe drinking water at schools. The bill would require the state board to develop procedures and guidelines for the submission of grant applications and criteria for the evaluation of those applications, as specified.*

*Existing law requires the Department of General Services to approve certain contracts entered into by a state agency, including contracts for the construction, alteration, improvement, repair, or maintenance of property, or for the performance of work or services by the state agency for, or in cooperation with, any person or public body.*

*This bill would exempt from a contract entered into under the authority of the above-described grant program from that requirement.*

*This bill would appropriate \$9,500,000 from the General Fund to the State Water Resources Control Board for allocation for purposes of the above-described grant program.*

*(28) This bill would require an amount to be determined by the Director of Finance to be appropriated, on or before June 30, 2017, from the General Fund to the Superintendent of Public Instruction in the event that the amount by which specified revenues distributed to local educational agencies for special education programs are less than the estimated amount reflected in the Budget Act of 2016. The bill would also require the Director of Finance to reduce the General Fund appropriation for these programs by the amount that these revenues exceed the estimated amount. The bill would also require, on or before June 30, 2016, up to \$27,429,000 to be appropriated from the General Fund to the State Department of Education only to the extent that the amount by which property tax revenues distributed to local educational agencies for special education programs are less than the estimated amount reflected in the Budget Act of 2015.*

(29) *This bill would appropriate \$1,000,000 from the General Fund to the State Department of Education for transfer by the Controller to Section A of the State School Fund. The bill would require the Superintendent of Public Instruction to allocate these funds to the Los Angeles County Office of Education to contract with the Special Olympics Northern and Southern California for the purposes of expanding the Special Olympics Unified Strategy for Schools to additional schools throughout the state.*

(30) *This bill would appropriate \$18,000,000 from the General Fund to the State Department of Education for transfer by the Controller to Section A of the State School Fund for allocation by the Superintendent of Public Instruction. The bill would require the Superintendent to allocate the funds to local educational agencies as grants for dropout and truancy prevention programs pursuant to legislation enacted in the 2015–16 Regular Session.*

(31) *This bill would appropriate \$20,000,000 from the General Fund to the Superintendent of Public Instruction for allocation to the Orange County Department of Education to allocate, in consultation with the Superintendent and the executive director of the State Board of Education, those funds to local educational agencies for the purpose of directly funding services or practices aligned to the Multitiered System of Support framework developed under the “Scale Up MTSS Statewide” project, as specified.*

(32) *This bill would appropriate \$6,636,000 from the General Fund to the Superintendent of Public Instruction for transfer by the Controller to Section A of the State School Fund for certain purposes, including \$5,808,000 for the Fiscal Crisis and Management Assistance Team for California School Information Services (CSIS), pursuant to the memorandum of understanding with the State Department of Education, in support of the California Longitudinal Pupil Achievement Data System (CALPADS) and \$828,000 for local educational agencies that did not participate in the former state reporting program administered by CSIS and for the support of data submission to CALPADS.*

(33) *This bill would appropriate \$3,500,000 from the General Fund to the State Department of Education for allocation by the Superintendent of Public Instruction to the K–12 High-Speed Network for operational activities authorized pursuant to Item 6100-182-0001 of the Budget Act of 2016.*

(34) *This bill would appropriate \$3,000,000 from the General Fund to the State Department of Education for transfer by the Controller to*

*Section A of the State School Fund for the Superintendent of Public Instruction to allocate those funds to a county office of education, as determined by the State Department of Education, to initiate the procurement of a replacement system for the Standardized Account Code Structure system.*

*(35) The Classroom Instructional Improvement and Accountability Act requires the governing board of each school district maintaining an elementary or secondary school to develop and cause to be implemented for each school in the school district a school accountability report card that includes assessments of various school conditions. Existing law requires the State Department of Education to develop and recommend for adoption by the State Board of Education a standardized template intended to simplify the process for completing the school accountability report card and make the school accountability report card more meaningful to the public. Existing law requires the department to annually post the completed and viewable template on the Internet, and requires the template to be designed to allow schools or districts to download the template from the Internet.*

*Existing law also requires the state board, on or before October 1, 2016, to adopt evaluation rubrics to, among other things, assist a school district, county office of education, or charter school in evaluating its strengths, weaknesses, and areas that require improvement.*

*This bill would, commencing with the 2016–17 fiscal year, annually appropriate \$500,000 through the 2018–19 fiscal year to the department for allocation by the Superintendent of Public Instruction for the support and development of the evaluation rubrics and the Web application system for the school accountability report card. The bill would require the department, in collaboration with, and subject to the approval of, the executive director of the state board, to contract with the San Joaquin County Office of Education for those purposes, as specified.*

