SENATE BILL

No. 226

Introduced by Senator Pavley

February 13, 2015

An act to amend Sections 10720.1, 10720.5, ~~10720.8, 10721, 10722.2, 10735, and 10735.8~~ and 10722.2 of, to add Section 105.5 to, and to add Chapter 12 (commencing with Section 10737) to Part 2.74 of Division 6 of, the Water Code, relating to water.

LEGISLATIVE COUNSEL'S DIGEST

SB 226, as amended, Pavley. Sustainable Groundwater Management Act: groundwater adjudication.

The California Constitution requires that the water resources of the state be put to beneficial use to the fullest extent of which they are capable. Existing law specifies the jurisdiction of the courts. Under existing law, courts may adjudicate rights to produce groundwater and exercise other powers relating to the supervision of a groundwater basin. Existing law authorizes a court to order a reference to the State Water Resources Control Board, as referee, of any and all issues involved in the suit.

This bill would authorize the state to intervene as a matter of right in any suit brought in any court for determination of rights to water.

Existing law, the Sustainable Groundwater Management Act, requires all groundwater basins designated as high- or medium-priority basins by the Department of Water Resources that are designated as basins

subject to critical conditions of overdraft to be managed under a groundwater sustainability plan or coordinated groundwater sustainability plans by January 31, 2020, and requires all other groundwater basins designated as high- or medium-priority basins to be managed under a groundwater sustainability plan or coordinated groundwater sustainability plans by January 31, 2022, except as specified. *The act authorizes a local agency to request that the department revise the boundaries of a basin.*

~~This bill would establish special procedures for certain adjudication actions determining rights to groundwater in furtherance of the objectives of the act. The bill would provide that a court shall use the procedures in the Code of Civil Procedure for these adjudication actions, except as provided by the special procedures established in the bill. The bill would authorize the court to determine all rights to groundwater in a basin whether based on appropriation, overlying right, or other basis of right. The bill would require the boundaries of the area subject to an adjudication action to be consistent with the boundaries of a basin, with specified exceptions. The bill would specify service and notice procedures and would deem fulfillment of the service and publication provisions as effective service of process of the complaint and notice on all interested parties of the adjudication action for purposes of establishing in rem jurisdiction and the comprehensive effect of the adjudication action. The bill would require a party to provide specified initial disclosures, as prescribed, and under penalty of perjury. By expanding the scope of the crime of perjury, the bill would impose a state-mandated local program. The bill would require the court to have the authority and duty to impose a physical solution on the parties in an adjudication action where necessary and would authorize the court to adopt a stipulated judgment if the court finds that the judgment meets certain criteria. This bill would require the court to have continuing jurisdiction to modify or amend a final judgment in an adjudication action, as specified.~~

~~The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.~~

~~This bill would provide that no reimbursement is required by this act for a specified reason.~~

This bill, in an adjudication action to determine rights to groundwater in a basin that is required to have a groundwater sustainability plan under the act, would require the court to manage the proceedings in a

manner that minimizes interference with the timely completion and implementation of a groundwater sustainability plan, avoids redundancy and unnecessary costs in the development of technical information and a physical solution, and is consistent with the attainment of sustainable groundwater management within the timeframes established by the act. The bill would authorize an entity that is directed by the court in an adjudication action to file the request to request that the department revise the boundaries of a basin.

The act authorizes the state board to designate certain high- and medium-priority basins as a probationary basin if prescribed criteria are met. The act authorizes the state board to develop an interim plan for a probationary basin if the state board, in consultation with the department, determines that a local agency has not remedied a deficiency that resulted in designating the basin as a probationary basin within a certain timeframe. The act also requires the department, at least every 5 years after initial submission, to review any available groundwater sustainability plan or alternative and the implementation of the corresponding groundwater sustainability program for consistency with the act, including achieving the sustainability goal. The act requires the department to issue an assessment for each basin for which a plan or alternative has been submitted that may include recommended corrective actions to address any deficiencies identified by the department.

The bill would prohibit the provisions relating to probationary basins and interim plans from applying to a stipulated judgment approved by the court if the judgment is submitted to the department for evaluation and assessment and the department determines that the judgment satisfies the objectives of the act for the basin. The bill would require the department to submit to the court assessments and any recommended corrective actions for these judgments and would require the court, after notice and, if necessary, an evidentiary hearing, to determine whether to amend the judgment to adopt the department's recommended corrective actions. This bill would prohibit a court from approving entry of judgment in an adjudication action for a basin required to have a groundwater sustainability plan under the act unless the court finds that the judgment will not substantially impair the ability of a groundwater sustainability agency, the board, or the department to comply with the act and to achieve sustainable groundwater management.

