#### LEGISLATIVE COUNSEL'S DIGEST

SB 5, Leno. Electronic cigarettes.

Existing law, the Stop Tobacco Access to Kids Enforcement (STAKE) Act, prohibits a person from selling or otherwise furnishing tobacco products to a person under 18 years of age. Existing law permits enforcing agencies to assess various civil penalties for violations of the STAKE Act. Existing law makes it a crime to furnish tobacco products to a person under 18 years of age. Existing law also prohibits a person from selling or otherwise furnishing an electronic cigarette to a person under 18 years of age, and makes a violation punishable as an infraction.

This bill would define the term “smoking” for purposes of the STAKE Act. The bill would also change the STAKE Act’s definition of “tobacco products” to include electronic devices, such as electronic cigarettes, that deliver nicotine or other vaporized liquids, and make furnishing the tobacco product to a minor a misdemeanor.

Existing law, the Cigarette and Tobacco Products Tax Law, imposes a tax on the distribution of cigarettes and tobacco products at specified rates, and defines tobacco products for those purposes. Existing law, the Cigarette and Tobacco Products Licensing Act of 2003, requires the State Board of Equalization to administer a statewide program to license manufacturers, importers, distributors, wholesalers, and retailers of cigarettes and tobacco products, as defined. Under existing law, a violation of this act is a misdemeanor. Existing law requires a retailer to have in place and maintain a license to engage in the sale of cigarettes or tobacco products, as defined, and prescribes procedures for the issuance of and grounds for revocation or suspension of a license. Existing law requires a retailer who seeks to obtain

a license to engage in the sale of cigarettes and tobacco products to pay a one-time license fee of \$100, as specified. Existing law authorizes the State Board of Equalization or a law enforcement agency that discovers that a retailer or other person possesses, stores, owns, or has made a retail sale of tobacco products on which a tax is due but has not been paid to seize those products, and deems those products forfeited, as specified.

This bill would include in the definition of tobacco products for the purposes of those provisions relating to licenses for retailers the STAKE Act's new definition of tobacco products. The bill would impose a specified fee on retailers, to be submitted with each license or renewal application for the sale or distribution of tobacco products that are not subject to a tax imposed by the Cigarette and Tobacco Products Tax Law, unless the retailer is already in possession of a valid license to sell cigarette and tobacco products that are subject to that tax. The bill would include the STAKE Act's new definition of tobacco products in the provision authorizing seizure of tobacco products described above. The bill would make these provisions operative on January 1, 2017.

Existing law makes it a crime for a person or entity to engage in the business of selling cigarettes or tobacco products without a valid license or after a license has been suspended or revoked, as specified. Existing law also makes it a crime for a person to continue selling or gifting cigarettes or tobacco products without a valid license or after a notification of suspension or revocation, as specified.

This bill would include in the definition of tobacco products for the purposes of those provisions the STAKE Act's new definition of tobacco products. The bill would require all cartridges for electronic cigarettes and solutions for filling or refilling an electronic cigarette to be in child-resistant packaging, as prescribed. The bill would make these provisions operative on October 1, 2016.

Existing law prohibits the smoking of cigarettes and other tobacco products in a variety of specified areas. Under existing law, a violation of some of these prohibitions is punishable as an infraction.

This bill would change the location restrictions for smoking cigarettes and other tobacco products to reflect the STAKE Act's definitions of smoking and tobacco products. The bill would make the use of electronic cigarettes in some of these restricted locations a violation punishable as an infraction.

Existing law prohibits the smoking of medical marijuana in any place where smoking is prohibited by law.

This bill would declare that its provisions do not affect any law or regulation regarding medical marijuana.

This bill would incorporate additional changes to Section 6404.5 of the Labor Code proposed by certain bills in the 2nd Extraordinary Session of the 2015–16 Legislative Session that would become operative if this bill and those bills are enacted, as specified, and this bill is enacted last.

This bill would incorporate additional changes to Section 22958 of the Business and Professions Code and Section 308 of the Penal Code proposed

by SB 7 and AB 8 of the 2015–16 2nd Extraordinary Session of the Legislature. Those other bills would prohibit selling, advertising, or furnishing tobacco products to, or the purchasing of tobacco products by, persons under 21 years of age. If this bill and those bills are enacted, as specified, and this bill is enacted last, then this bill would prohibit selling, advertising, or furnishing an electronic device that delivers nicotine or other vaporized liquids, as specified, to persons under 21 years of age.

