No. 1966

Introduced by Assembly Member Travis Allen

February 12, 2016

An act to amend Section 2802 of the Public Utilities Code, relating to energy.

LEGISLATIVE COUNSEL'S DIGEST

AB 1966, as introduced, Travis Allen. Energy: private energy producers.

Under existing law, the Public Utilities Commission has regulatory jurisdiction over public utilities, including electrical corporations, as defined. Existing law permits a private energy producer, as defined, to generate electricity not generated from conventional sources, as defined, solely for its own use or the use of its tenants, or generating electricity to or for any electrical corporation, heat corporation, state agency, city, county, district, or an association thereof, but not the public, without becoming a public utility subject to the general jurisdiction of the commission.

This bill would make nonsubstantive changes to this provision.

Vote: majority. Appropriation: no. Fiscal committee: no.
State-mandated local program: no.