*(36) Existing law establishes a public school financing system that requires state funding for county superintendents of schools, school districts, and charter schools to be calculated pursuant to a local control funding formula, as specified.*

*This bill would, for the 2016–17 fiscal year, appropriate \$2,941,980,000 from the General Fund to the Superintendent of Public Instruction for allocation pursuant to the local control funding formula. The bill also would require the Superintendent, commencing with the 2016–17 fiscal year, to add \$3,500,000 to the local control funding formula allocation for the San Francisco Unified School District, to be*

*made available to contract with the Exploratorium in San Francisco for purposes of supporting professional development and leadership training for education professionals, expanding access to quality STEM learning opportunities, and supporting statewide implementation of the Next Generation Science Standards.*

*(37) Existing law establishes the California Career Technical Education Incentive Grant Program and, for the 2016–17 fiscal year, appropriates \$300,000,000 for that program. Existing law provides that the \$300,000,000 shall be applied to the minimum funding guarantee for the 2016–17 fiscal year.*

*This bill would instead provide that \$7,838,000 of that \$300,000,000 shall be applied to the minimum funding guarantee for the 2015–16 fiscal year.*

*(38) This bill would make conforming and clarifying changes, delete obsolete provisions, correct cross-references, and make other nonsubstantive changes.*

*(39) Funds appropriated by this bill would be applied toward the minimum funding requirements for school districts and community college districts imposed by Section 8 of Article XVI of the California Constitution.*

*(40) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.*

*This bill would provide that with regard to certain mandates no reimbursement is required by this act for a specified reason.*

*With regard to any other mandates, this bill would provide that, if the Commission on State Mandates determines that the bill contains costs so mandated by the state, reimbursement for those costs shall be made pursuant to the statutory provisions noted above.*

*(41) This bill would declare that it is to take effect immediately as a bill providing for appropriations related to the Budget Bill.*

*This bill would express the intent of the Legislature to enact statutory changes relating to the Budget Act of 2016.*

*The people of the State of California do enact as follows:*

1     *SECTION 1. Section 8263 of the Education Code is amended*  
 2 *to read:*

3     8263. (a) (1) The Superintendent shall adopt rules and  
 4 regulations on eligibility, enrollment, and priority of services  
 5 needed to implement this chapter. In order to be eligible for federal  
 6 and state subsidized child development services, families shall  
 7 meet at least one requirement in each of the following areas:

8     (1)

9     (A) A family ~~is (A) is~~(i) a current aid recipient, ~~(B) recipient,~~(ii)  
 10 income-eligible, ~~(C) eligible,~~(iii) homeless, ~~or (D) or~~(iv) one whose

 26 or seeking employment, ~~(iii) employment,~~(III) seeking permanent  
 27 housing for family stability, ~~or (iv) or~~(IV) incapacitated.

28     (2) *If only one parent has signed an application for enrollment*  
 29 *in child care services, as required by this chapter or regulations*  
 30 *adopted to implement this chapter, and the information provided*  
 31 *on the application indicates that there is a second parent who has*  
 32 *not signed the application, the parent who has signed the*  
 33 *application shall self-certify the presence or absence of the second*  
 34 *parent under penalty of perjury. The parent who has signed the*  
 35 *application shall not be required to submit additional information*  
 36 *documenting the presence or absence of the second parent.*

1 (b) Except as provided in Article 15.5 (commencing with Section  
2 8350), priority for federal and state subsidized child development  
3 services is as follows:

4 (1) (A) First priority shall be given to neglected or abused  
5 children who are recipients of child protective services, or children  
6 who are at risk of being neglected or abused, upon written referral  
7 from a legal, medical, or social services agency. If an agency is  
8 unable to enroll a child in the first priority category, the agency  
9 shall refer the family to local resource and referral services to  
10 locate services for the child.

11 (B) A family who is receiving child care on the basis of being  
12 a child at risk of abuse, neglect, or exploitation, as defined in  
13 subdivision (k) of Section 8208, is eligible to receive services  
14 pursuant to subparagraph (A) for up to three months, unless the  
15 family becomes eligible pursuant to subparagraph (C).

16 (C) A family may receive child care services for up to 12 months  
17 on the basis of a certification by the county child welfare agency  
18 that child care services continue to be necessary or, if the child is  
19 receiving child protective services during that period of time, and  
20 the family requires child care and remains otherwise eligible. This  
21 time limit does not apply if the family's child care referral is  
22 recertified by the county child welfare agency.

