

AMENDED IN ASSEMBLY JUNE 23, 2015

AMENDED IN SENATE APRIL 6, 2015

SENATE BILL

No. 489

Introduced by Senator Monning

February 26, 2015

An act to add Article 17 (commencing with Section 25259) to Chapter 6.5 of Division 20 of the Health and Safety Code, relating to hazardous waste.

LEGISLATIVE COUNSEL'S DIGEST

SB 489, as amended, Monning. Hazardous waste: photovoltaic modules.

The Hazardous Waste Control Law, among other things, vests the Department of Toxic Substances Control with the authority to regulate the generation and disposal of hazardous waste. Under now-expired authority, the department adopted regulations exempting specified hazardous waste management activities from certain statutory requirements related to hazardous waste management. These regulations are to remain valid unless repealed. A violation of the Hazardous Waste Control Law, including a regulation adopted pursuant to that law, is a crime. Under existing law, the hazardous wastes that are deemed exempt from the Hazardous Waste Control Law are known as "universal waste" and are regulated pursuant to universal waste management provisions.

This bill would authorize the department to adopt regulations to designate end-of-life photovoltaic modules that are identified as hazardous waste as a universal waste and subject those modules to universal waste management. The bill would authorize the department to revise the regulations as necessary. Because a violation of these

regulations would be a crime, this bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Vote: majority. Appropriation: no. Fiscal committee: yes.
 State-mandated local program: yes.

The people of the State of California do enact as follows:

1 SECTION 1. (a) The Legislature finds and declares all of the
 2 following:

3 (1) *California has adopted policies that have contributed to*
 4 *making the state a leader in the installation of solar energy systems*
 5 *and have resulted in a substantial increase in solar energy*
 6 *utilization by homes, businesses, and utilities.*

7 ~~(1) California’s policies, including the policies reflected in~~
 8 (2) *These policies include the California Solar Initiative*
 9 *(Chapter 8.8 (commencing with Section 25780) of Division 15 of*
 10 *the Public Resources Code), the state’s net energy metering*
 11 *program, and the California Renewables Portfolio Standard*
 12 *Program (Article 16 (commencing with Section 399.11) of Chapter*
 13 *2.3 of Part 1 of Division 1 of the Public Utilities Code), have made*
 14 *California the leading state in the installation of solar energy*
 15 *systems by providing ratepayer-funded incentives to eligible solar*
 16 *energy systems, resulting in substantially increased utilization by*
 17 *homes, businesses, and utilities. Code).*

18 ~~(2)~~
 19 (3) *Existing solar energy systems use photovoltaic technology*
 20 *to capture sunlight and convert it into electricity until the end of*
 21 *their useful lives, estimated to be between 25 and 40 years. Today*
 22 *Today, a wide variety of solar photovoltaic technologies,*
 23 *manufactured using processes and materials similar to those of the*
 24 *microelectronics industry, contribute to California’s solar energy*
 25 *portfolio.*

26 ~~(3)~~
 27 (4) *The numerous renewable and customer-generated solar*
 28 *programs in California have led to a rapid expansion of solar*

1 energy systems and have given rise to an emerging photovoltaic
2 industry. An increasing amount of end-of-life photovoltaic modules
3 can be expected from 2020 onwards in California. It is critical to
4 consider the end-of-life issues associated with photovoltaic
5 modules. Recycling is the most sustainable way to manage
6 end-of-life photovoltaic modules.

7 (b) It is the intent of the Legislature to do all of the following:

8 (1) Foster a comprehensive and innovative system for the reuse,
9 recycling, and proper and legal disposal of end-of-life photovoltaic
10 modules.

11 (2) Encourage the photovoltaic module industry to make
12 end-of-life management of photovoltaic modules convenient for
13 consumers and the public, to ensure the return and recycling of
14 photovoltaic modules, which is the most efficient and
15 environmentally safe disposition of end-of-life photovoltaic
16 modules, by ~~constructing~~ *creating* a photovoltaic module recycling
17 organization to develop a plan for recycling end-of-life photovoltaic
18 modules in the state in an economically efficient manner.

19 (3) Reduce the likelihood of improper disposal by prohibiting
20 end-of-life photovoltaic modules from entering landfills.

21 (c) It is further the intent of the Legislature that photovoltaic
22 modules should be designed for extended life, repair, and reuse,
23 and that collection and recycling services should be promoted.

24 SEC. 2. Article 17 (commencing with Section 25259) is added
25 to Chapter 6.5 of Division 20 of the Health and Safety Code, to
26 read:

27
28 Article 17. Photovoltaic Modules

29
30 25259. The department may, by regulation, designate
31 end-of-life photovoltaic modules that are identified as hazardous
32 waste as a universal waste and subject those modules to universal
33 waste management. The department may revise these regulations
34 as necessary.

35 SEC. 3. No reimbursement is required by this act pursuant to
36 Section 6 of Article XIII B of the California Constitution because
37 the only costs that may be incurred by a local agency or school
38 district will be incurred because this act creates a new crime or
39 infraction, eliminates a crime or infraction, or changes the penalty
40 for a crime or infraction, within the meaning of Section 17556 of

- 1 the Government Code, or changes the definition of a crime within
- 2 the meaning of Section 6 of Article XIII B of the California
- 3 Constitution.

O
