

AMENDED IN ASSEMBLY APRIL 30, 2007

AMENDED IN ASSEMBLY APRIL 17, 2007

CALIFORNIA LEGISLATURE—2007—08 REGULAR SESSION

**ASSEMBLY BILL**

**No. 1538**

---

---

**Introduced by Assembly Member Lieu**

February 23, 2007

---

---

An act to amend Section 50841 of the Health and Safety Code, relating to home loans.

LEGISLATIVE COUNSEL'S DIGEST

AB 1538, as amended, Lieu. Housing Trust Fund: home loan refinance assistance.

Existing law creates the California Housing Trust Fund for deposit of certain bond proceeds and other revenues, and provides that the money in the fund is to be used for housing programs, as specified.

This bill would allow the California Housing Finance Agency to accept donations into the California Housing Trust Fund from public or private sources for the purpose of assisting homeowners to refinance home loans with variable interest rates, under specified circumstances, into stable, fixed rate loan products.

Vote: majority. Appropriation: no. Fiscal committee: yes. State-mandated local program: no.

*The people of the State of California do enact as follows:*

- 1 SECTION 1. The Legislature finds and declares all of the
- 2 following:

1 (a) Home ownership is a vital piece of California's social and  
2 economic fabric and remains a top priority for California families  
3 and individuals.

4 (b) Home ownership has been shown to reduce crime, increase  
5 school retention and graduation, civic engagement, children's  
6 future earning potential and overall life satisfaction, and promote  
7 neighborhood stability.

8 (c) Home equity represents two-thirds of all low-income family  
9 wealth. The median wealth of nonelderly, low-income homeowners  
10 is 12 times greater than the median wealth of similar renters with  
11 the same income.

12 (d) In today's home loan market, lenders very rarely retain and  
13 service the loans they make to borrowers. More commonly, a  
14 borrower obtains a home loan from a lender known as an originator.  
15 The originator typically funds the loan with a line of credit from  
16 a Wall Street investment bank or a commercial bank. Once the  
17 loan funds, the originator sells the loan to a bank. The purchasing  
18 bank packages that loan with others into home loan-backed  
19 securities it sells to investors.

20 (e) According to the Center for Responsible Lending, as many  
21 as 2.2 million Americans with subprime loans have lost or will  
22 lose their homes because of home loans that they cannot afford.

23 (f) According to the Federal Reserve Board, the percentage of  
24 loans at least 30 days overdue rose to 2.11 percent during the fourth  
25 quarter of 2006, up from 1.72 percent during the prior quarter.

26 (g) According to a recent report by the Mortgage Bankers  
27 Association, the percentage of foreclosures initiated during the  
28 fourth quarter of 2006 was the highest the trade group has observed  
29 since it started measuring these in 1972. The association also  
30 observed that 4.5 percent of all subprime home loans nationwide  
31 were in the process of being foreclosed at the end of the fourth  
32 quarter, up from 3.3 percent a year earlier.

33 (h) Approximately 13.3 percent of all subprime borrowers were  
34 behind on their payments, the highest level since 2002.

35 (i) A study released in early March by UBS-AG shows that the  
36 default rate for Alt-A home loans has doubled in the past 14  
37 months, up to 2.4 percent of all Alt-A loans outstanding (though  
38 still low compared to the 10.5 percent delinquency rate reported  
39 by UBS-AG for subprime loans it examined).

1 (j) The UBS-AG study found that problems are greatest among  
2 Alt-A borrowers who took out interest-only ARMs, paid little, if  
3 any, money down on their loan, and fail to document their income  
4 or assets.

5 (k) On March 19, 2007, First American CoreLogic released a  
6 research report that predicted the volume of foreclosures likely to  
7 result from the subprime home loan shakeout. Looking at 26  
8 million home loans, including over eight million adjustable rate  
9 mortgages (ARMs) originated between 2004 and 2006, the analysis  
10 forecasts that 1.1 million loans originated between 2004 and 2006  
11 will be foreclosed over the next six to seven years, representing  
12 13 percent of the ARMs originated through purchase or refinance  
13 from 2004 through 2006.

14 (l) RealtyTrac, in a 2006 Foreclosure Market Report, revealed  
15 that this state was one of the top states in the country relative to  
16 foreclosures.

17 (m) According to the United States Joint Economic Committee,  
18 seven metropolitan areas in the top 50 foreclosure areas are in this  
19 state.

20 (n) On February 27, 2007, Freddie Mac announced that, as of  
21 September 1, 2007, it “would no longer purchase subprime  
22 mortgages that have a high likelihood of excessive payment shock  
23 and possible foreclosure.”