By expanding the scope of a crime, the bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

*The people of the State of California do enact as follows:*

(c) A landlord who exercises the authority provided in subdivision (a) to prohibit smoking shall be subject to federal, state, and local requirements governing changes to the terms of a lease or rental agreement for tenants with leases or rental agreements that are in existence at the time that the policy limiting or prohibiting smoking is adopted.

(d) This section shall not be construed to preempt any local ordinance in effect on or before January 1, 2012, or any provision of a local ordinance in effect on or after January 1, 2012, that restricts the smoking of cigarettes or other tobacco products.

(e) A limitation or prohibition of the use of any tobacco product shall not affect any other term or condition of the tenancy, nor shall this section be construed to require statutory authority to establish or enforce any other lawful term or condition of the tenancy.

(f) For purposes of this section, “smoking” has the same meaning as in subdivision (c) of Section 22950.5 of the Business and Professions Code.

(g) For purposes of this section, “tobacco product” means a product or device as defined in subdivision (d) of Section 22950.5 of the Business and Professions Code.

6404.5. (a) The Legislature finds and declares that regulation of smoking in the workplace is a matter of statewide interest and concern. It is the intent of the Legislature in enacting this section to prohibit the smoking of tobacco products in all (100 percent of) enclosed places of employment in this state, as covered by this section, thereby eliminating the need of local governments to enact workplace smoking restrictions within their respective jurisdictions. It is further the intent of the Legislature to create a uniform statewide standard to restrict and prohibit the smoking of tobacco products in enclosed places of employment, as specified in this section, in order to reduce employee exposure to environmental tobacco smoke to a level that will prevent anything other than insignificantly harmful effects to exposed employees, and also to eliminate the confusion and hardship that can result from enactment or enforcement of disparate local workplace smoking restrictions. Notwithstanding any other provision of this section, it is the intent of the Legislature that an area not defined as a “place of employment” pursuant to subdivision (d) or in which the smoking of tobacco products is not regulated pursuant to subdivision (e) is subject to local regulation of smoking of tobacco products.

(b) An employer shall not knowingly or intentionally permit, and a person shall not engage in, the smoking of tobacco products in an enclosed space at a place of employment. “Enclosed space” includes lobbies, lounges, waiting areas, elevators, stairwells, and restrooms that are a structural part of the building and not specifically defined in subdivision (d).

(c) For purposes of this section, an employer who permits any nonemployee access to his or her place of employment on a regular basis has not acted knowingly or intentionally in violation of this section if he or she has taken the following reasonable steps to prevent smoking by a nonemployee:

(1) Posted clear and prominent signs, as follows:

(A) Where smoking is prohibited throughout the building or structure, a sign stating “No smoking” shall be posted at each entrance to the building or structure.

(B) Where smoking is permitted in designated areas of the building or structure, a sign stating “Smoking is prohibited except in designated areas” shall be posted at each entrance to the building or structure.

(2) Has requested, when appropriate, that a nonemployee who is smoking refrain from smoking in the enclosed workplace.

For purposes of this subdivision, “reasonable steps” does not include (A) the physical ejection of a nonemployee from the place of employment or (B) any requirement for making a request to a nonemployee to refrain from smoking, under circumstances involving a risk of physical harm to the employer or any employee.

(d) For purposes of this section, “place of employment” does not include any of the following:

(1) Sixty-five percent of the guestroom accommodations in a hotel, motel, or similar transient lodging establishment.

(2) Areas of the lobby in a hotel, motel, or other similar transient lodging establishment designated for smoking by the establishment. An establishment may permit smoking in a designated lobby area that does not exceed 25 percent of the total floor area of the lobby or, if the total area of the lobby is 2,000 square feet or less, that does not exceed 50 percent of the total floor area of the lobby. For purposes of this paragraph, “lobby” means the common public area of an establishment in which registration and other similar or related transactions, or both, are conducted and in which the establishment’s guests and members of the public typically congregate.