23 (2) Second priority shall be given equally to eligible families,  
24 regardless of the number of parents in the home, who are income  
25 eligible. Within this priority, families with the lowest gross monthly  
26 income in relation to family size, as determined by a schedule  
27 adopted by the Superintendent, shall be admitted first. If two or  
28 more families are in the same priority in relation to income, the  
29 family that has a child with exceptional needs shall be admitted  
30 first. If there is no family of the same priority with a child with  
31 exceptional needs, the same priority family that has been on the  
32 waiting list for the longest time shall be admitted first. For purposes  
33 of determining order of admission, the grants of public assistance  
34 recipients shall be counted as income.

35 (3) The Superintendent shall set criteria for, and may grant  
36 specific waivers of, the priorities established in this subdivision  
37 for agencies that wish to serve specific populations, including  
38 children with exceptional needs or children of prisoners. These  
39 new waivers shall not include proposals to avoid appropriate fee  
40 schedules or admit ineligible families, but may include proposals

1 to accept members of special populations in other than strict income  
2 order, as long as appropriate fees are paid.

3 (c) Notwithstanding any other law, in order to promote  
4 continuity of services, a family enrolled in a state or federally  
5 funded child care and development program whose services would  
6 otherwise be terminated because the family no longer meets the  
7 program income, eligibility, or need criteria may continue to  
8 receive child development services in another state or federally  
9 funded child care and development program if the contractor is  
10 able to transfer the family's enrollment to another program for  
11 which the family is eligible before the date of termination of  
12 services or to exchange the family's existing enrollment with the  
13 enrollment of a family in another program, provided that both  
14 families satisfy the eligibility requirements for the program in  
15 which they are being enrolled. The transfer of enrollment may be  
16 to another program within the same administrative agency or to  
17 another agency that administers state or federally funded child  
18 care and development programs.

19 (d) In order to promote continuity of services, the Superintendent  
20 may extend the 60-working-day period specified in subdivision  
21 (a) of Section 18086.5 of Title 5 of the California Code of  
22 Regulations for an additional 60 working days if he or she  
23 determines that opportunities for employment have diminished to  
24 the degree that one or both parents cannot reasonably be expected  
25 to find employment within 60 working days and granting the  
26 extension is in the public interest. The scope of extensions granted  
27 pursuant to this subdivision shall be limited to the necessary  
28 geographic areas and affected persons, which shall be described  
29 in the Superintendent's order granting the extension. It is the intent  
30 of the Legislature that extensions granted pursuant to this  
31 subdivision improve services in areas with high unemployment  
32 rates and areas with disproportionately high numbers of seasonal  
33 agricultural jobs.

34 (e) A physical examination and evaluation, including  
35 age-appropriate immunization, shall be required before, or within  
36 six weeks of, enrollment. A standard, rule, or regulation shall not  
37 require medical examination or immunization for admission to a  
38 child care and development program of a child whose parent or  
39 guardian files a letter with the governing board of the child care  
40 and development program stating that the medical examination or

1 immunization is contrary to his or her religious beliefs, or provide  
2 for the exclusion of a child from the program because of a parent  
3 or guardian having filed the letter. However, if there is good cause  
4 to believe that a child is suffering from a recognized contagious  
5 or infectious disease, the child shall be temporarily excluded from  
6 the program until the governing board of the child care and  
7 development program is satisfied that the child is not suffering  
8 from that contagious or infectious disease.

9 (f) Regulations formulated and promulgated pursuant to this  
10 section shall include the recommendations of the State Department  
11 of Health Care Services relative to health care screening and the  
12 provision of health care services. The Superintendent shall seek  
13 the advice and assistance of these health authorities in situations  
14 where service under this chapter includes or requires care of  
15 children who are ill or children with exceptional needs.

16 (g) The Superintendent shall establish guidelines for the  
17 collection of employer-sponsored child care benefit payments from  
18 a parent whose child receives subsidized child care and  
19 development services. These guidelines shall provide for the  
20 collection of the full amount of the benefit payment, but not to  
21 exceed the actual cost of child care and development services  
22 provided, notwithstanding the applicable fee based on the fee  
23 schedule.

24 (h) The Superintendent shall establish guidelines according to  
25 which the director or a duly authorized representative of the child  
26 care and development program will certify children as eligible for  
27 state reimbursement pursuant to this section.

28 (i) Public funds shall not be paid directly or indirectly to an  
29 agency that does not pay at least the minimum wage to each of its  
30 employees.