24 (o) Subprime home loans exploded in popularity during the  
25 housing boom earlier this decade. Critics of subprime loans,  
26 including regulators, contend that lenders relaxed standards and  
27 made loans to borrowers who could not afford to buy homes in  
28 the first place, especially in such expensive real estate markets as  
29 Boston.

30 (p) Foreclosures can devastate families whose primary asset is  
31 their home, leading to bankruptcies, poor credit ratings, and tax  
32 liability from acquired interest and balances that are forgiven debt  
33 and then counted as taxable income.

34 (q) Foreclosures can cost local governments because foreclosed  
35 property that remains vacant may become an economic and  
36 administrative drain for cities and counties.

37 (r) Foreclosures can negatively impact communities by creating  
38 a domino effect of foreclosures.

39 (s) Foreclosures diminish neighborhood financial security and  
40 sustainability as higher foreclosure rates ripple through local

1 markets and each house is tossed back into the market adding to  
2 the supply of homes for sale that could bring down overall home  
3 prices.

4 (t) A recent study found that a single family home foreclosure  
5 lowers the value of homes located within one-eighth of one mile  
6 by an average of 0.9 percent.

7 (u) The recent spike in foreclosures is a result of either one or  
8 a combination of the following factors, including, but not limited  
9 to, relaxed underwriting standards, predatory lending practices,  
10 financial illiteracy, and lack of regulatory oversight.

11 (v) Subprime lending is a valuable loan practice that, when done  
12 responsibly by both borrowers and lenders, can provide home  
13 buying choices and opportunities for borrowers with less than  
14 desirable credit profiles.

15 (w) Subprime lending can also allow borrowers to maximize  
16 their borrowing potential to save cash assets.

17 (x) Certain nontraditional loan products, such as option-ARMS,  
18 hybrid ARMS, interest only, and state income loans, have come  
19 under recent scrutiny due to potential payment shock resulting  
20 from payment adjustments.

21 (y) Many borrowers are unable to switch to another loan product  
22 due to excessive prepayment penalties or a lack of contact with  
23 the holders of secured home loans on the secondary market.

24 (z) Due to this growing crisis and its impact on the California  
25 economy, the Legislature finds it necessary to establish a program  
26 to assist first-time homebuyers, under certain conditions, with  
27 refinance assistance for the purpose of assisting these homeowners  
28 into traditional fixed rate home loan products, where applicable.

29 (aa) It is not the intent of the Legislature to bail out mortgage  
30 lenders or bond holders, nor assist housing market speculators and  
31 investors.

32 ~~(bb)~~

33 (ab) The Legislature finds that those lenders who make  
34 investments in the California Housing Trust Fund should received  
35 favorable credit under the Community Reinvestment Act.

36 (ac) *This act shall be known and may be cited as the Foreclosure*  
37 *Prevention Act.*

38 SEC. 2. Section 50841 of the Health and Safety Code is  
39 amended to read:

1 50841. (a) There is hereby created in the State Treasury the  
2 California Housing Trust Fund. Notwithstanding Section 13340  
3 of the Government Code, all money in the fund is continuously  
4 appropriated for the purposes of investment in a manner calculated  
5 to deliver the greatest rate of return consistent with the  
6 requirements of Section 16430 of the Government Code.

7 (b) (1) The California Housing Finance Agency may accept  
8 donations into the California Housing Trust Fund from public or  
9 private sources for the purpose of assisting *first-time* homeowners  
10 refinance home loans with variable interest rates, *prepayment*  
11 *penalties, balloon payments, or excessive fees*, under specified  
12 circumstances, into stable, fixed rate loan products. ~~In order to~~  
13 ~~carry out this paragraph, the agency~~

14 (2) *The California Housing Finance Agency* may offer to  
15 refinance home loans with variable interest rates for borrowers  
16 facing foreclosure if all of the following criteria are met:

17 (A) The holder of the loan agrees to waive all prepayment  
18 penalties, *fees, and other penalties*.

19 (B) The borrower's income complies with the current agency  
20 income limits for first-time homebuyers.

21 (C) The property securing the home loan debt is the sole  
22 residence of the borrower.

23 (D) *The borrower has participated in a housing counseling*  
24 *program approved by the Department of Housing and Urban*  
25 *Development within four weeks before the completion of a*  
26 *refinance under this section.*

27 ~~(2)~~

28 (3) The agency, in consultation with the Secretary of the  
29 Business Transportation and Housing Agency, may draft other  
30 regulations to carry out this paragraph.

31 (c) All interest or other increment resulting from investment or  
32 deposit of moneys in the fund shall be deposited in the fund,  
33 notwithstanding Section 16305.7 of the Government Code. Except  
34 as provided in Section 50842, no money in the fund shall be spent,  
35 loaned, transferred, or otherwise removed from the fund.
