

AMENDED IN ASSEMBLY APRIL 15, 2009

CALIFORNIA LEGISLATURE—2009—10 REGULAR SESSION

ASSEMBLY BILL

No. 663

Introduced by Assembly Member Jones

(~~Coauthor: Assembly Member Coto~~ *Coauthors: Assembly Members Blumenfield, Coto, Mendoza, John A. Perez, and Portantino*)

(~~Coauthor: Senator Oropeza~~ *Coauthors: Senators DeSaulnier and Oropeza*)

February 25, 2009

An act to add Article 9.6 (commencing with Section 6159.5) to Chapter 4 of Division 3 of the Business and Professions Code, to add Section 367.6 to the Code of Civil Procedure, to add Sections 756 and 756.5 to the Evidence Code, and to amend, repeal, and add Section 68563 of the Government Code, relating to legal services.

LEGISLATIVE COUNSEL'S DIGEST

AB 663, as amended, Jones. Legal aid: court interpreters: appearances by telephone.

(1) Existing law, the State Bar Act, provides for the licensure and regulation of attorneys by the State Bar of California, a public corporation. Existing law provides that it is the duty of an attorney to, among other things, never reject, for any consideration personal to himself or herself, the cause of the defenseless or oppressed. Existing law provides that a lawyer may fulfill his or her ethical commitment to provide pro bono services, in part, by providing financial support to organizations providing free legal services to persons of limited means.

This bill would prohibit a person or organization that is not a specified type of legal aid organization, as defined, from using the term "legal aid," or any confusingly similar name in any firm name, trade name,

fictitious business name, or other designation, or on any advertisement, letterhead, business card, or sign. The bill would subject a person or organization that violates this prohibition to specified civil liability.

(2) Existing law provides that, in all general civil cases, as defined, a party who has provided notice may appear by telephone at certain conferences, hearings, and proceedings, except as specified.

This bill would require the Judicial Council, on or before July 1, 2010, and periodically as appropriate, to enter into one or more master agreements with a vendor or vendors to provide for telephone appearances in civil cases under the provisions described above, or as otherwise permitted by law. The bill would impose requirements regarding those master agreements, including that the vendor charge a party for an appearance by telephone in an amount set by the Judicial Council, and that the vendor pay to the state \$15 for each appearance by telephone and a proportionate share of an amount equal to the total revenue received from vendors by all courts for providing telephone appearances for the 2007–08 fiscal year. The bill would require those funds to be deposited in the Trial Court Trust Fund and used for specified purposes.

(3) Existing law requires that, when a witness is incapable of understanding the English language or is incapable of expressing himself or herself in the English language so as to be understood directly by counsel, court, and jury, an interpreter be sworn to interpret for him or her.

This bill would require the Judicial Council, by September 1, 2010, to establish a working group to review, identify, and develop best practices to provide interpreters in civil actions and proceedings, as specified. The bill would require the Judicial Council to select up to 5 courts to participate in a pilot project, to commence on July 1, 2011, to provide interpreters in civil proceedings. The bill would provide that the initial pilot courts shall participate until June 30, 2014, and would require the Judicial Council to consider whether a pilot court shall continue participating in the project and whether to select another court or additional courts. The pilot project would be funded from the revenue derived from the telephonic appearance fee described above.

(4) Existing law requires the Judicial Council to conduct a study of language and interpreter use and need in court proceedings, with commentary, and to report its findings and recommendations to the Governor and to the Legislature every 5 years. Existing law requires that this study serve as the basis for determining the need to establish

interpreter programs and certification and establishing these programs and examinations through the normal budgetary process.

This bill would require, in addition, as of January 1, 2011, that the study described above serve as the basis of determining the need for and use of interpreters in civil and criminal court proceedings. The bill would require trial courts to collect and report the use of interpreters in all criminal and civil proceedings in the manner specified by the Judicial Council.

Vote: majority. Appropriation: no. Fiscal committee: yes.
State-mandated local program: no.