31 *SEC. 2. Section 8263.1 of the Education Code is amended to*  
32 *read:*

33 8263.1. (a) For purposes of this chapter, “income eligible”  
34 means that a family’s adjusted monthly income is at or below 70  
35 percent of the state median income, adjusted for family size, and  
36 adjusted annually.

37 (b) Notwithstanding any other law, for the 2011–12 fiscal year,  
38 the income eligibility limits that were in effect for the 2007–08  
39 fiscal year shall be reduced to 70 percent of the state median

1 income that was in use for the 2007–08 fiscal year, adjusted for  
 2 family size, effective July 1, 2011.

3 (c) Notwithstanding any other law, for the 2012–13, 2013–14,  
 4 2014–15, 2015–16, and ~~2015–16~~ 2016–17 fiscal years, the income  
 5 eligibility limits shall be 70 percent of the state median income  
 6 that was in use for the 2007–08 fiscal year, adjusted for family  
 7 size.

8 (d) The income of a recipient of federal supplemental security  
 9 income benefits pursuant to Title XVI of the federal Social Security  
 10 Act (42 U.S.C. Sec. 1381 et seq.) and state supplemental program  
 11 benefits pursuant to Title XVI of the federal Social Security Act  
 12 and Chapter 3 (commencing with Section 12000) of Part 3 of  
 13 Division 9 of the Welfare and Institutions Code shall not be  
 14 included as income for purposes of determining eligibility for child  
 15 care under this chapter.

16 *SEC. 3. Section 8265 of the Education Code is amended to*  
 17 *read:*

18 8265. (a) The Superintendent shall implement a plan that  
 19 establishes reasonable standards and assigned reimbursement rates,  
 20 which vary with the length of the program year and the hours of  
 21 service.

22 (1) Parent fees shall be used to pay reasonable and necessary  
 23 costs for providing additional services.

24 (2) When establishing standards and assigned reimbursement  
 25 rates, the Superintendent shall confer with applicant agencies.

26 (3) The reimbursement system, including standards and rates,  
 27 shall be submitted to the Joint Legislative Budget Committee.

28 (4) The Superintendent may establish any regulations he or she  
 29 deems advisable concerning conditions of service and hours of  
 30 enrollment for children in the programs.

31 (b) ~~The~~ *Until December 31, 2016*, the standard reimbursement  
 32 rate shall be nine thousand five hundred seventy-two dollars and

 39 pursuant to Section 42238.15. ~~The~~ *Until December 31, 2016, the*  
 40 full-day state preschool reimbursement rate shall be nine thousand

1 six hundred thirty-two dollars and fifty cents (\$9,632.50) per unit  
2 of average daily enrollment for a 250-day-year year. Commencing  
3 January 1, 2017, the full-day state preschool reimbursement rate  
4 shall be ten thousand five hundred ninety-five dollars and  
5 seventy-five cents (\$10,595.75) and, commencing with the ~~2016-17~~  
6 2017-18 fiscal year, shall be increased by the cost-of-living  
7 adjustment granted by the Legislature annually pursuant to Section  
8 42238.15. It is the intent of the Legislature to further increase the  
9 standard reimbursement rate through the 2018-19 fiscal year to  
10 reflect increased costs to providers resulting from increases in the  
11 state minimum wage.

12 (c) The plan shall require agencies having an assigned  
13 reimbursement rate above the current year standard reimbursement  
14 rate to reduce costs on an incremental basis to achieve the standard  
15 reimbursement rate.

16 (d) (1) The plan shall provide for adjusting reimbursement on  
17 a case-by-case basis, in order to maintain service levels for agencies  
18 currently at a rate less than the standard reimbursement rate.  
19 Assigned reimbursement rates shall be increased only on the basis  
20 of one or more of the following:

21 (A) Loss of program resources from other sources.

22 (B) Need of an agency to pay the same child care rates as those  
23 prevailing in the local community.

24 (C) Increased costs directly attributable to new or different  
25 regulations.

26 (D) Documented increased costs necessary to maintain the prior  
27 year's level of service and ensure the continuation of threatened  
28 programs.

29 (2) Child care agencies funded at the lowest rates shall be given  
30 first priority for increases.

31 (e) The plan shall provide for expansion of child development  
32 programs at no more than the standard reimbursement rate for that  
33 fiscal year.

34 (f) The Superintendent may reduce the percentage of reduction  
35 for a public agency that satisfies any of the following:

36 (1) Serves more than 400 children.

37 (2) Has in effect a collective bargaining agreement.

38 (3) Has other extenuating circumstances that apply, as  
39 determined by the Superintendent.

