

Senate Bill No. 758

Passed the Senate September 8, 2015

Secretary of the Senate

Passed the Assembly September 4, 2015

Chief Clerk of the Assembly

This bill was received by the Governor this _____ day
of _____, 2015, at _____ o'clock ____M.

Private Secretary of the Governor

CHAPTER _____

An act to add Article 8 (commencing with Section 347) to Chapter 2.5 of Division 1 of the Water Code, relating to climate change.

LEGISLATIVE COUNSEL'S DIGEST

SB 758, Block. Atmospheric Rivers: Research, Mitigation, and Climate Forecasting Program.

Existing law establishes the Department of Water Resources and requires the department to implement various water conservation and flood control programs and projects in the state.

This bill would establish the Atmospheric Rivers: Research, Mitigation, and Climate Forecasting Program in the department to, upon appropriation of special fund moneys, research climate forecasting and the causes and impacts that climate change has on atmospheric rivers, to operate reservoirs in a manner that improves flood protection in the state, and to reoperate flood control and water storage facilities to capture water generated by atmospheric rivers.

The people of the State of California do enact as follows:

SECTION 1. Article 8 (commencing with Section 347) is added to Chapter 2.5 of Division 1 of the Water Code, to read:

Article 8. Atmospheric Rivers: Research, Mitigation, and
Climate Forecasting

347. (a) The Atmospheric Rivers: Research, Mitigation, and Climate Forecasting Program is hereby established in the Department of Water Resources.

(b) Upon appropriation of special fund moneys, including, but not limited to, private funds, for these purposes, the department shall conduct research relating to climate forecasting and the causes and impacts that climate change has on atmospheric rivers, and shall take all actions within its existing authority to operate reservoirs in a manner that improves flood protection in the state

and to reoperate flood control and water storage facilities to capture water generated by atmospheric rivers, thereby increasing water supply, hydropower availability, and the reliability of water resources in the state.

Approved _____, 2015

Governor
