

## Assembly Bill No. 2235

### CHAPTER 930

An act to amend Section 52335.2 of, and to add Sections 52335.9 and 52335.10 to, the Education Code, relating to regional occupational centers.

[Approved by Governor September 25, 1996. Filed  
with Secretary of State September 26, 1996.]

#### LEGISLATIVE COUNSEL'S DIGEST

AB 2235, Sweeney. Regional occupational centers: finance.

(1) Existing law requires the Superintendent of Public Instruction to calculate a revenue limit for each regional occupational center or program (ROC/P). As part of that calculation, existing law requires the Superintendent of Public Instruction to calculate a base revenue limit per unit of average daily attendance for the current fiscal year. Existing law requires the Superintendent of Public Instruction to deduct from the revenue limit for each ROC/P any local revenue that would otherwise be deemed restricted and not available for expenditure in the current fiscal year, as specified.

This bill would require that any state funds made available as a result of local property tax revenues deducted pursuant to the above provision shall be allocated to all ROC/Ps in an equal amount per unit of funded average daily attendance and would require that these funds shall not be included in the calculation of the base revenue limit for the subsequent fiscal year.

(2) Under existing law, the Budget Act of 1996, funding is provided for the support of ROC/Ps. Under existing law, the Budget Act of 1996, \$10,000,000 is made available to the State Department of Education to increase revenue limits of ROC/Ps to the statewide average revenue limit for the 1995-96 fiscal year. Existing law provides that the Department of Finance shall approve the methodology used by the State Department of Education to allocate the \$10,000,000.

This bill would require the Superintendent of Public Instruction to recalculate the base revenue limit for each ROC/P for the 1996-97 fiscal year to reflect the actual amount received by each ROC/P in the 1995-96 fiscal year, including funding provided in the Budget Act of 1996, as specified, but excluding state funds made available as a result of local property tax revenues deducted from the revenue limits of ROC/Ps and funding provided pursuant to the \$10,000,000 available to increase revenue limits of ROC/Ps to the statewide average revenue limit for the 1995-96 fiscal year.

This bill would require the Superintendent of Public Instruction to allocate the \$10,000,000 available to increase revenue limits of ROC/Ps to the statewide average revenue limit for the 1995–96 fiscal year on a pro rata basis, as specified.

*The people of the State of California do enact as follows:*

SECTION 1. Section 52335.2 of the Education Code is amended to read:

52335.2. The Superintendent of Public Instruction shall calculate a revenue limit for each ROC/P in the following manner:

(a) Calculate a base revenue limit per unit of average attendance for the current fiscal year as follows:

(1) Divide the revenue limit for the prior year computed pursuant to this section by the annual units of average daily attendance funded in the prior year pursuant to subdivisions (c) and (d).

(2) Increase the amount computed in paragraph (1) by the percentage inflation adjustment specified in the Budget Act for the current fiscal year multiplied by the statewide average ROC/P revenue limit per unit of average daily attendance for the prior fiscal year.

(b) Calculate a revenue limit per unit of average daily attendance for program growth by increasing the revenue limit per unit of average daily attendance for program growth computed pursuant to this subdivision for the prior fiscal year by the percentage inflation adjustment specified in the Budget Act for the current fiscal year.

(c) Multiply the amount computed pursuant to subdivision (a) by the lesser of the ROC/P's annual units of average daily attendance for the current fiscal year or the ROC/P's annual units of funded average daily attendance for the prior fiscal year.

(d) Subtract the ROC/P's annual units of funded average daily attendance for the prior fiscal year from the ROC/P's annual units of average daily attendance for the current fiscal year and multiply the difference by the amount computed pursuant to subdivision (b). If the product computed pursuant to this subdivision is negative, it shall be deemed to be zero.

(e) Except as provided in Section 52335.3, the Superintendent of Public Instruction shall apportion to the ROC/P the sum of the amounts computed pursuant to subdivisions (c) and (d).

(f) The average daily attendance used for purposes of this section shall not include the average daily attendance in schools receiving funding pursuant to Section 52324.6.

(g) Any state funds made available as a result of local property tax revenues deducted pursuant to Section 52335.3 shall be allocated to each ROC/P in an equal amount per unit of funded average daily attendance and shall not be included in the calculation of the base

revenue limit made pursuant to subdivision (a) for the subsequent fiscal year.

SEC. 2. Section 52335.9 is added to the Education Code, to read:

52335.9. For the 1996–97 fiscal year only, the Superintendent of Public Instruction shall recalculate the base revenue limit for each ROC/P for the purposes of subdivision (a) of Section 52335.2 to reflect the actual amount received by each ROC/P in the 1995–96 fiscal year, including funding received pursuant to the Budget Act of 1996 for the cost-of-living adjustment for the 1996–97 fiscal year and for growth average daily attendance, but excluding the following:

(a) Any state funds made available as a result of local property tax revenues deducted pursuant to Section 52335.3.

(b) Funding allocated pursuant to Provision 7 of Item 6110-105-0001 of Section 2.00 of the Budget Act of 1996.

SEC. 3. Section 52335.10 is added to the Education Code, to read:

52335.10. From funds appropriated pursuant to Provision 7 of Item 6110-105-0001 of Section 2.00 of the Budget Act of 1996, the Superintendent of Public Instruction shall allocate funds to ROC/Ps on a pro rata basis as follows:

(a) Sixty percent of the funds shall be allocated to increase each ROC/P's revenue limit for the 1995–96 fiscal year to the statewide average ROC/P revenue limit for the 1995–96 fiscal year.

(b) Forty percent of the funds shall be allocated to increase the funded average daily attendance for each ROC/P in the 1995–96 fiscal year to the statewide average rate of participation. For the purpose of this subdivision, the statewide average rate of participation shall be calculated pursuant to Section 52335.6.
