AMENDED IN ASSEMBLY MARCH 7, 2016

CALIFORNIA LEGISLATURE—2015–16 REGULAR SESSION

ASSEMBLY BILL

No. 1696

Introduced by Assembly Member Holden

January 21, 2016

An act to add Section 14134.25 to the Welfare and Institutions Code, relating to Medi-Cal.

LEGISLATIVE COUNSEL'S DIGEST

AB 1696, as amended, Holden. Medi-Cal: tobacco cessation services.

Existing law provides for the Medi-Cal program, administered by the State Department of Health Care Services, under which basic health care services are provided to qualified low-income persons. The Medi-Cal program is, in part, governed and funded by federal Medicaid provisions. Existing law provides for a schedule of benefits under the Medi-Cal program. Existing law requires that preventive services assigned a grade of A or B by the United States Preventive Services Task Force be provided to Medi-Cal beneficiaries without any cost sharing by the beneficiary in order for the state to receive increased federal contributions for those services, as specified.

This bill would provide that, only to the extent that federal financial participation is available and not otherwise jeopardized, and any necessary federal approvals have been obtained, tobacco cessation services are covered benefits, subject to utilization controls, under the Medi-Cal program and would require those services to include all intervention recommendations, as periodically updated, assigned a grade A or B by the United States Preventive Services Task Force, and, at a

minimum, 4 quit attempts per year. The bill also would require, only to the extent consistent with the recommendations of the United States Preventive Services Task Force, tobacco cessation services to include at least 4 counseling sessions per quit attempt and a 12-week treatment regimen of any medication approved by the federal Food and Drug Administration for tobacco cessation.

The bill would require the department to issue guidelines and enter into agreements to allow a specified state smoker’s helpline to furnish nicotine replacement therapy to beneficiaries participating in the helpline’s smoking cessation services, and would require the department to issue other guidelines to beneficiaries and managed care programs in connection with the provision and evaluation of tobacco cessation services pursuant to the bill. The bill would require the department to seek any federal approvals necessary to implement those provisions.

Vote: majority. Appropriation: no. Fiscal committee: yes.
 State-mandated local program: no.