Vote: majority. Appropriation: no. Fiscal committee: yes.
State-mandated local program: *yes-no*.

The people of the State of California do enact as follows:

- 1 SECTION 1. Section 105.5 is added to the Water Code, to
2 read:
- 3 105.5. (a) Notwithstanding any other law, the state may
4 intervene as a matter of right in any suit brought in any court for
5 determination of rights to water.
- 6 (b) *This section does not affect substantive law.*
- 7 SEC. 2. Section 10720.1 of the Water Code is amended to read:
8 10720.1. In enacting this part, it is the intent of the Legislature
9 to do all of the following:
- 10 (a) To provide for the sustainable management of groundwater
11 basins.
- 12 (b) To enhance local management of groundwater consistent
13 with rights to use or store groundwater and Section 2 of Article X
14 of the California Constitution. It is the intent of the Legislature to
15 preserve the security of water rights in the state to the greatest
16 extent possible consistent with the sustainable management of
17 groundwater.
- 18 (c) To establish minimum standards for sustainable groundwater
19 management.
- 20 (d) To provide local groundwater agencies with the authority
21 and the technical and financial assistance necessary to sustainably
22 manage groundwater.
- 23 (e) To avoid or minimize subsidence.
- 24 (f) To improve data collection and understanding about
25 groundwater.
- 26 (g) To increase groundwater storage and remove impediments
27 to recharge.
- 28 (h) To manage groundwater basins through the actions of local
29 governmental agencies to the greatest extent feasible, while
30 minimizing state intervention to only when necessary to ensure
31 that local agencies manage groundwater in a sustainable manner.
- 32 (i) To provide a more efficient and cost-effective groundwater
33 adjudication process that protects water rights, ensures due process,
34 prevents unnecessary delay, and furthers the objectives of this part.
- 35 SEC. 3. Section 10720.5 of the Water Code is amended to read:

1 10720.5. (a) Groundwater management pursuant to this part
 2 shall be consistent with Section 2 of Article X of the California
 3 Constitution. Nothing in this part modifies rights or priorities to
 4 use or store groundwater consistent with Section 2 of Article X of
 5 the California Constitution, except that in basins designated
 6 medium- or high-priority basins by the department, no extraction
 7 of groundwater between January 1, 2015, and the date of adoption
 8 of a groundwater sustainability plan pursuant to this part or the
 9 approval by the department of an alternative submitted under
 10 Section 10733.6, whichever is sooner, may be used as evidence
 11 of, or to establish or defend against, any claim of prescription.

12 (b) Nothing in this part, or in any groundwater management
 13 plan adopted pursuant to this part, determines or alters surface
 14 water rights or groundwater rights under common law or any
 15 provision of law that determines or grants surface water rights.

16 (c) Water rights may be determined in an adjudication action
 17 pursuant to ~~Chapter 12 (commencing with Section 10737)~~: *Chapter*
 18 *7 (commencing with Section 830) of Title 10 of Part 2 of the Code*

16 ~~with Section 10730) or taking action to enforce a groundwater~~
17 ~~sustainability plan, “groundwater sustainability agency” also means~~
18 ~~each local agency comprising the groundwater sustainability~~
19 ~~agency if the plan authorizes separate agency action.~~
- 20 (l) ~~“Groundwater sustainability plan” or “plan” means a plan~~

34 ~~facility actually is operated by some other person.~~
- 35 (p) ~~“Owner” means a person owning a groundwater extraction~~
36 ~~facility or an interest in a groundwater extraction facility other~~
37 ~~than a lien to secure the payment of a debt or other obligation.~~

27 ~~the basin:~~
28 (1) ~~Chronic lowering of groundwater levels indicating a~~
29 ~~significant and unreasonable depletion of supply if continued over~~
30 ~~the planning and implementation horizon. Overdraft during a period~~
31 ~~of drought is not sufficient to establish a chronic lowering of~~
32 ~~groundwater levels if extractions and recharge are managed as~~
33 ~~necessary to ensure that reductions in groundwater levels or storage~~
34 ~~during a period of drought are offset by increases in groundwater~~
35 ~~levels or storage during other periods.~~

20 ~~SEC. 6.~~

21 *SEC. 4.* Section 10722.2 of the Water Code is amended to read:

22 10722.2. (a) A local agency or an entity directed by the court
23 in an adjudication action to file the request may request that the
24 department revise the boundaries of a basin, including the
25 establishment of new subbasins. A request shall be supported by
26 the following information:

27 (1) Information demonstrating that the proposed adjusted basin
28 can be the subject of sustainable groundwater management.