1     *SEC. 4. Section 8357 of the Education Code is amended to*  
 2     *read:*

3     8357. (a) The cost of child care services provided under this

28 recipient, payment may be made to the parent as the employer,  
29 and the parent shall be informed of his or her concomitant legal  
30 and financial reporting requirements. To allow time for the  
31 development of the administrative systems necessary to issue direct  
32 payments to providers, for a period not to exceed six months from  
33 the effective date of this article, a county or an alternative payment

15 rate or applicable monthly ceiling.

16 (2) This subdivision shall not limit providers from being  
17 reimbursed for services using a weekly or monthly rate, pursuant  
18 to subdivision (c) of Section 8222.

35 not more than 30 working days from the date of submission, unless  
36 unresolved conflicts remain between the Department of Finance,  
37 the department, and the Department of General Services. The  
38 department shall resolve conflicts within an additional 30 working

20 of child care for former CalWORKs recipients.

21 (c) With respect to subdivision (b), it is the intent of the  
22 Legislature that the Department of Finance annually review  
23 contract funding terms and conditions for the primary purpose of  
24 ensuring consistency between child care contracts and the child  
25 care budget. This review shall include evaluating any proposed  
26 changes to contract language or other fiscal documents to which

28 terms or conditions that authorize higher reimbursement rates,  
29 modify related adjustment factors, modify administrative or other  
30 service allowances, or diminish fee revenues otherwise available  
31 for services, to determine if the change is necessary or has the  
32 potential effect of reducing the number of full-time equivalent  
33 children that may be served.

34 (d) Alternative payment child care systems, as set forth in Article  
35 3 (commencing with Section 8220), shall be subject to the rates

 4 provide to the department the state median income amount for a  
 5 four-person household in California based on the best available  
 6 data. The department shall adjust its fee schedule for child care  
 7 providers to reflect this updated state median income; however,  
 8 no changes based on revisions to the state median income amount  
 9 shall be implemented midyear.

10 (f) Notwithstanding the June 1 date specified in subdivision (b),  
 11 changes to the regional market rate schedules and fee schedules  
 12 may be made at any other time to reflect the availability of accurate  
 13 data necessary for their completion, provided these documents  
 14 receive the approval of the Department of Finance. The Department  
 15 of Finance shall review the changes within 30 working days of  
 16 submission and the department shall resolve conflicts within an  
 17 additional 30 working day period. Contractors shall be given  
 18 adequate notice before the effective date of the approved schedules.  
 19 It is the intent of the Legislature that contracts for services not be  
 20 delayed by the timing of the availability of accurate data needed  
 21 to update these schedules.

 39 ~~next five years, as many as 50 percent of the classroom teachers~~

10 valuable instructional services to public school pupils. A program  
11 to enhance instructional competencies and to prepare school  
12 paraprofessionals to become teachers would result in improved

18 52052. (a) (1) The Superintendent, with the approval of the

20 to measure the performance of schools and school districts,  
21 especially the academic performance of pupils.

22 (2) A school or school district shall demonstrate comparable  
23 improvement in academic achievement as measured by the API  
24 by all numerically significant pupil subgroups at the school or  
25 school district, including:

26 (A) Ethnic subgroups.

27 (B) Socioeconomically disadvantaged pupils.

28 (C) English learners.

29 (D) Pupils with disabilities.

30 (E) Foster youth.

31 (F) Homeless youth.

32 (3) (A) For purposes of this section, a numerically significant  
33 pupil subgroup is one that consists of at least 30 pupils, each of  
34 whom has a valid test score.

35 (B) Notwithstanding subparagraph (A), for a subgroup of pupils  
36 who are foster youth or homeless youth, a numerically significant  
37 pupil subgroup is one that consists of at least 15 pupils.

38 (C) For a school or school district with an API score that is  
39 based on no fewer than 11 and no more than 99 pupils with valid

1 test scores, numerically significant pupil subgroups shall be defined  
2 by the Superintendent, with approval by the state board.

3 (4) (A) The API shall consist of a variety of indicators currently  
4 reported to the department, including, but not limited to, the results  
5 of the achievement test administered pursuant to Section 60640,  
6 attendance rates for pupils in elementary schools, middle schools,  
7 and secondary schools, and the graduation rates for pupils in  
8 secondary schools.

9 (B) The Superintendent, with the approval of the state board,  
10 may also incorporate into the API the rates at which pupils  
11 successfully promote from one grade to the next in middle school  
12 and high school, and successfully matriculate from middle school  
13 to high school.

