

ASSEMBLY BILL

No. 2289

Introduced by Assembly Member Frazier

February 18, 2016

An act to amend Section 14526.5 of the Government Code, relating to transportation.

LEGISLATIVE COUNSEL'S DIGEST

AB 2289, as introduced, Frazier. Department of Transportation: capital improvement projects.

Existing law requires the Department of Transportation to prepare a state highway operation and protection program for the expenditure of transportation funds for major capital improvements that are necessary to preserve and protect the state highway system and that include capital projects relative to maintenance, safety, and rehabilitation of state highways and bridges that do not add a new traffic lane to the system.

This bill would add to the program capital projects relative to the operation of those state highways and bridges.

Vote: majority. Appropriation: no. Fiscal committee: yes.
State-mandated local program: no.

The people of the State of California do enact as follows:

1 SECTION 1. Section 14526.5 of the Government Code is
2 amended to read:
3 14526.5. (a) Based on the asset management plan prepared
4 and approved pursuant to Section 14526.4, the department shall
5 prepare a state highway operation and protection program for the
6 expenditure of transportation funds for major capital improvements

1 that are necessary to preserve and protect the state highway system.
2 Projects included in the program shall be limited to capital
3 improvements relative to *the* maintenance, safety, *operation*, and
4 rehabilitation of state highways and bridges that do not add a new
5 traffic lane to the system.

6 (b) The program shall include projects that are expected to be
7 advertised prior to July 1 of the year following submission of the
8 program, but which have not yet been funded. The program shall
9 include those projects for which construction is to begin within
10 four fiscal years, starting July 1 of the year following the year the
11 program is submitted.

12 (c) The department, at a minimum, shall specify, for each project
13 in the state highway operation and protection program, the capital
14 and support budget, as well as a projected delivery date, for each
15 of the following project components:

16 (1) Completion of project approval and environmental
17 documents.

18 (2) Preparation of plans, specifications, and estimates.

19 (3) Acquisition of rights-of-way, including, but not limited to,
20 support activities.

21 (4) Start of construction.

22 (d) The program shall be submitted to the commission not later
23 than January 31 of each even-numbered year. Prior to submitting
24 the plan, the department shall make a draft of its proposed program
25 available to transportation planning agencies for review and
26 comment and shall include the comments in its submittal to the
27 commission.

28 (e) The commission may review the program relative to its
29 overall adequacy, consistency with the asset management plan
30 prepared and approved pursuant to Section 14526.4 and funding
31 priorities established in Section 167 of the Streets and Highways
32 Code, the level of annual funding needed to implement the
33 program, and the impact of those expenditures on the state
34 transportation improvement program. The commission shall adopt
35 the program and submit it to the Legislature and the Governor not
36 later than April 1 of each even-numbered year. The commission
37 may decline to adopt the program if the commission determines
38 that the program is not sufficiently consistent with the asset
39 management plan prepared and approved pursuant to Section
40 14526.4.

- 1 (f) Expenditures for these projects shall not be subject to
- 2 Sections 188 and 188.8 of the Streets and Highways Code.

O
