

AMENDED IN SENATE APRIL 24, 1997

SENATE BILL

No. 1255

Introduced by Senator Polanco

February 28, 1997

An act to amend Section 657 of the Business and Professions Code, to add Section 1371.22 to the Health and Safety Code, and to add Section 10126.5 to the Insurance Code, relating to health care.

LEGISLATIVE COUNSEL'S DIGEST

SB 1255, as amended, Polanco. Health care: payment of claims.

Existing law provides for the licensure and regulation of the healing arts professions and in this regard, authorizes health care providers, as defined, to grant discounts in health or medical claims submitted to their party payors when payment by the third party payor is made promptly within prescribed time limits.

This bill would revise this provision to delete the reference to third party payors, and instead authorize providers to grant discounts in health or medical claims when payment is made promptly within prescribed time limits. *This bill would also expressly authorize a health care provider to grant discounts for health or medical care to any patient the provider has reasonable cause to believe is not eligible for, or entitled to, insurance reimbursement, or coverage under Medi-Cal or by a health care service plan for the health or medical care provided. The bill, would, in the case of a contract between a provider and a plan or a provider and an insurer that*

requires the provider to accept as payment from the plan or insurer the lowest payment rate charged by the provider to any patient, prohibit this contract provision from being deemed to apply to, or take into consideration, any cash payment made to the provider by individual patients who do not have any private or public form of health coverage for the services rendered by the provider.

Vote: majority. Appropriation: no. Fiscal committee: no. State-mandated local program: no.