29 (2) Technical information regarding the boundaries of, and
30 conditions in, the proposed adjusted basin.

31 (3) Information demonstrating that the entity proposing the
32 basin boundary adjustment consulted with interested local agencies
33 and public water systems in the affected basins before filing the
34 proposal with the department.

35 (4) Other information the department deems necessary to justify
36 revision of the basin’s boundary.

37 (b) By January 1, 2016, the department shall adopt regulations
38 regarding the information required to comply with subdivision (a),
39 including the methodology and criteria to be used to evaluate the
40 proposed revision. The department shall adopt the regulations,

1 including any amendments thereto, authorized by this section as
 2 emergency regulations in accordance with the Administrative
 3 Procedure Act (Chapter 3.5 (commencing with Section 11340) of
 4 Part 1 of Division 3 of Title 2 of the Government Code). The
 5 adoption of these regulations is an emergency and shall be
 6 considered by the Office of Administrative Law as necessary for
 7 the immediate preservation of the public peace, health and safety,
 8 or general welfare. Notwithstanding the Administrative Procedure
 9 Act, emergency regulations adopted by the department pursuant
 10 to this section shall not be subject to review by the Office of
 11 Administrative Law and shall remain in effect until revised by the
 12 department.

13 (c) Methodology and criteria established pursuant to subdivision
 14 (b) shall address all of the following:

15 (1) How to assess the likelihood that the proposed basin can be
 16 sustainably managed.

17 (2) How to assess whether the proposed basin would limit the
 18 sustainable management of adjacent basins.

19 (3) How to assess whether there is a history of sustainable
 20 management of groundwater levels in the proposed basin.

21 (d) Prior to adopting the regulations pursuant to subdivision (b),
 22 the department shall conduct three public meetings to consider
 23 public comments. The department shall publish the draft
 24 regulations on its Internet Web site at least 30 days before the
 25 public meetings. One meeting shall be conducted at a location in
 26 northern California, one meeting shall be conducted at a location
 27 in the central valley of California, and one meeting shall be
 28 conducted at a location in southern California.

29 (e) The department shall provide a copy of its draft revision of
 30 a basin’s boundaries to the California Water Commission. The
 31 California Water Commission shall hear and comment on the draft
 32 revision within 60 days after the department provides the draft
 33 revision to the commission.

34 ~~SEC. 7. Section 10735 of the Water Code is amended to read:~~
 35 ~~10735. As used in this chapter and Chapter 12 (commencing~~
 36 ~~with Section 10737), the following terms have the following~~
 37 ~~meanings:~~

38 (a) ~~“Condition of long-term overdraft” means the condition of~~
 39 ~~a groundwater basin where the average annual amount of water~~
 40 ~~extracted for a long-term period, generally 10 years or more,~~

1 exceeds the long-term average annual supply of water to the basin,
2 plus any temporary surplus. Overdraft during a period of drought
3 is not sufficient to establish a condition of long-term overdraft if
4 extractions and recharge are managed as necessary to ensure that
5 reductions in groundwater levels or storage during a period of
6 drought are offset by increases in groundwater levels or storage
7 during other periods.

8 (b) “Person” means any person, firm, association, organization,
9 partnership, business, trust, corporation, limited liability company,
10 or public agency, including any city, county, city and county,
11 district, joint powers authority, state, or any agency or department
12 of those entities. “Person” includes, to the extent authorized by
13 federal or tribal law and subject to the limitations described in
14 subdivisions (c) and (d) of Section 10720.3, the United States, a
15 department, agency or instrumentality of the federal government,
16 an Indian tribe, an authorized Indian tribal organization, or
17 interstate body.

18 (c) “Probationary basin” means a basin for which the board has
19 issued a determination under Section 10735.2.

20 (d) “Significant depletions of interconnected surface waters”
21 means reductions in flow or levels of surface water that is
22 hydrologically connected to the basin such that the reduced surface
23 water flow or levels have a significant and unreasonable adverse
24 impact on beneficial uses of the surface water.

25 SEC. 8. Section 10735.8 of the Water Code is amended to read:

26 10735.8. (a) The board, after notice and a public hearing, may
27 adopt an interim plan for a probationary basin.

28 (b) The interim plan shall include all of the following:

29 (1) Identification of the actions that are necessary to correct a
30 condition of long-term overdraft or a condition where groundwater
31 extractions result in significant depletions of interconnected surface
32 waters, including recommendations for appropriate action by any
33 person.

34 (2) A time schedule for the actions to be taken.

35 (3) A description of the monitoring to be undertaken to
36 determine effectiveness of the plan.

37 (c) The interim plan may include the following:

38 (1) Restrictions on groundwater extraction.

39 (2) A physical solution.

1 ~~(3) Principles and guidelines for the administration of rights to~~
2 ~~surface waters that are connected to the basin.~~

3 ~~(d) Except as provided in subdivision (c), the interim plan shall~~
4 ~~be consistent with water right priorities, subject to Section 2 of~~
5 ~~Article X of the California Constitution.~~

6 ~~(e) The board shall include in its interim plan a groundwater~~
7 ~~sustainability plan, or any element of a plan, that the board finds~~
8 ~~complies with the sustainability goal for that portion of the basin~~
9 ~~or would help meet the sustainability goal for the basin. Where,~~
10 ~~in the judgment of the board, an adjudication action can be relied~~
11 ~~on as part of the interim plan, either throughout the basin or in an~~
12 ~~area within the basin, the board may rely on, or incorporate~~
13 ~~elements of, that adjudication into the interim plan adopted by the~~
14 ~~board.~~

15 ~~(f) In carrying out activities that may affect the probationary~~
16 ~~basin, state entities shall comply with an interim plan adopted by~~
17 ~~the board pursuant to this section unless otherwise directed or~~
18 ~~authorized by statute and the state entity shall indicate to the board~~
19 ~~in writing the authority for not complying with the interim plan.~~

20 ~~(g) (1) After the board adopts an interim plan under this section,~~
21 ~~the board shall determine if a groundwater sustainability plan or~~
22 ~~an adjudication action is adequate to eliminate the condition of~~
23 ~~long-term overdraft or condition where groundwater extractions~~
24 ~~result in significant depletions of interconnected surface waters,~~
25 ~~upon petition of either of the following:~~

26 ~~(A) A groundwater sustainability agency that has adopted a~~
27 ~~groundwater sustainability plan for the probationary basin or a~~
28 ~~portion thereof.~~

29 ~~(B) A person authorized to file the petition by a judicial order~~
30 ~~or decree entered in an adjudication action in the probationary~~
31 ~~basin.~~

32 ~~(2) The board shall act on a petition filed pursuant to paragraph~~
33 ~~(1) within 90 days after the petition is complete. If the board, in~~
34 ~~consultation with the department, determines that the groundwater~~
35 ~~sustainability plan or adjudication action is adequate, the board~~
36 ~~shall rescind the interim plan adopted by the board for the~~
37 ~~probationary basin, except as provided in paragraphs (3) and (4).~~

38 ~~(3) Upon request of the petitioner, the board may amend an~~
39 ~~interim plan adopted under this section to eliminate portions of~~

1 the interim plan, while allowing other portions of the interim plan
2 to continue in effect.

3 ~~(4) The board may decline to rescind an interim plan adopted
4 pursuant to this section if the board determines that the petitioner
5 has not provided adequate assurances that the groundwater
6 sustainability plan or judicial order or decree will be implemented.~~

7 ~~(5) This subdivision is not a limitation on the authority of the
8 board to stay its proceedings under this section or to rescind or
9 amend an interim plan adopted pursuant to this section based on
10 the progress made by a groundwater sustainability agency or in
11 an adjudication action pursuant to Chapter 12 (commencing with
12 Section 10737), even if the board cannot make a determination of
13 adequacy in accordance with paragraph (1).~~

14 ~~(h) Before January 1, 2025, the state board shall not establish
15 an interim plan under this section to remedy a condition where the
16 groundwater extractions result in significant depletions of
17 interconnected surface waters.~~

18 ~~(i) The board's authority to adopt an interim plan under this
19 section does not alter the law establishing water rights priorities
20 or any other authority of the board.~~

