

ASSEMBLY BILL

No. 1102

Introduced by Assembly Member Duvall

February 27, 2009

An act to amend Section 13160 of the Water Code, relating to water quality.

LEGISLATIVE COUNSEL'S DIGEST

AB 1102, as introduced, Duvall. State Water Resources Control Board: water quality certifications.

The Porter-Cologne Water Quality Control Act designates the State Water Resources Control Board as the state water pollution control agency for the purposes of the federal Clean Water Act and other federal acts. The act authorizes the state board to give any certificate or statement required by a federal agency pursuant to a federal act that there is reasonable assurance that an activity of any person subject to the jurisdiction of the state board will not reduce water quality below applicable standards.

This bill would make technical, nonsubstantive changes to that provision.

Vote: majority. Appropriation: no. Fiscal committee: no.
State-mandated local program: no.