14 (C) Graduation rates for pupils in secondary schools shall be  
15 calculated for the API as follows:

16 (i) Four-year graduation rates shall be calculated by taking the  
17 number of pupils who graduated on time for the current school  
18 year, which is considered to be three school years after the pupils  
19 entered grade 9 for the first time, and dividing that number by the  
20 total calculated in clause (ii).

21 (ii) The number of pupils entering grade 9 for the first time in  
22 the school year three school years before the current school year,  
23 plus the number of pupils who transferred into the class graduating  
24 at the end of the current school year between the school year that  
25 was three school years before the current school year and the date  
26 of graduation, less the number of pupils who transferred out of the  
27 school between the school year that was three school years before  
28 the current school year and the date of graduation who were  
29 members of the class that is graduating at the end of the current  
30 school year.

31 (iii) Five-year graduation rates shall be calculated by taking the  
32 number of pupils who graduated on time for the current school  
33 year, which is considered to be four school years after the pupils  
34 entered grade 9 for the first time, and dividing that number by the  
35 total calculated in clause (iv).

36 (iv) The number of pupils entering grade 9 for the first time in  
37 the school year four years before the current school year, plus the  
38 number of pupils who transferred into the class graduating at the  
39 end of the current school year between the school year that was  
40 four school years before the current school year and the date of

1 graduation, less the number of pupils who transferred out of the  
2 school between the school year that was four years before the  
3 current school year and the date of graduation who were members  
4 of the class that is graduating at the end of the current school year.

5 (v) Six-year graduation rates shall be calculated by taking the  
6 number of pupils who graduated on time for the current school  
7 year, which is considered to be five school years after the pupils  
8 entered grade 9 for the first time, and dividing that number by the  
9 total calculated in clause (vi).

10 (vi) The number of pupils entering grade 9 for the first time in  
11 the school year five years before the current school year, plus the  
12 number of pupils who transferred into the class graduating at the  
13 end of the current school year between the school year that was  
14 five school years before the current school year and the date of  
15 graduation, less the number of pupils who transferred out of the  
16 school between the school year that was five years before the  
17 current school year and the date of graduation who were members  
18 of the class that is graduating at the end of the current school year.

19 (D) The inclusion of five- and six-year graduation rates for  
20 pupils in secondary schools shall meet the following requirements:

21 (i) Schools and school districts shall be granted one-half the  
22 credit in their API scores for graduating pupils in five years that  
23 they are granted for graduating pupils in four years.

24 (ii) Schools and school districts shall be granted one-quarter the  
25 credit in their API scores for graduating pupils in six years that  
26 they are granted for graduating pupils in four years.

27 (iii) Notwithstanding clauses (i) and (ii), schools and school  
28 districts shall be granted full credit in their API scores for  
29 graduating in five or six years a pupil with disabilities who  
30 graduates in accordance with his or her individualized education  
31 program.

32 (E) The pupil data collected for the API that comes from the  
33 achievement test administered pursuant to Section 60640 and the  
34 high school exit examination administered pursuant to Section  
35 60851, when fully implemented, shall be disaggregated by special  
36 education status, English learners, socioeconomic status, gender,  
37 and ethnic group. Only the test scores of pupils who were counted  
38 as part of the enrollment in the annual data collection of the  
39 California Basic Educational Data System for the current fiscal

1 year and who were continuously enrolled during that year may be  
2 included in the test result reports in the API score of the school.

3 (F) (i) Commencing with the baseline API calculation in 2016,  
4 and for each year thereafter, results of the achievement test and  
5 other tests specified in subdivision (b) shall constitute no more  
6 than 60 percent of the value of the index for secondary schools.

7 (ii) In addition to the elements required by this paragraph, the  
8 Superintendent, with the approval of the state board, may  
9 incorporate into the index for secondary schools valid, reliable,  
10 and stable measures of pupil preparedness for postsecondary  
11 education and career.

12 (G) Results of the achievement test and other tests specified in  
13 subdivision (b) shall constitute at least 60 percent of the value of  
14 the index for primary schools and middle schools.

15 (H) It is the intent of the Legislature that the state’s system of  
16 public school accountability be more closely aligned with both the  
17 public’s expectations for public education and the workforce needs  
18 of the state’s economy. It is therefore necessary that the  
19 accountability system evolve beyond its narrow focus on pupil test  
20 scores to encompass other valuable information about school  
21 performance, including, but not limited to, pupil preparedness for  
22 college and career, as well as the high school graduation rates  
23 already required by law.