The people of the State of California do enact as follows:

1 SECTION 1. The Legislature hereby finds and declares all of
2 the following:
3 (a) California is emblematic of the American dream, a place of
4 stunning natural beauty, a seat of international commerce, and a
5 land of unparalleled opportunity. As a result, California is the most
6 populous and demographically diverse state in the nation, a meeting
7 place of cultures, ethnicities, and ideas unlike any other in the
8 world. Of the state's 34 million people, about 26 percent (roughly
9 8.8 million people) are foreign born. Californians speak more than
10 220 languages, and 40 percent of the state's population speaks a
11 language other than English in the home. This extraordinary
12 diversity is among the state's greatest assets and has helped make
13 California an international leader in business, the arts,
14 entertainment, engineering, medicine, and other fields. The state's
15 diversity also poses unique challenges for the delivery of
16 government services, particularly for the courts.
17 (b) For Californians not proficient in English, the prospect of
18 navigating the legal system is daunting, especially for the growing
19 number of parties who do not have access to legal services and
20 therefore have no choice but to represent themselves in court,
21 which is a virtually impossible task for people who are unable to
22 understand the proceedings. Nearly seven million Californians
23 cannot access the courts without significant language assistance,
24 cannot understand pleadings, forms, or other legal documents,
25 cannot communicate with clerks or court staff, and cannot
26 understand or participate meaningfully in court proceedings, much
27 less effectively present their cases without a qualified interpreter.

1 People with limited English proficiency are also often members
2 of groups whose cultural traits or economic circumstances make
3 them more likely to be subjected to legal problems, in part because
4 perpetrators recognize their victims' limited ability to access
5 judicial protection. It is essential to provide English learners and
6 other non-English-speaking litigants with interpreters in order to
7 provide full and equal access to our justice system without regard
8 to language.

9 (c) The Legislature has previously recognized that the number
10 of persons with limited English proficiency in California is
11 increasing and recognized the need to provide equal justice under
12 the law to all California residents and *the need* to provide for their
13 special needs in their relations with the judicial and administrative
14 law-system systems. The Legislature has likewise recognized that
15 the effective maintenance of a democratic society depends on the
16 right and ability of its residents to communicate with their
17 government and the right and ability of the government to
18 communicate with them.

19 (d) Inadequate resources to assist litigants with limited English
20 proficiency affect the court's ability to function properly, causing
21 delays in proceedings for all court users, inappropriate defaults,
22 and faulty interpretation that can ultimately subvert justice. Court
23 interpreter services are a core court function. Our judicial system
24 relies on the adversarial process in which neutral arbiters decide
25 disputes based upon competing presentations of facts and law.
26 Conducting court proceedings when one party is incapable of fully
27 participating significantly impairs the quality and efficiency of the
28 process and its results, including compliance with court orders.
29 The courts have made significant efforts to assist litigants with
30 limited English proficiency, including steps to increase the number
31 of certified and registered interpreters and to provide interpreters
32 in civil cases, if resources are available. Nevertheless, court
33 proceedings are required to be conducted in English, and most
34 crucial court forms and documents are available only in English,
35 while the number of skilled interpreters has actually declined over
36 the past decade and the number of persons requiring interpreter
37 services has increased. As a result, a qualified interpreter is not
38 provided in most civil proceedings.

39 (e) The inability to respond to the language needs of parties in
40 court impairs trust and confidence in the judicial system and

1 undermines efforts to secure justice for all. The authority of the
2 courts depends on public perceptions of fairness and accessibility.
3 Any significant erosion of public trust and confidence in the
4 fairness of judicial outcomes threatens the future legitimacy of the
5 legal system. By excluding a large segment of the population from
6 participation in an institution that shapes and reflects our values,
7 we threaten the integrity of the judicial process. Resentment
8 fostered by the inability to access the benefits of the court system
9 can ultimately impair enforcement of judicial decrees and attenuate
10 the rule of law.

11 (f) Reliance on untrained interpreters, such as family members
12 or children, can lead to faulty translations and threaten the court's
13 ability to ensure justice. Court interpretation is extremely difficult
14 and takes a rare combination of skills, experience, and training.
15 Apart from the possibility of fraud, unqualified interpreters often
16 fail to accurately and comprehensively convey questions and distort
17 testimony by omitting or adding information, or by stylistically
18 altering the tone and intent of the speaker, thereby preventing
19 courts from hearing the testimony properly. These problems
20 compromise the factfinding process and can result in genuine
21 injustice.

22 (g) An overwhelming number of Californians believe that
23 interpreters should be made available to assist non-English speakers
24 in all court proceedings, and that interpreters should be provided
25 free of charge to low-income non-English speakers.

26 (h) California law currently mandates appointment of an
27 interpreter for all witnesses in civil cases, and for parties with
28 hearing impairments. In addition, California statutes mandate the
29 appointment of an interpreter in adjudicative proceedings before
30 state agencies, boards, and commissions at no charge to the parties
31 whenever a party or the party's witness does not proficiently speak
32 or understand English. Other states, by contrast, provide both
33 witnesses and parties with a right to a court-appointed interpreter
34 in all civil matters at no cost to the party.

35 SEC. 2. The Legislature finds and declares that there continues
36 to be a shortage in the availability of certified and registered
37 interpreters in the state courts that impacts the state's ability to
38 provide meaningful access to justice for all court users. It is the
39 intent of the Legislature that every effort be made to recruit and
40 retain qualified interpreters to work in the state courts, and that

1 the Judicial Council make further efforts to improve and expand
2 court interpreter services and address the shortage of qualified
3 court interpreters.

4 SEC. 3. Article 9.6 (commencing with Section 6159.5) is added
5 to Chapter 4 of Division 3 of the Business and Professions Code,
6 to read:

7
8 Article 9.6. Legal Aid Organizations
9

10 6159.5. The Legislature hereby finds and declares all of the
11 following:

12 (a) Legal aid programs provide a valuable service to the public
13 by providing free legal services to the poor.

14 (b) Private, for-profit organizations that have no lawyers have
15 been using the name “legal aid” in order to obtain business from
16 people who believe they are obtaining services from a nonprofit
17 legal aid organization.

18 (c) Public opinion research has shown that the term “legal aid”
19 is commonly understood by the public to mean free legal assistance
20 for the poor.

21 (d) Members of the public seeking free legal assistance are often
22 referred by telephone and other directory assistance information
23 providers to for-profit organizations that charge a fee for their
24 services, and there are a large number of listings in many telephone
25 directories for “legal aid” that are not nonprofit but are actually
26 for-profit organizations.

27 (e) The Los Angeles Superior Court has held that there is a
28 common law trademark on the name “legal aid,” which means
29 legal services for the poor provided by a nonprofit organization.

30 (f) The public will be benefited if for-profit organizations are
31 prohibited from using the term “legal aid,” in order to avoid
32 confusion.

33 6159.51. For purposes of this article, “legal aid organization”
34 means a nonprofit organization that provides civil legal services
35 for the poor without charge.

36 6159.52. It is unlawful for any person or organization to use
37 the term “legal aid,” “legal aide,” or any confusingly similar name
38 in any firm name, trade name, fictitious business name, or any
39 other designation, or on any advertisement, letterhead, business
40 card, or sign, unless the person or organization is a legal aid

1 organization subject to fair use principles for nominative,
2 descriptive, or noncommercial use.

3 6159.53. (a) Any consumer injured by a violation of Section
4 6159.52 may file a complaint and seek injunctive relief, restitution,
5 and damages in the superior court of any county in which the
6 defendant maintains an office, advertises, or is listed in a telephone
7 directory.

8 (b) A person who violates Section 6159.52 shall be subject to
9 an injunction against further violation of Section 6159.52 by any
10 legal aid organization that maintains an office in any county in
11 which the defendant maintains an office, advertises, or is listed in
12 a telephone directory. In an action under this subdivision, it is not
13 necessary to allege or prove actual damage to the plaintiff, and
14 irreparable harm and interim harm to the plaintiff shall be
15 presumed.

16 (c) Reasonable attorney's fees shall be awarded to the prevailing
17 plaintiff in any action under this section.

18 SEC. 4. Section 367.6 is added to the Code of Civil Procedure,
19 to read:

20 367.6. (a) On or before July 1, 2010, and periodically as
21 appropriate, the Judicial Council shall enter into one or more master
22 agreements with a vendor or vendors to provide for telephone
23 appearances in civil cases under Section 367.5, or as otherwise
24 permitted by law.

25 (b) Each master agreement shall include the following terms:

26 (1) The vendor shall charge a party for an appearance an amount
27 set by the Judicial Council, which shall comply with the provisions
28 of subdivision (c). The vendor shall report to the Judicial Council
29 information regarding the number of liens asserted by the vendor
30 for waived charges pursuant to subdivision (c), and the total amount
31 so collected.

32 (2) The vendor shall indemnify and hold the court harmless
33 from claims arising from a failure or interruption of service.

34 (3) Except as provided by paragraph (2) of subdivision (c), for
35 each appearance a party makes by telephone, the vendor shall pay
36 to the state fifteen dollars (\$15), which shall be transmitted
37 quarterly to be deposited in the Trial Court Trust Fund and used
38 by the Judicial Council for the expenses of the Judicial Council in
39 implementing and administering the civil interpreter pilot program
40 under Sections 756 and 756.5 of the Evidence Code and for

1 reimbursement to those courts providing civil interpreters pursuant
2 to those sections.

3 (4) In addition to the amount provided by paragraph (3), all
4 vendors shall pay to the state, on a quarterly basis, an amount equal
5 to one-quarter of the total amount of revenue received from all
6 vendors by all courts for providing telephone appearances for the
7 2007–08 fiscal year. Each vendor shall pay a proportionate share
8 of this total amount. The Judicial Council shall notify each vendor,
9 on a quarterly basis, of its share of this amount, which shall be
10 based on that vendor's percentage of the total number of
11 appearances by telephone during the previous quarter. Following
12 receipt of the notice, each vendor shall transmit its share of the
13 amount to the state for deposit in the Trial Court Trust Fund to
14 provide funding for the prevention of significant disruption in
15 services in courts where those services were previously funded by
16 revenue received from providing telephone appearances.

17 (5) The master agreement shall include other terms as the
18 Judicial Council deems appropriate. These terms may include, but
19 are not limited to, a provision providing the circumstances in which
20 the charge shall be made for a telephone appearance canceled by
21 the party.

22 (c) The amount the vendor shall charge a party for an appearance
23 shall be uniform statewide.

24 (1) The Judicial Council shall establish the amount to be charged
25 a party for an appearance.

26 (2) If the party has received a waiver of fees because he or she
27 is proceeding in forma pauperis under Section 68511.3 of the
28 Government Code, the vendor shall not charge that party for an
29 appearance and shall not pay fifteen dollars (\$15) as otherwise
30 required by paragraph (3) of subdivision (b). The vendor shall be
31 granted a lien in the amount of the waived charge on any judgment
32 that the party may receive. Notice of the lien shall be given to the
33 parties under rules and on forms adopted by the Judicial Council.
34 If the vendor later receives the amount previously waived, for each
35 appearance for which the vendor receives payment, the vendor
36 shall transmit fifteen dollars (\$15) to the state for deposit as
37 provided in paragraph (3) of subdivision (b). If the charge has been
38 waived in part, or the amount recovered by the vendor is not the
39 full amount, the amount transmitted to the state shall be reduced
40 proportionally.

1 (3) The Judicial Council may establish an additional amount to
2 be charged, which shall also be uniform statewide, when a party
3 requests service from a vendor within a short period of time prior
4 to the hearing, as determined by the Judicial Council.

5 (d) If a court elects to make telephone appearances available
6 through one or more vendors, the court shall enter into one or more
7 participation agreements under one or more of the master
8 agreements entered into by the Judicial Council.

9 (e) If a court elects to provide telephone appearance services to
10 parties directly, either in addition to or in lieu of a participation
11 agreement, the court shall charge a party no more than the same
12 amount that a vendor may charge under the master agreements
13 provided for in subdivision (a), subject to the same conditions,
14 waivers, and transmission of amounts to the state as apply to a
15 vendor.

16 (f) Notwithstanding any other provision in this section, a judicial
17 officer is authorized to allow the appearance by telephone of parties
18 in that judicial officer's courtroom without the requirement of
19 using a vendor or paying any amount for the appearance by
20 telephone.

21 SEC. 5. Section 756 is added to the Evidence Code, to read:

22 756. (a) (1) On or before September 1, 2010, the Judicial
23 Council shall establish a working group to review, identify, and
24 develop best practices to provide interpreters in civil actions and
25 proceedings. The best practices developed by the working group
26 shall be used in carrying out the pilot project described in Section
27 756.5.

28 (2) In developing the best practices, the working group shall
29 consider ways to maximize the use of existing resources,
30 calendaring issues, the effective use of technology, and other
31 practices that will assist courts effectively deploying interpreters
32 in civil proceedings.

33 (3) Best practices shall include training guidelines to be utilized
34 by courts participating in the pilot project described in Section
35 756.5 to ensure that court interpreters receive training necessary
36 to comply with the requirements of Section 756.5. Training
37 activities may include, but are not limited to, video broadcasts,
38 Internet-based training, and dissemination of written materials.

39 (b) The working group shall include court executive officers,
40 presiding judges, interpreter coordinators, interpreters, at least two

1 of whom shall be nominated by an exclusive representative of
2 interpreter employees, representatives of legal services
3 organizations and organizations representing individuals with
4 limited English proficiency, and others the Judicial Council
5 determines necessary. The working group shall also include a
6 representative from a rural community in order to highlight the
7 particular challenges of providing court interpreter services in rural
8 communities.

9 SEC. 6. Section 756.5 is added to the Evidence Code, to read:

10 756.5. (a) (1) The Judicial Council shall select up to five courts
11 to participate in a pilot project, which shall commence on July 1,
12 2011, to provide interpreters in civil proceedings as specified in
13 this section. The pilot courts shall be selected from among those
14 participating in the working group described in Section 756.

15 (2) The initial pilot courts shall participate in the pilot project
16 until June 30, 2014. The Judicial Council, in consultation with *the*
17 pilot courts, shall consider whether a pilot court shall continue
18 participating in the project and whether to select another court or
19 additional courts to join the project. Courts selected to join the
20 project shall participate for three years or another duration
21 determined by the Judicial Council, in consultation with the pilot
22 courts. In the selection of the pilot courts, the Judicial Council
23 shall assess the court's capacity for success.

24 (b) The pilot project shall be conducted for the purpose of
25 creating models for effectively providing interpreters in civil
26 matters, implementing best practices, and ascertaining the need
27 for additional interpreter resources and funding to provide
28 interpreters in civil matters on a statewide basis. The pilot project
29 shall be funded from the revenue derived from the telephonic
30 appearance fee pursuant to Section 367.6 of the Code of Civil
31 Procedure.

32 (c) Interpreters shall be provided by the pilot courts as follows:

33 (1) The pilot courts shall provide interpreters to any party
34 proceeding in forma pauperis, pursuant to Section 68511.3 of the
35 Government Code, who is present and who does not proficiently
36 speak or understand the English language for the purpose of
37 interpreting the proceedings in a language that the party
38 understands and assisting communications between the party, his
39 or her attorney, and the court in the following types of actions and
40 proceedings:

1 (A) Actions and proceedings under Section 527.6 of the Code
2 of Civil Procedure.

3 (B) Actions and proceedings brought under the Family Code.

4 (C) Actions and proceedings relating to unlawful detainer.

5 (D) Actions and proceedings involving the appointment or
6 termination of a probate guardian or conservator.

7 (E) Actions or proceedings under the Elder Abuse and
8 Dependent Adult Civil Protection Act (Chapter 11 (commencing
9 with Section 15600) of Part 3 of Division 9 of the Welfare and
10 Institutions Code).

11 (2) The pilot courts shall provide interpreters in other civil
12 actions or proceedings or in matters in which the party is not
13 appearing in forma pauperis if there is sufficient funding and
14 interpreter resources available to meet all the interpretation needs
15 in *the* actions and proceedings described in paragraph (1).

16 (3) The fees of interpreters utilized under this section shall be
17 paid for any party proceeding in forma pauperis pursuant to Section
18 68511.3 of the Government Code.

19 (4) The pilot courts shall develop a methodology for deploying
20 available interpreter resources if funds provided pursuant to
21 subdivision (b) are insufficient to meet the needs for court
22 interpreters in all of the actions and proceedings set forth in
23 paragraph (1), or if, after diligent search, a sufficient number of
24 interpreters is not available. The pilot courts shall not consider the
25 order in which the case types are listed in paragraph (1) in
26 developing this methodology. For purposes of developing this
27 methodology, the pilot courts shall consider the most effective
28 way to deploy limited resources. A pilot court shall not be obligated
29 to provide services in the areas set forth in paragraph (1) beyond
30 the services that can be provided with the funding provided by the
31 telephonic appearance fee pursuant to Section 367.6 of the Code
32 of Civil Procedure.

33 (5) The interpreter shall be certified or registered pursuant to
34 Article 4 (commencing with Section 68560) of Chapter 2 of Title
35 8 of the Government Code. Subdivisions (c) and (d) of Section
36 755 of the Evidence Code shall apply to proceedings described in
37 this section.

38 (d) This section shall not be construed to negate or limit any
39 right to an interpreter in a civil action or proceeding otherwise
40 provided by state or federal law.

1 (e) This section shall not be construed to alter the right of an
2 individual to an interpreter in criminal, traffic or other infraction,
3 juvenile, or mental competency actions or proceedings.

4 (f) This section shall not result in a reduction in staffing or
5 compromise the quality of interpreting services in criminal,
6 juvenile, or other types of matters in which interpreters are
7 provided.

8 (g) (1) On or before September 1, 2013, the Judicial Council
9 shall report to the Legislature its findings and recommendations
10 based on the experiences of the model pilot program. The report
11 shall include findings and recommendations regarding the need
12 for additional interpreters and funding, or other resources, to
13 provide interpreters in both of the following:

14 (A) Case types that were the subject of the pilot.

15 (B) All civil actions and proceedings.

16 (2) The report shall also describe, to the extent possible, the
17 impact of the availability of interpreters on access to justice and
18 on court administration and efficiency.

19 (3) The report shall also describe the factors affecting selection
20 of pilot courts, such as the court's capacity for success, innovation,
21 and efficiency, including, but not limited to, strategies for
22 collaborating with organizations representing stakeholders, utilizing
23 local resources, and methods for addressing the availability of
24 qualified interpreters.

25 (h) Nothing in this chapter shall limit or restrict courts from
26 providing interpreters in civil proceedings when those services are
27 already being provided or in matters in which the judicial officer
28 deems it necessary to appoint an interpreter.

29 (i) Nothing in this chapter shall alter or negate the application
30 of the Trial Court Interpreter Employment and Labor Relations
31 Act (Chapter 7.5 (commencing with Section 71800) of Title 8 of
32 the Government Code) to the provision of interpreters pursuant to
33 this section.

34 SEC. 7. Section 68563 of the Government Code is amended
35 to read:

36 68563. (a) The Judicial Council shall conduct a study of
37 language and interpreter use and need in court proceedings, with
38 commentary, and shall report its findings and recommendations
39 to the Governor and to the Legislature not later than July 1, 1995,
40 and every five years thereafter. The study shall serve as a basis for

1 (1) determining the need to establish interpreter programs and
2 certification examinations, and (2) establishing these programs
3 and examinations through the normal budgetary process. The study
4 shall also serve as a basis for (1) determining ways in which the
5 Judicial Council can make available to the public, through public
6 service announcements and otherwise, information relating to
7 opportunities, requirements, testing, application procedures, and
8 employment opportunities for interpreters, and (2) establishing
9 and evaluating these programs through the normal budgetary
10 process.

11 (b) This section shall remain in effect only until January 1, 2011,
12 and as of that date is repealed, unless a later enacted statute, that
13 is enacted before January 1, 2011, deletes or extends that date.

14 SEC. 8. Section 68563 is added to the Government Code, to
15 read:

16 68563. (a) The Judicial Council shall conduct a study of
17 language and interpreter use and need in court proceedings, with
18 commentary, and shall report its findings and recommendations
19 to the Governor and to the Legislature not later than July 1, 2016,
20 and every five years thereafter.

21 (b) (1) The study shall serve as a basis for all of the following:

22 (A) Determining the need to establish interpreter programs and
23 certification examinations.

24 (B) Establishing these programs and examinations through the
25 normal budgetary process.

26 (C) Demonstrating the need for and use of interpreters in civil
27 and criminal court proceedings, and the extent to which that need
28 is being met.

29 (2) To assist with the completion of the study, trial courts shall
30 collect and report the use of interpreters in all criminal and civil
31 proceedings in the manner specified by the Judicial Council,
32 including, but not limited to, the following data:

33 (A) The extent of the need for, and the languages for which
34 parties need, an interpreter, by type of action or proceeding, and
35 whether the party is appearing in propria persona or in forma
36 pauperis.

37 (B) The languages for which an interpreter is provided, by type
38 of action or proceeding, and whether the party is appearing in
39 propria persona or in forma pauperis.

- 1 (C) The extent to which the interpreters provided are court
- 2 employees or independent contractors.
- 3 (D) The extent to which interpreters are appointed pursuant to
- 4 subdivision (c) of Section 68561.
- 5 (E) The extent to which interpreters are provided pursuant to
- 6 subdivision (d) of Section 68561.
- 7 (c) The study shall also serve as a basis for both of the following:
- 8 (1) Determining ways in which the Judicial Council can make
- 9 available to the public, through public service announcements and
- 10 otherwise, information relating to opportunities, requirements,
- 11 testing, application procedures, and employment opportunities for
- 12 interpreters.
- 13 (2) Establishing and evaluating these programs through the
- 14 normal budgetary process.
- 15 (d) This section shall become operative on January 1, 2011.