21 ~~SEC. 9. Chapter 12 (commencing with Section 10737) is added
22 to Part 2.74 of Division 6 of the Water Code, to read:~~

23
24 ~~CHAPTER 12. DETERMINATION OF RIGHTS TO GROUNDWATER~~

25
26 ~~Article 1. General Provisions~~

27
28 ~~10737. (a) This chapter establishes a timely and comprehensive
29 method for determining rights to groundwater in furtherance of
30 the objectives of this part.~~

31 ~~(b) This chapter shall be applied and interpreted consistently
32 with all of the following:~~

33 ~~(1) Protecting water rights consistent with Section 2 of Article
34 X of the California Constitution.~~

35 ~~(2) Conducting an adjudication action in a manner that promotes
36 efficiency, reduces unnecessary delays, provides due process, and
37 is consistent with the achievement of the sustainability goal within
38 the timeframes of this part.~~

39 ~~(3) Encouraging the compromise and settlement of adjudication
40 actions.~~

1 ~~(4) Establishing procedures by which courts may conduct~~
2 ~~comprehensive determinations of all rights and priorities to~~
3 ~~groundwater in a basin.~~

4 ~~(5) Providing for the conduct of an adjudication action consistent~~
5 ~~with *Winters v. U.S.* (1908) 207 U.S. 564, the McCarran~~
6 ~~Amendment (codified at 43 U.S.C. Sec. 666), and any other federal~~
7 ~~law regarding the determination of federal or tribal water rights,~~
8 ~~as applicable.~~

9 ~~(6) Providing notice and due process sufficient to enable a court~~
10 ~~in an adjudication action to determine and establish the priority~~
11 ~~for unexercised water rights consistent with the principles~~
12 ~~established in *In re Waters of Long Valley Creek Stream System*~~
13 ~~(1979) 25 Cal.3d 339.~~

14 ~~10737.2. In an adjudication action for a basin required to have~~
15 ~~a groundwater sustainability plan under this part, the court shall~~
16 ~~manage the proceedings in a manner that minimizes interference~~
17 ~~with the timely completion and implementation of a groundwater~~
18 ~~sustainability plan, avoids redundancy and unnecessary costs in~~
19 ~~the development of technical information and a physical solution,~~
20 ~~and is consistent with the attainment of the sustainability goal~~
21 ~~within the timeframes established by this part.~~

22 ~~10737.4. Except as otherwise provided in this chapter, a court~~
23 ~~shall determine rights to groundwater using the procedures codified~~
24 ~~in the Code of Civil Procedure.~~

25
26 ~~Article 2. Scope of the Action~~
27

28 ~~10738. (a) Except as provided in subdivision (b), this chapter~~
29 ~~applies to either of the following:~~

30 ~~(1) An adjudication action in a high- or medium-priority basin.~~

31 ~~(2) Where a court considers the need for effective determination~~
32 ~~and administration of water rights and priorities, the purposes of~~
33 ~~this part, and the interest in judicial economy, and determines that~~
34 ~~proceedings in an adjudication action should be conducted under~~
35 ~~this chapter.~~

36 ~~(b) This chapter does not apply to any of the following~~
37 ~~adjudication actions:~~

38 ~~(1) An adjudication action that concerns only allegations that a~~
39 ~~groundwater extraction facility, or a group of facilities, is~~
40 ~~interfering with another groundwater extraction facility or facilities~~

1 and that does not require an allocation of the basin's groundwater
2 supply.

3 ~~(2) An adjudication action that concerns only claims to extract,
4 or prevent interference with extractions from, water stored in a
5 basin as a result of artificial recharge and does not involve an
6 allocation of the basin's groundwater supply.~~

7 ~~(3) An adjudication action that can be resolved among a limited
8 number of parties and does not involve a comprehensive allocation
9 of the basin's groundwater supply.~~

10 ~~10738.2. (a) The court may determine all rights to groundwater
11 in an adjudication action for a basin, whether based upon
12 appropriation, overlying right, or other basis of right.~~

13 ~~(b) As to the right to groundwater of each party, the court's final
14 judgment in an adjudication action may declare the priority,
15 amount, purposes of use, extraction location, and place of use of
16 the water, together with appropriate injunction relief, subject to
17 terms adopted by the court to implement a physical solution in the
18 adjudication action.~~

19 ~~10738.4. (a) (1) Except as otherwise provided in this section,
20 the boundaries of the area subject to an adjudication action shall
21 be consistent with the boundaries of a basin.~~