(3) Meeting and banquet rooms in a hotel, motel, other transient lodging establishment similar to a hotel or motel, restaurant, or public convention center, except while food or beverage functions are taking place, including setup, service, and cleanup activities, or when the room is being used for exhibit purposes. At times when smoking is not permitted in a meeting or banquet room pursuant to this paragraph, the establishment may permit smoking in corridors and prefunction areas adjacent to and serving the meeting or banquet room if no employee is stationed in that corridor or area on other than a passing basis.

(4) Retail or wholesale tobacco shops and private smokers’ lounges. For purposes of this paragraph:

(A) “Private smokers’ lounge” means any enclosed area in or attached to a retail or wholesale tobacco shop that is dedicated to the use of tobacco products, including, but not limited to, cigars and pipes.

(B) “Retail or wholesale tobacco shop” means any business establishment the main purpose of which is the sale of tobacco products, including, but not limited to, cigars, pipe tobacco, and smoking accessories.

(5) Cabs of motortrucks, as defined in Section 410 of the Vehicle Code, or truck tractors, as defined in Section 655 of the Vehicle Code, if nonsmoking employees are not present.

(6) Warehouse facilities. For purposes of this paragraph, “warehouse facility” means a warehouse facility with more than 100,000 square feet of total floorspace, and 20 or fewer full-time employees working at the facility, but does not include any area within a facility that is utilized as office space.

(7) Gaming clubs, in which smoking is permitted by subdivision (f). For purposes of this paragraph, “gaming club” means any gaming club, as defined in Section 19802 of the Business and Professions Code, or bingo

facility, as defined in Section 326.5 of the Penal Code, that restricts access to minors under 18 years of age.

(8) Bars and taverns, in which smoking is permitted by subdivision (f). For purposes of this paragraph, “bar” or “tavern” means a facility primarily devoted to the serving of alcoholic beverages for consumption by guests on the premises, in which the serving of food is incidental. “Bar or tavern” includes those facilities located within a hotel, motel, or other similar transient occupancy establishment. However, when located within a building in conjunction with another use, including a restaurant, “bar” or “tavern” includes only those areas used primarily for the sale and service of alcoholic beverages. “Bar” or “tavern” does not include the dining areas of a restaurant, regardless of whether alcoholic beverages are served therein.

(9) Theatrical production sites, if smoking is an integral part of the story in the theatrical production.

(10) Medical research or treatment sites, if smoking is integral to the research and treatment being conducted.

(11) Private residences, except for private residences licensed as family day care homes where smoking is prohibited pursuant to Section 1596.795 of the Health and Safety Code.

(12) Patient smoking areas in long-term health care facilities, as defined in Section 1418 of the Health and Safety Code.

(13) Breakrooms designated by employers for smoking, provided that all of the following conditions are met:

(A) Air from the smoking room shall be exhausted directly to the outside by an exhaust fan. Air from the smoking room shall not be recirculated to other parts of the building.

(B) The employer shall comply with any ventilation standard or other standard utilizing appropriate technology, including, but not limited to, mechanical, electronic, and biotechnical systems, adopted by the Occupational Safety and Health Standards Board or the federal Environmental Protection Agency. If both adopt inconsistent standards, the ventilation standards of the Occupational Safety and Health Standards Board shall be no less stringent than the standards adopted by the federal Environmental Protection Agency.

(C) The smoking room shall be located in a nonwork area where no one, as part of his or her work responsibilities, is required to enter. For purposes of this subparagraph, “work responsibilities” does not include any custodial or maintenance work carried out in the breakroom when it is unoccupied.

(D) There are sufficient nonsmoking breakrooms to accommodate nonsmokers.

(14) Employers with a total of five or fewer employees, either full time or part time, may permit smoking where all of the following conditions are met:

(A) The smoking area is not accessible to minors.

(B) All employees who enter the smoking area consent to permit smoking. No one, as part of his or her work responsibilities, shall be required to work in an area where smoking is permitted. An employer who is determined by

the division to have used coercion to obtain consent or who has required an employee to work in the smoking area shall be subject to the penalty provisions of Section 6427.

(C) Air from the smoking area shall be exhausted directly to the outside by an exhaust fan. Air from the smoking area shall not be recirculated to other parts of the building.

(D) The employer shall comply with any ventilation standard or other standard utilizing appropriate technology, including, but not limited to, mechanical, electronic, and biotechnical systems, adopted by the Occupational Safety and Health Standards Board or the federal Environmental Protection Agency. If both adopt inconsistent standards, the ventilation standards of the Occupational Safety and Health Standards Board shall be no less stringent than the standards adopted by the federal Environmental Protection Agency.

