

**Introduced by Senator De León**

February 19, 2016

---

An act to amend Section 38564 of the Health and Safety Code, relating to greenhouse gases.

**LEGISLATIVE COUNSEL'S DIGEST**

SB 1464, as introduced, De León. California Global Warming Solutions Act of 2006: greenhouse gas emissions reduction.

The California Global Warming Solutions Act of 2006 designates the State Air Resources Board as the state agency charged with monitoring and regulating sources of emissions of greenhouse gases. The state board is required to adopt a statewide greenhouse gas emissions limit equivalent to the statewide greenhouse gas emissions level in 1990 to be achieved by 2020, and to adopt rules and regulations in an open public process to achieve the maximum technologically feasible and cost-effective greenhouse gas emission reductions.

Existing law requires the state board to consult with other states, the federal government, and other nations to identify the most effective strategies and methods to reduce greenhouse gases, manage greenhouse gas control programs, and facilitate the development of integrated and cost-effective regional, national, and international greenhouse gas reduction programs.

This bill would require the state board to also consult with local agencies for these purposes.

Vote: majority. Appropriation: no. Fiscal committee: yes.  
State-mandated local program: no.

*The people of the State of California do enact as follows:*

1     SECTION 1. Section 38564 of the Health and Safety Code is  
2     amended to read:  
3     38564. The state board shall consult with *local agencies*, other  
4     states, ~~and~~ the federal government, and other nations to identify  
5     the most effective strategies and methods to reduce greenhouse  
6     gases, manage greenhouse gas control programs, and ~~to~~ facilitate  
7     the development of integrated and cost-effective regional, national,  
8     and international greenhouse gas reduction programs.