22 ~~(2) If the department revises the boundaries of a basin under
23 Section 10722.2 or subdivision (b) of Section 12924 after an
24 adjudication action has been initiated, the court may revise the
25 boundaries of the area subject to the adjudication action as the
26 interest of justice and the objectives of this chapter require.~~

27 ~~(3) Upon a showing that a revision of the basin boundaries
28 would further a fair and effective determination of water rights,
29 the court may direct any of the following to submit a request to
30 the department for revision of the basin boundaries in accordance
31 with Section 10722.2:~~

32 ~~(A) A party to the adjudication action.~~

33 ~~(B) The board, if the court has made a reference under Part 3
34 (commencing with Section 2000) of Division 2.~~

35 ~~(C) A special master, if one has been appointed.~~

36 ~~(b) If the court finds that including an interconnected surface
37 water body or subterranean stream flowing through known and
38 definite channels is necessary to the fair and effective determination
39 of the rights to a basin, the court may require the joinder of persons~~

1 who claim rights to divert and use water from that surface water
2 body or subterranean stream in the adjudication action.

3 (e) If the court finds that claims of right to extract or divert only
4 minor quantities of water, not to exceed five acre-feet per year,
5 have no material effect on the rights of other parties, the court may
6 exempt those claimants with respect to those claims for only minor
7 quantities of water. A person exempted pursuant to this subdivision
8 may elect to continue as a party to the adjudication action.

9
10 Article 3. Selection of Judge

11
12 10739. (a) A judge of a superior court of a county within which
13 a portion of the groundwater adjudication lies shall be disqualified.
14 The chair of the Judicial Council shall assign a judge to preside in
15 all proceedings in an adjudication action.

16 (b) An adjudication action is presumed to be a complex action
17 within the meaning of Rule 3.400 of the California Rules of Court
18 unless a party demonstrates that the comprehensive adjudication
19 is not complex.

20 (c) Sections 170.6 and 394 of the Code of Civil Procedure shall
21 not apply in an adjudication action.

22 (d) (1) Notwithstanding subdivision (b) of Section 10726.6, an
23 action against a groundwater sustainability agency that is located
24 in a basin that is being adjudicated under this chapter shall be
25 subject to transfer, coordination, and consolidation with the
26 adjudication action, as appropriate, if the action concerns the
27 adoption, substance, or implementation of a groundwater
28 sustainability plan, or the agency’s compliance with the timelines
29 in this part.

30 (2) The judge assigned by the Judicial Council pursuant to
31 subdivision (a) shall determine whether transfer, coordination, or
32 consolidation is appropriate.

33
34 Article 4. Electronic Service

35
36 10739.6. Except for the service of a complaint pursuant to
37 Article 5 (commencing with Section 10740), the service of
38 pleadings and papers in an adjudication action shall occur
39 electronically to the greatest extent possible. Each party shall serve
40 documents by electronic mail, or other equivalent electronic means,

1 to the greatest extent possible. To enable electronic service of
2 pleadings and papers, the attorney of record or a party representing
3 themselves shall include an electronic mail address for service in
4 the captions of pleadings and papers that the attorney or party files
5 in the adjudication action.

6

16 ~~(4) The plaintiff is not required to provide notice under this~~
17 ~~subdivision to a person who has already been served or intervened~~
18 ~~in the adjudication action.~~

12 ~~hold groundwater rights in the basin.~~

13 (i) ~~The court may require notice to be made available in~~
14 ~~languages other than English.~~

2 ~~to a failure to join the United States or an Indian tribe to a~~
3 ~~comprehensive adjudication.~~

4 ~~10740.8. (a) Whenever proceedings are instituted to determine~~

6 ~~interested in the proceedings and having notice of the proceedings~~
7 ~~pursuant to this chapter to appear in the proceedings and to submit~~
8 ~~proof of their claims at the time, and in the manner, required by~~
9 ~~this chapter.~~

10 ~~(b) The fulfillment of the notice and service provisions of this~~

23 the basin by the party, or the party's representative or agent, during
24 each of the five calendar years immediately preceding the filing

15 ~~(B) As ordered by the court.~~

16 ~~(2) A party’s duty to supplement or correct its expert witness’s~~

 28 ~~makes the supplemental disclosure to pay some or all of the costs~~
 29 ~~associated with the supplemental deposition.~~