This paragraph shall not be construed to (i) supersede or render inapplicable any condition or limitation on smoking areas made applicable to specific types of business establishments by any other paragraph of this subdivision or (ii) apply in lieu of any otherwise applicable paragraph of this subdivision that has become inoperative.

(e) Paragraphs (13) and (14) of subdivision (d) shall not be construed to require employers to provide reasonable accommodation to smokers, or to provide breakrooms for smokers or nonsmokers.

(f) (1) Except as otherwise provided in this subdivision, smoking may be permitted in gaming clubs, as defined in paragraph (7) of subdivision (d), and in bars and taverns, as defined in paragraph (8) of subdivision (d), until the earlier of the following:

(A) January 1, 1998.

(B) The date of adoption of a regulation (i) by the Occupational Safety and Health Standards Board reducing the permissible employee exposure level to environmental tobacco smoke to a level that will prevent anything other than insignificantly harmful effects to exposed employees or (ii) by the federal Environmental Protection Agency establishing a standard for reduction of permissible exposure to environmental tobacco smoke to an exposure level that will prevent anything other than insignificantly harmful effects to exposed persons.

(2) If a regulation specified in subparagraph (B) of paragraph (1) is adopted on or before January 1, 1998, smoking may thereafter be permitted in gaming clubs and in bars and taverns, subject to full compliance with, or conformity to, the standard in the regulation within two years following the date of adoption of the regulation. An employer failing to achieve compliance with, or conformity to, the regulation within this two-year period shall prohibit smoking in the gaming club, bar, or tavern until compliance or conformity is achieved. If the Occupational Safety and Health Standards Board and the federal Environmental Protection Agency both adopt regulations specified in subparagraph (B) of paragraph (1) that are inconsistent, the regulations of the Occupational Safety and Health Standards

Board shall be no less stringent than the regulations of the federal Environmental Protection Agency.

(3) If a regulation specified in subparagraph (B) of paragraph (1) is not adopted on or before January 1, 1998, the exemptions specified in paragraphs (7) and (8) of subdivision (d) shall become inoperative on and after January 1, 1998, until a regulation is adopted. Upon adoption of such a regulation on or after January 1, 1998, smoking may thereafter be permitted in gaming clubs and in bars and taverns, subject to full compliance with, or conformity to, the standard in the regulation within two years following the date of adoption of the regulation. An employer failing to achieve compliance with, or conformity to, the regulation within this two-year period shall prohibit smoking in the gaming club, bar, or tavern until compliance or conformity is achieved. If the Occupational Safety and Health Standards Board and the federal Environmental Protection Agency both adopt regulations specified in subparagraph (B) of paragraph (1) that are inconsistent, the regulations of the Occupational Safety and Health Standards Board shall be no less stringent than the regulations of the federal Environmental Protection Agency.

(4) From January 1, 1997, to December 31, 1997, inclusive, smoking may be permitted in gaming clubs, as defined in paragraph (7) of subdivision (d), and in bars and taverns, as defined in paragraph (8) of subdivision (d), subject to both of the following conditions:

(A) If practicable, the gaming club or bar or tavern shall establish a designated nonsmoking area.

(B) If feasible, an employee shall not be required, in the performance of ordinary work responsibilities, to enter any area in which smoking is permitted.

(g) The smoking prohibition set forth in this section constitutes a uniform statewide standard for regulating the smoking of tobacco products in enclosed places of employment and supersedes and renders unnecessary the local enactment or enforcement of local ordinances regulating the smoking of tobacco products in enclosed places of employment. Insofar as the smoking prohibition set forth in this section is applicable to all (100 percent) places of employment within this state and, therefore, provides the maximum degree of coverage, the practical effect of this section is to eliminate the need of local governments to enact enclosed workplace smoking restrictions within their respective jurisdictions.

(h) This section does not prohibit an employer from prohibiting smoking of tobacco products in an enclosed place of employment for any reason.

