

Introduced by Senator AllenFebruary 17, 2016

An act to amend Section 10565 of the Water Code, relating to stormwater.

LEGISLATIVE COUNSEL'S DIGEST

SB 1114, as introduced, Allen. Stormwater resource planning: project funding.

Existing law, the Stormwater Resources Planning Act, authorizes one or more public agencies to develop a stormwater resource plan. The act requires the State Water Resources Control Board, by July 1, 2016, to establish guidance for purposes of the act. The act requires, with certain exceptions, the development of a stormwater resource plan and compliance with the act to receive grants for stormwater and dry weather runoff capture projects from a bond act approved by the voters after January 1, 2014.

This bill, by March 1, 2017, would require the board to include as part of its guidance a list of potential funding sources available to a public agency to fund projects identified in a public agency's stormwater resource plan.

Vote: majority. Appropriation: no. Fiscal committee: yes.
State-mandated local program: no.

The people of the State of California do enact as follows:
