Adopted in Assembly February 25, 2010

Chief Clerk of the Assembly

Adopted in Senate August 11, 2010

Secretary of the Senate

This resolution was received by the Secretary of State this
____ day of _____, 2010, at _____
o'clock ____M.

Deputy Secretary of State

RESOLUTION CHAPTER _____

Assembly Concurrent Resolution No. 117—Relative to Rare Disease Day.

LEGISLATIVE COUNSEL'S DIGEST

ACR 117, Hill. Rare Disease Day.

This measure would proclaim February 28, 2010, as Rare Disease Day.

WHEREAS, There are nearly 7,000 diseases and conditions considered rare (each affecting fewer than 200,000 Americans); and

WHEREAS, While each of these diseases may affect small numbers of people, rare diseases as a group affect almost 30 million Americans; and

WHEREAS, Many rare diseases are serious and debilitating conditions that have a significant impact on the lives of those affected; and

WHEREAS, While approximately 360 orphan drugs and biologics have been approved for the treatment of rare diseases affecting between 11 and 14 million people according to the United States Food and Drug Administration, that leaves well over 15 million Americans affected by rare diseases with no treatment specific to their disease; and

WHEREAS, Individuals and families affected by rare diseases often experience problems such as a sense of isolation, difficulty in obtaining an accurate and timely diagnosis, few treatment options, and problems related to accessing or being reimbursed for treatment; and

WHEREAS, Some rare diseases, such as Lou Gehrig's disease and Huntington's disease, are relatively well known, many others are not known at all by the public, making patients and their families bear a large share of the burden for fundraising and research; and

WHEREAS, Because nearly one in 10 Americans have a rare disease, Californians are among those affected by those diseases; and

WHEREAS, The National Organization for Rare Disorders (NORD) is organizing a nationwide observance of Rare Disease Day on February 28, 2010, on which patients, medical professionals, researchers, government officials, and companies developing treatments for rare diseases will join together to focus attention on rare diseases as a public health issue; now, therefore, be it

Resolved by the Assembly of the State of California, the Senate thereof concurring, That the Legislature proclaims February 28, 2010, as Rare Disease Day in California; and be it further

Resolved, That the Chief Clerk of the Assembly transmit copies of this resolution to the author for appropriate distribution.

Attest:

Secretary of State
