Introduced by Assembly Member Mark Stone

February 8, 2016

An act to ~~amend Section 46000~~ *repeal and add Chapter 10 (commencing with Section 46000) of Division 17 of the Food and Agricultural Code, and to amend Sections 110810, 110812, 110860, 110920, and 110925 of, to repeal Section 110870 of, and to repeal and add Sections 110815, 110875, and 110958 of, the Health and Safety Code, relating to organic ~~foods~~ products.*

LEGISLATIVE COUNSEL'S DIGEST

AB 1826, as amended, Mark Stone. Organic ~~food~~ products.

Existing law, the California Organic Products Act of 2003 (the act), requires the Secretary of Food and Agriculture, county agricultural commissioners under the supervision and direction of the secretary, and the Director of the State Department of Public Health to enforce federal regulations governing the production, labeling, and marketing of organic products, as specified. The act requires certain persons engaged in the production, processing, or handling of organic products to annually register and pay a fee, as specified, and imposes penalties for specified violations of the act.

Existing federal law establishes the National Organic Program which requires operations that produce or handle organic agricultural products to comply with federal organic standards and be certified by a certifying agent, as specified.

This bill would revise and recast the California Organic Products Act of 2003 as the California Organic Food and Farming Act. The bill

would specify that a person certified pursuant to the National Organic Program shall be deemed registered for purposes of the state organic program and that those operations do not require additional registration under the state law. The bill would require all other persons engaged in the production or handling of raw agricultural products sold as organic and retailers engaged in the production and processing of organic products to register with the county agricultural commissioner in the county of principal operation. The bill would require the secretary, in consultation with the California Organic Products Advisory Committee, to establish a registration fee for producers, handlers, retail food establishments, and certifying agents, and would authorize the secretary to establish an annual fee for the purpose of funding activities authorized under the act based on gross annual organic sales. To the extent this bill would impose additional duties on county agricultural commissioners, the bill would impose a state-mandated local program.

The bill would require the secretary to establish a memorandum of understanding with the director to assist in administering the state organic program, would authorize the secretary to establish procedures for and conduct specified activities to supplement enforcement of National Organic Program standards, as specified, and to use state organic program funds to conduct specified activities.

Existing law requires the director to enforce regulations promulgated by the National Organic Program relating to organic products.

This bill would state that certification under the National Organic Program shall be deemed registration for purposes of the state organic program. The bill would require fees and penalties collected pursuant to the act for those purposes to be deposited into a separate subaccount of the Food Safety Account rather than the General Fund. The bill would revise information that the director is required to annually compile, publish, and submit to the California Organic Products Advisory Committee.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

~~Existing law requires the Secretary of Food and Agriculture and county agricultural commissioners, under the direction of the secretary, to enforce regulations adopted by the federal National Organic Program (NOP) and the California Organic Products Act of 2003 applicable to any person selling products as organic.~~

~~This bill would make nonsubstantive changes in that provision.~~

Vote: majority. Appropriation: no. Fiscal committee: ~~no~~-yes.
State-mandated local program: ~~no~~-yes.

The people of the State of California do enact as follows:

16 *California, and it relies on the state organic program’s additional*

19 *state organic program is to reform fees and paperwork and to*
20 *create a framework whereby state organic program enforcement*
21 *activities are designed to supplement National Organic*

12 (1) The organic registrant.

13 (2) A family member, employee, or any other person authorized
14 to act on behalf of the registrant.

24 (4) The secretary or county agricultural commissioner may,
25 upon determination that a violation has been made in accordance

8 any regulation adopted pursuant thereto or pursuant to this
9 chapter, or regulations adopted by the NOP, in an amount not
10 more than five thousand dollars (\$5,000) for each violation. The
11 amount of the penalty assessed for each violation shall be based
12 upon the nature of the violation, the seriousness of the effect of
13 the violation upon effectuation of the purposes and provisions of
14 this chapter and the impact of the penalty on the violator, including
15 the deterrent effect on future violations.

16 (b) Notwithstanding the penalties prescribed in subdivision (a),
17 if the secretary or county agricultural commissioner finds that a
18 violation was not intentional, the secretary or county agricultural
19 commissioner may levy an administrative penalty of not more than
20 two thousand five hundred dollars (\$2,500) for each violation.

21 (c) For a first offense, in lieu of an administrative penalty as
22 prescribed in subdivision (a) or (b), the secretary or county

25 (d) A person against whom an administrative penalty is
26 proposed shall be afforded an opportunity for a hearing before
27 the secretary or county agricultural commissioner, upon request
28 made in writing within 30 days after the issuance of the notice of
29 penalty. At the hearing, the person shall be given the right to review
30 the secretary's or commissioner's evidence of the violation and
31 the right to present evidence on his or her own behalf. If no hearing
32 is requested, the administrative penalty shall constitute a final and
33 nonreviewable order.

34 (e) If a hearing is held, review of the final decision of the
35 secretary or county agricultural commissioner may be requested
36 in writing by any person, pursuant to Section 1094.5 of the Code

40 to this section may be recovered in a civil action brought in the

6 may file a certified copy of a final decision of the commissioner
7 that directs the payment of an administrative penalty and, if
8 applicable, a copy of any order that denies a petition for a writ of
9 administrative mandamus with the clerk of the superior court of
10 any county. Judgment shall be entered immediately by the clerk
11 in conformity with the decision or order. Pursuant to Section 6103
12 of the Government Code, no fees shall be charged by the clerk of
13 the superior court for the performance of any official service
14 required in connection with the entry of judgment pursuant to this
15 section.
