ASSEMBLY BILL

No. 379

Introduced by Assembly Member Mullin

February 14, 2003

An act to amend Section 8208 of, and to add Article 8.5 (commencing with Section 8245) to Chapter 2 of Part 6 of, the Education Code, relating to child development.

LEGISLATIVE COUNSEL'S DIGEST

AB 379, as amended, Mullin. Family child care home education networks.

(1) Existing law requires the Superintendent of Public Instruction to administer general child care and development programs consisting of programs that offer a full range of services for children from infancy to 14 years of age, for any part of a day, by a public or private agency, in centers and family child care homes.

This bill would require the Superintendent of Public Instruction to contract with entities organized under law to operate family child care home education networks that support educational objectives for

children in licensed family child care homes that serve families eligible for subsidized child care. The bill would require the family child care home education network programs to provide specified services, including age and developmentally appropriate activities for children, parenting education, and parent involvement. The bill would provide that its provisions do not impose any new requirement on a family child care home education network ~~that entered into a contract with the State Department of Education on or before January 1, 2005~~, as specified.

(2) This bill would incorporate additional changes in Section 8208 of the Education Code, proposed by SB 1657, to be operative only if SB 1657 and this bill are both chaptered and become effective January 1, 2005, and this bill is chaptered last.

Vote: majority. Appropriation: no. Fiscal committee: yes. State-mandated local program: no.