24 (I) The Superintendent shall annually determine the accuracy  
25 of the graduation rate data. Notwithstanding any other law,  
26 graduation rates for pupils in dropout recovery high schools shall  
27 not be included in the API. For purposes of this subparagraph,  
28 “dropout recovery high school” means a high school in which 50  
29 percent or more of its pupils have been designated as dropouts  
30 pursuant to the exit/withdrawal codes developed by the department  
31 or left a school and were not otherwise enrolled in a school for a  
32 period of at least 180 days.

33 (J) To complement the API, the Superintendent, with the  
34 approval of the state board, may develop and implement a program  
35 of school quality review that features locally convened panels to  
36 visit schools, observe teachers, interview pupils, and examine pupil  
37 work, if an appropriation for this purpose is made in the annual  
38 Budget Act.

39 (K) The Superintendent shall annually provide to local  
40 educational agencies and the public a transparent and

1 understandable explanation of the individual components of the  
2 API and their relative values within the API.

3 (L) An additional element chosen by the Superintendent and  
4 the state board for inclusion in the API pursuant to this paragraph  
5 shall not be incorporated into the API until at least one full school  
6 year after the state board’s decision to include the element into the  
7 API.

8 (b) Pupil scores from the following tests, when available and  
9 when found to be valid and reliable for this purpose, shall be  
10 incorporated into the API:

11 (1) The standards-based achievement tests provided for in  
12 Section 60642.5.

13 (2) The high school exit examination.

14 (c) Based on the API, the Superintendent shall develop, and the  
15 state board shall adopt, expected annual percentage growth targets  
16 for all schools based on their API baseline score from the previous  
17 year. Schools are expected to meet these growth targets through  
18 effective allocation of available resources. For schools below the  
19 statewide API performance target adopted by the state board  
20 pursuant to subdivision (d), the minimum annual percentage growth  
21 target shall be 5 percent of the difference between the actual API  
22 score of a school and the statewide API performance target, or one  
23 API point, whichever is greater. Schools at or above the statewide  
24 API performance target shall have, as their growth target,  
25 maintenance of their API score above the statewide API  
26 performance target. However, the state board may set differential  
27 growth targets based on grade level of instruction and may set  
28 higher growth targets for the lowest performing schools because  
29 they have the greatest room for improvement. To meet its growth  
30 target, a school shall demonstrate that the annual growth in its API  
31 is equal to or more than its schoolwide annual percentage growth  
32 target and that all numerically significant pupil subgroups, as  
33 defined in subdivision (a), are making comparable improvement.

34 (d) Upon adoption of state performance standards by the state  
35 board, the Superintendent shall recommend, and the state board  
36 shall adopt, a statewide API performance target that includes  
37 consideration of performance standards and represents the  
38 proficiency level required to meet the state performance target.

39 (e) (1) A school or school district with 11 to 99 pupils with  
40 valid test scores shall receive an API score with an asterisk that

1 indicates less statistical certainty than API scores based on 100 or  
2 more test scores.

3 (2) A school or school district annually shall receive an API  
4 score, unless the Superintendent determines that an API score  
5 would be an invalid measure of the performance of the school or  
6 school district for one or more of the following reasons:

7 (A) Irregularities in testing procedures occurred.

8 (B) The data used to calculate the API score of the school or  
9 school district are not representative of the pupil population at the  
10 school or school district.

11 (C) Significant demographic changes in the pupil population  
12 render year-to-year comparisons of pupil performance invalid.

13 (D) The department discovers or receives information indicating  
14 that the integrity of the API score has been compromised.

15 (E) Insufficient pupil participation in the assessments included  
16 in the API.

17 (F) A transition to new standards-based assessments  
18 compromises comparability of results across schools or school  
19 districts. The Superintendent may use the authority in this  
20 subparagraph in the ~~2013–14~~ 2013–14, 2014–15, and ~~2014–15~~  
21 2015–16 school years only, with the approval of the state board.

22 (3) If a school or school district has fewer than 100 pupils with  
23 valid test scores, the calculation of the API or adequate yearly  
24 progress pursuant to the federal No Child Left Behind Act of 2001  
25 (20 U.S.C. Sec. 6301 et seq.) and federal regulations may be  
26 calculated over more than one annual administration of the tests  
27 administered pursuant to Section 60640 and the high school exit  
28 examination administered pursuant to Section 60851, consistent  
29 with regulations adopted by the state board.

30 (4) Any school or school district that does not receive an API  
31 calculated pursuant to subparagraph (F) of paragraph (2) shall not  
32 receive an API growth target pursuant to subdivision (c). Schools  
33 and school districts that do not have an API calculated pursuant  
34 to subparagraph (F) of paragraph (2) shall use one of the following:

35 (A) The most recent API calculation.

