AMENDED IN ASSEMBLY MAY 11, 2009

CALIFORNIA LEGISLATURE—2009–10 REGULAR SESSION

ASSEMBLY BILL

No. 338

Introduced by Assembly Member Ma

February 18, 2009

An act to amend Sections 53395.1, 65460.1, 65460.2, and 65460.4 of, and to add Sections 53395.7.5 and 65460.2.5 to, the Government Code, relating to transit facilities.

LEGISLATIVE COUNSEL'S DIGEST

AB 338, as amended, Ma. Transit village developments: infrastructure financing.

Existing law authorizes a city or county to create a transit village plan for a transit village development district. A transit village plan is required to include all land within not less than $\frac{1}{4}$ mile of the exterior boundary of the parcel on which is located a transit station, as defined. A legislative body is authorized to create an infrastructure financing district, adopt an infrastructure financing plan, and issue bonds, for which only the district is liable, to finance specified public facilities, upon voter approval.

This bill would recast the area included in a transit village plan to include all land within not more than $\frac{1}{2}$ mile of the main entrance of a transit station. The requirement of voter approval for the formation of an infrastructure financing district, adoption of an infrastructure financing plan, and an issuance of bonds for the purpose of ~~developing and financing~~ *implementing* a transit facility, as defined, would be eliminated. A transit village plan financed by these bonds would be

required to include specified demonstrable public benefits regarding housing, replacement dwelling units at an affordable housing cost when specified dwelling units are destroyed or removed, and a provision that at least 20% of all revenues derived from the property tax increment be dedicated to increase, improve, and preserve the transit village district's supply of affordable housing, as defined. The bill also would make technical, nonsubstantive changes.

This bill would incorporate additional changes in Section 65460.2 of the Government Code proposed by AB 1158, that would become operative only if AB 1158 and this bill are both chaptered and become effective on or before January 1, 2010, and this bill is chaptered last.

(1) Federal, state, and local governments in California are investing in new and expanded transit systems in areas throughout the state, including Los Angeles County, the San Francisco Bay area, San Diego County, Santa Clara County, and Sacramento County.

(5) The development of transit villages can improve environmental conditions by increasing the use of public transit, facilitating the creation of and improvement to walkable, mixed-use communities, and decreasing automobile use.

(6) Transit villages throughout the state should be developed in environmentally conscious and sustainable manners, and related construction should meet or exceed the requirements of the most recent edition of the California Green Building Code Standards.

(7) Only a few transit stations in California have any concentration of housing proximate to the station.

(8) Interest in clustering housing and commercial development around transit stations, called transit villages, has gained momentum in recent years.

(1) "Bus hub" means an intersection of three or more bus routes, with a minimum route headway of 10 minutes during peak hours.

(2) "*Bus transfer station*" means an arrival, departure, or transfer point for the area's intercity, intraregional, or interregional bus service having permanent investment in multiple bus docking facilities, ticketing services, and passenger shelters.
