

Assembly Bill No. 88

CHAPTER 534

An act to add Section 1374.72 to the Health and Safety Code, and to add Section 10144.5 to the Insurance Code, relating to health care coverage.

[Approved by Governor September 27, 1999. Filed
with Secretary of State September 28, 1999.]

LEGISLATIVE COUNSEL'S DIGEST

AB 88, Thomson. Health care coverage: mental illness.

Under existing law, a disability insurer or health care service plan may not discriminate based on race, color, religion, national origin, ancestry, marital status, or sexual orientation. A disability insurer or health care service plan is also prohibited from refusing to insure a person or from charging a different premium or rate because of that person's blindness.

This bill would require a health care service plan contract or disability insurance policy issued, amended, or renewed on or after July 1, 2000, to provide coverage for the diagnosis and medically necessary treatment of severe mental illnesses, as defined, of a person of any age, and of serious emotional disturbances of a child, under the same terms and conditions applied to other medical conditions. This bill would allow a health care service plan or disability insurer to provide the required mental health coverage through a separate specialized health care service plan or mental health plan subject to certain conditions, as specified. The bill would exempt from the provision relating to a health care service plan contract, a contract between the State Department of Health Services and a health care service plan for enrolled Medi-Cal beneficiaries. The bill would exempt certain insurance policies from these provisions.

Because a willful violation of the provisions relating to health care service plans is a crime, this bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

The people of the State of California do enact as follows:

SECTION 1. (a) The Legislature finds and declares all of the following:

- (1) Mental illness is real.
- (2) Mental illness can be reliably diagnosed.
- (3) Mental illness is treatable.
- (4) Treatment of mental illness is cost-effective.

(b) The Legislature further finds and declares all of the following:

(1) There is increasing scientific evidence that severe mental illnesses, such as schizophrenia, bipolar disorders, and major depression, are as effectively treated with medications as other severe illnesses.

(2) Most private health insurance policies provide coverage for mental illness at levels far below coverage for other physical illnesses.

(3) Limitations in coverage for mental illness in private insurance policies have resulted in inadequate treatment for persons with these illnesses.

(4) Inadequate treatment causes relapse and untold suffering for individuals with mental illness and their families.

(c) The Legislature further finds and declares all of the following:

(1) Lack of adequate treatment and services for persons with mental illness has contributed significantly to homelessness, involvement with the criminal justice system, and other significant social problems experienced by individuals with mental illness and their families.

(2) The failure to provide adequate coverage for mental illnesses in private health insurance policies has resulted in significant increased expenditures for state and local governments.

(d) The Legislature further finds and declares that other states that have adopted mental illness parity legislation have experienced minimal additional costs if medically necessary services were well managed.

SEC. 2. Section 1374.72 is added to the Health and Safety Code, to read:

(3) Notwithstanding any other provision of law, in the provision of benefits required by this section, a health care service plan may utilize case management, network providers, utilization review techniques, prior authorization, copayments, or other cost sharing.