(i) The enactment of local regulation of smoking of tobacco products in enclosed places of employment by local governments shall be suspended only for as long as, and to the extent that, the (100 percent) smoking prohibition provided for in this section remains in effect. In the event this section is repealed or modified by subsequent legislative or judicial action so that the (100 percent) smoking prohibition is no longer applicable to all enclosed places of employment in California, local governments shall have the full right and authority to enforce previously enacted, and to enact and

enforce new, restrictions on the smoking of tobacco products in enclosed places of employment within their jurisdictions, including a complete prohibition of smoking. Notwithstanding any other provision of this section, an area not defined as a “place of employment” or in which smoking is not regulated pursuant to subdivision (d) or (e), is subject to local regulation of smoking of tobacco products.

(j) A violation of the prohibition set forth in subdivision (b) is an infraction, punishable by a fine not to exceed one hundred dollars (\$100) for a first violation, two hundred dollars (\$200) for a second violation within one year, and five hundred dollars (\$500) for a third and for each subsequent violation within one year. This subdivision shall be enforced by local law enforcement agencies, including, but not limited to, local health departments, as determined by the local governing body.

(k) Notwithstanding Section 6309, the division shall not be required to respond to any complaint regarding the smoking of tobacco products in an enclosed space at a place of employment, unless the employer has been found guilty pursuant to subdivision (j) of a third violation of subdivision (b) within the previous year.

(l) If a provision of this act or the application thereof to any person or circumstances is held invalid, that invalidity shall not affect other provisions or applications of the act that can be given effect without the invalid provision or application, and to this end the provisions of this act are severable.

(m) For purposes of this section, “smoking” has the same meaning as in subdivision (c) of Section 22950.5 of the Business and Professions Code.

(n) For purposes of this section, “tobacco product” means a product or device as defined in subdivision (d) of Section 22950.5 of the Business and Professions Code.

SEC. 23.5. Section 6404.5 of the Labor Code is amended to read:

6404.5. (a) The Legislature finds and declares that regulation of smoking in the workplace is a matter of statewide interest and concern. It is the intent of the Legislature in enacting this section to prohibit the smoking of tobacco products in all (100 percent of) enclosed places of employment in this state, as covered by this section, thereby eliminating the need of local governments to enact workplace smoking restrictions within their respective jurisdictions. It is further the intent of the Legislature to create a uniform statewide standard to restrict and prohibit the smoking of tobacco products in enclosed places of employment, as specified in this section, in order to reduce employee exposure to environmental tobacco smoke to a level that will prevent anything other than insignificantly harmful effects to exposed employees, and also to eliminate the confusion and hardship that can result from enactment or enforcement of disparate local workplace smoking restrictions. Notwithstanding any other provision of this section, it is the intent of the Legislature that an area not defined as a “place of employment” pursuant to subdivision (e) is subject to local regulation of smoking of tobacco products.

(b) For purposes of this section, an “owner-operated business” shall mean a business having no employees, independent contractors, or volunteers, in which the owner-operator of the business is the only worker. “Enclosed space” includes covered parking lots, lobbies, lounges, waiting areas, elevators, stairwells, and restrooms that are a structural part of the building and not specifically defined in subdivision (e).

(c) An employer or owner-operator of an owner-operated business shall not knowingly or intentionally permit, and a person shall not engage in, the smoking of tobacco products at a place of employment or in an enclosed space.

(d) For purposes of this section, an employer or owner-operator of an owner-operated business who permits any nonemployee access to his or her place of employment or owner-operated business on a regular basis has not acted knowingly or intentionally in violation of this section if he or she has taken the following reasonable steps to prevent smoking by a nonemployee:

(1) Posted clear and prominent signs, as follows:

(A) Where smoking is prohibited throughout the building or structure, a sign stating “No smoking” shall be posted at each entrance to the building or structure.

(B) Where smoking is permitted in designated areas of the building or structure, a sign stating “Smoking is prohibited except in designated areas” shall be posted at each entrance to the building or structure.

(2) Has requested, when appropriate, that a nonemployee who is smoking refrain from smoking in the enclosed workplace or owner-operated business.

For purposes of this subdivision, “reasonable steps” does not include (A) the physical ejection of a nonemployee from the place of employment or owner-operated business or (B) any requirement for making a request to a nonemployee to refrain from smoking, under circumstances involving a risk of physical harm to the employer or any employee or owner-operator.

(e) For purposes of this section, “place of employment” does not include any of the following:

(1) Twenty percent of the guestroom accommodations in a hotel, motel, or similar transient lodging establishment.