30 ~~(g) If a party or its expert witness fails to comply with this~~
 31 ~~section, the court may, upon notice and hearing, exclude the expert~~

35
 36 **Article 13. Written Testimony**

37
 38 ~~10744.5. (a) A court in an adjudication action may require the~~

1 ~~presenting live testimony. The required written testimony may~~
 2 ~~include, but is not limited to, expert witness opinions and testimony~~
 3 ~~that authenticates documentary evidence. The court may order that~~
 4 ~~the written testimony constitutes the entirety of the witness's direct~~

9 ~~(b) If the court requires the submission of written testimony~~
 10 ~~pursuant to subdivision (a), a complete copy of the direct testimony~~
 11 ~~shall be served at least 21 days before trial. A complete copy of~~
 12 ~~any rebuttal testimony shall be served no later than the first day~~
 13 ~~of trial.~~

14 ~~(c) If the contents of the written testimony would have been~~
 15 ~~admissible if the witness testified orally, the written testimony~~
 16 ~~shall be received by the court as a documentary exhibit provided~~
 17 ~~that the witness whose written testimony is being offered is made~~
 18 ~~available for cross-examination by all parties.~~

19

20 ~~Article 14. Physical Solution~~

21

22 ~~10745. (a) The court shall have the authority and the duty to~~

 24 ~~consistent with Section 2 of Article X of the California~~
 25 ~~Constitution, where necessary.~~

26 ~~(b) Prior to adopting a physical solution presented by a party~~
 27 ~~or considered on the court's own motion, the court shall determine~~
 28 ~~whether a physical solution is required to prevent waste and~~
 29 ~~unreasonable use by Section 2 of Article X of the California~~
 30 ~~Constitution after considering any existing groundwater~~
 31 ~~sustainability plan or program.~~

32

33 ~~Article 15. Stipulated Judgment~~

34

35 ~~10746. (a) If a party, or a group of parties, submits a proposed~~

1 ~~(2) It treats objecting parties and any persons who have claims~~
2 ~~that are exempted under Section 10738.4 equitably as compared~~
3 ~~to the stipulating parties.~~

4 ~~(3) It will not substantially impair the ability of a groundwater~~
5 ~~sustainability agency, the board, or the department to comply with~~
6 ~~this part and to achieve the sustainability goal.~~

7 ~~(b) (1) The court may adopt a proposed stipulated judgment,~~
8 ~~as applied to the stipulating parties, if the stipulation meets the~~

16 ~~(2) A party objecting to a proposed stipulated judgment pursuant~~
17 ~~to this subdivision shall demonstrate, by a preponderance of the~~
18 ~~evidence, that the proposed stipulated judgment does not satisfy~~
19 ~~one or more criteria described in subdivision (a) or that it~~
20 ~~substantially violates the party's water rights. If the objecting party~~
21 ~~is unable to make this showing, the court may impose the proposed~~
22 ~~stipulated judgment on the objecting party. The objecting party~~
23 ~~may be subject to a preliminary injunction under Article 11~~
24 ~~(commencing with Section 10743.5) while the party's objections~~
25 ~~remain unresolved.~~

26 ~~10746.2. Chapter 11 (commencing with Section 10735) shall~~
27 ~~not apply to a stipulated judgment approved by the court pursuant~~

29 ~~(a) The proposed stipulated judgment meets the criteria of~~
30 ~~subdivision (a) of Section 10746.~~

31 ~~(b) All groundwater sustainability agencies within the basin~~
32 ~~support the proposed stipulated judgment.~~

33 ~~(c) A local agency has submitted the proposed stipulated~~
34 ~~judgment to the department for evaluation and assessment pursuant~~
35 ~~to Section 10733.4 or paragraph (2) of subdivision (b) of Section~~
36 ~~10733.6. Notwithstanding subdivision (c) of Section 10733.6, a~~
37 ~~proposed stipulated judgment may be submitted to the department~~
38 ~~after January 1, 2017.~~

39 ~~(d) The department determines that the proposed stipulated~~
40 ~~judgment satisfies the objectives of this part for the basin.~~

10747. The judgment in an adjudication action under this chapter shall be binding on the parties to the action, each party's successors in interest, including, but not limited to, heirs, executors, administrators, assigns, lessees, licensees, and upon the agents and employees of all these persons, and upon all landowners or other persons claiming rights to extract groundwater from within the basin.