36 (B) An average of the three most recent annual API calculations.

37 (C) Alternative measures that show increases in pupil academic  
38 achievement for all groups of pupils schoolwide and among  
39 significant subgroups.

1 (f) Only schools with 100 or more test scores contributing to  
2 the API may be included in the API rankings.

3 (g) The Superintendent, with the approval of the state board,  
4 shall develop an alternative accountability system for schools under  
5 the jurisdiction of a county board of education or a county  
6 superintendent of schools, community day schools, nonpublic,  
7 nonsectarian schools pursuant to Section 56366, and alternative  
8 schools serving high-risk pupils, including continuation high  
9 schools and opportunity schools. Schools in the alternative  
10 accountability system may receive an API score, but shall not be  
11 included in the API rankings.

12 (h) For purposes of this section, county offices of education  
13 shall be considered school districts.

14 (i) For purposes of this section, “homeless youth” has the same  
15 meaning as in Section 11434a(2) of Title 42 of the United States  
16 Code.

11 special education local plan area an amount based on (1) the  
12 number of children and youth residing in foster family homes,  
13 small family homes, and foster family agencies, (2) the licensed  
14 capacity of group homes licensed by the State Department of Social  
15 Services, and (3) the number of children and youth ages 3 to 21  
16 years, inclusive, referred by the State Department of Developmental  
17 Services who are residing in skilled nursing facilities or

27 of 1. Foster family agencies shall be assigned a severity rating of  
28 2. Facilities described in paragraph (2) of subdivision (a) shall be  
29 assigned the same severity rating as its State Department of Social

38 the ~~2005-06~~ 2005-06 fiscal year and each fiscal year thereafter,  
39 the department shall increase the bed allowance by the inflation

8 SEC. 30. Section 17581.9 of the Government Code is amended  
9 to read:

10 17581.9. (a) (1) ~~The~~ For the 2015–16 fiscal year, the sum of  
11 three billion ninety-eight million four hundred fifty-five thousand  
12 dollars (\$3,098,455,000) is hereby appropriated from the General  
13 Fund to the Superintendent of Public Instruction for allocation to  
14 school districts and county superintendents of schools in the  
15 manner, and for the purposes, set forth in this section.

16 (2) The sum of six hundred four million forty-three thousand  
17 dollars (\$604,043,000) is hereby appropriated from the General  
18 Fund to the Chancellor of the California Community Colleges for  
19 allocation to community college districts in the manner, and for  
20 the purposes, set forth in this section.

21 (3) For purposes of this section, a school district includes a  
22 county office of education and a charter school.

23 (b) (1) (A) The Superintendent of Public Instruction shall  
24 allocate forty million dollars (\$40,000,000) of the funds  
25 appropriated pursuant to paragraph (1) of subdivision (a) to county  
26 superintendents of schools, as follows:

27 (i) Each county superintendent of schools shall be allocated the  
28 greater of: ~~(i)~~ (I) thirty thousand dollars (\$30,000), multiplied by  
29 the number of school districts for which the county superintendent  
30 of schools has jurisdiction pursuant to Section 1253 of the  
31 Education Code; or ~~(ii)~~ (II) eighty thousand dollars (\$80,000).

32 (ii) After the allocations pursuant to subparagraph (A), the  
33 balance shall be allocated in an equal amount per unit of regular  
34 average daily attendance, as those average daily attendance  
35 numbers are reported at the time of the second principal  
36 apportionment for the 2014–15 fiscal year.

37 (B) For purposes of allocating funding pursuant to this paragraph  
38 only, “regular average daily attendance” means the aggregate  
39 number of units of average daily attendance within the county  
40 attributable to all school districts for which the county

1 superintendent of schools has jurisdiction pursuant to Section 1253  
2 of the Education Code, charter schools within the county, and the  
3 schools operated by the county superintendent of schools.

4 (2) It is the intent of the Legislature that county offices of  
5 education will prioritize the use of funds allocated pursuant to  
6 paragraph (1) for investments necessary to support new  
7 responsibilities required under the evolving accountability structure  
8 of the local control funding formula and develop greater capacity  
9 and consistency within and between county offices of education.  
10 A county office of education may encumber funds apportioned  
11 pursuant to this section at any time during the 2015–16 or 2016–17  
12 fiscal year.

13 (3) The Superintendent of *Public Instruction* shall allocate three  
14 billion fifty-eight million four hundred fifty-five thousand dollars