(2) Retail or wholesale tobacco shops and private smokers’ lounges. For purposes of this paragraph:

(A) “Private smokers’ lounge” means any enclosed area in or attached to a retail or wholesale tobacco shop that is dedicated to the use of tobacco products, including, but not limited to, cigars and pipes.

(B) “Retail or wholesale tobacco shop” means any business establishment, the main purpose of which is the sale of tobacco products, including, but not limited to, cigars, pipe tobacco, and smoking accessories.

(3) Cabs of motortrucks, as defined in Section 410 of the Vehicle Code, or truck tractors, as defined in Section 655 of the Vehicle Code, if nonsmoking employees are not present.

(4) Theatrical production sites, if smoking is an integral part of the story in the theatrical production.

(5) Medical research or treatment sites, if smoking is integral to the research and treatment being conducted.

(6) Private residences, except for private residences licensed as family day care homes where smoking is prohibited pursuant to Section 1596.795 of the Health and Safety Code.

(7) Patient smoking areas in long-term health care facilities, as defined in Section 1418 of the Health and Safety Code.

(f) The smoking prohibition set forth in this section constitutes a uniform statewide standard for regulating the smoking of tobacco products in enclosed places of employment and owner-operated businesses and supersedes and renders unnecessary the local enactment or enforcement of local ordinances regulating the smoking of tobacco products in enclosed places of employment and owner-operated businesses. Insofar as the smoking prohibition set forth in this section is applicable to all (100 percent) places of employment and owner-operated businesses within this state and, therefore, provides the maximum degree of coverage, the practical effect of this section is to eliminate the need of local governments to enact enclosed workplace smoking restrictions within their respective jurisdictions.

(g) This section does not prohibit an employer or owner-operator of an owner-operated business from prohibiting smoking of tobacco products in an enclosed place of employment or owner-operated business for any reason.

(h) The enactment of local regulation of smoking of tobacco products in enclosed places of employment or owner-operated businesses by local governments shall be suspended only for as long as, and to the extent that, the (100 percent) smoking prohibition provided for in this section remains in effect. In the event this section is repealed or modified by subsequent legislative or judicial action so that the (100 percent) smoking prohibition is no longer applicable to all enclosed places of employment and owner-operated businesses in California, local governments shall have the full right and authority to enforce previously enacted, and to enact and enforce new, restrictions on the smoking of tobacco products in enclosed places of employment and owner-operated businesses within their jurisdictions, including a complete prohibition of smoking. Notwithstanding any other provision of this section, an area not defined as a “place of employment” or in which smoking is not regulated pursuant to subdivision (e), is subject to local regulation of smoking of tobacco products.

(i) A violation of the prohibition set forth in subdivision (c) is an infraction, punishable by a fine not to exceed one hundred dollars (\$100) for a first violation, two hundred dollars (\$200) for a second violation within one year, and five hundred dollars (\$500) for a third and for each subsequent violation within one year. This subdivision shall be enforced by local law enforcement agencies, including, but not limited to, local health departments, as determined by the local governing body.

(j) Notwithstanding Section 6309, the division is not required to respond to any complaint regarding the smoking of tobacco products in an enclosed space at a place of employment, unless the employer has been found guilty

pursuant to subdivision (i) of a third violation of subdivision (c) within the previous year.

(k) If a provision of this section or the application thereof to any person or circumstances is held invalid, that invalidity shall not affect other provisions or applications of the section that can be given effect without the invalid provision or application, and to this end the provisions of this section are severable.

(l) For purposes of this section, “smoking” has the same meaning as in subdivision (c) of Section 22950.5 of the Business and Professions Code.

(m) For purposes of this section, “tobacco product” means a product or device as defined in subdivision (d) of Section 22950.5 of the Business and Professions Code.

(d) For purposes of determining the liability of persons, firms, or corporations controlling franchises or business operations in multiple locations for the second and subsequent violations of this section, each individual franchise or business location shall be deemed a separate entity.

(e) Notwithstanding subdivision (b), any person under 18 years of age who purchases, receives, or possesses any tobacco, cigarette, or cigarette papers, or any other preparation of tobacco, any other instrument or paraphernalia that is designed for the smoking of tobacco, or tobacco products is immune from prosecution for that purchase, receipt, or possession while participating in either of the following:
