An act to add Section 68052.1 to the Education Code, relating to the University of California.

LEGISLATIVE COUNSEL'S DIGEST

AB 1711, as amended, McCarty. University of California: nonresident student enrollment.

Existing law expresses the intent of the Legislature that the University of California establish nonresident student tuition policies that are consistent with their resident student fee policies. The provisions are applicable to the University of California only if the Regents of the University of California act, by resolution, to make them applicable.

This bill would require the University of California, as a condition of receipt of funds appropriated in the annual Budget Act, to ~~limit the percentage of nonresident undergraduate students enrolled at the University of California systemwide to 10% of total undergraduate student enrollment, to increase resident undergraduate student enrollment by 5,000 and decrease nonresident undergraduate student enrollment by 1,700 each year for 6 academic years beginning with the 2017–18~~

~~academic year, and would prohibit any campus of the University of California where nonresident undergraduate student enrollment exceeds 15.5% from enrolling new nonresident undergraduate students in excess of the number of new nonresident undergraduate students enrolled in the 2015–16 academic year. The bill would require the University of California to annually publish a report with specified information relating to nonresident undergraduate tuition and revenue. The bill would require the University of California to establish a policy to require each campus to admit only nonresident undergraduate students who exceed the academic qualifications of resident undergraduate students, as specified, and would require the University of California to annually report specified information to the Legislature *annually regarding actions taken* to ensure compliance with the policy.~~
