LEGISLATIVE COUNSEL'S DIGEST

SB 113, as amended, Committee on Local Government. Local Government Omnibus Act of 2009.

(1) Existing law establishes a system of county law libraries and regulates their operation and governance, including, among other things, the amount a county law library is authorized to maintain in its revolving fund.

This bill would make various revisions to the provisions governing county law libraries.

(2) Existing law requires the Administrative Office of the Courts to make monthly distributions from superior court filing fees to the law library fund in each county in specified amounts.

This bill would increase the amount of the superior court filing fees for distribution to law libraries in specified counties.

(3) Existing law authorizes the formation of a school facilities improvement district in a county, if the board of supervisors adopts a resolution authorizing the establishment of the district.

This bill would specify that the resolution of the board of supervisors may authorize a school facilities improvement district to be operative in the county generally, or to one or more school districts or community college districts within the county.

(4) Under existing law, 12 counties are authorized to convert the public administrator's office from an elected to an appointed position by ordinance and without voter approval, 7 counties are authorized to appoint the same person as the public administrator and the public guardian, and 8 counties are authorized to separate the consolidated office of district attorney and public administrator.

This bill would also authorize Amador County to utilize these provisions.

(5) Existing law authorizes the boards of supervisors of certain counties to enter into contracts with private enterprise to provide services that require special experience, education, and training that the county possesses, as specified.

This bill would extend that authorization to the Board of Supervisors of Sonoma County.

(6) Existing law authorizes the board of supervisors of counties to authorize the purchasing agent to engage independent contractors to perform services for the county or county officers, when the aggregate cost does not exceed \$50,000 for counties with a population of less than 200,000 and \$100,000 for counties with a population of 200,000 or more, as specified.

This bill would authorize the purchasing agent to engage independent contractors to perform services for the county or county officer, when the annual aggregate cost does not exceed \$50,000 for counties with a population of less than 200,000 and \$100,000 for counties with a population of 200,000 or more.

(7) Existing law specifies the procedures a county must follow when adopting an annual budget.

This bill would implement the County Budget Act, which would clarify the definition of the terms administrative officer, auditor, board, and controller, and would define the terms adopted budget, budget year, final budget, and recommended budget, and would make conforming changes throughout. The bill would also repeal obsolete provisions and make other conforming changes.

(8) Existing law requires the board of supervisors of each county to establish a property tax reduction fund to receive all new revenues from sources other than property tax to reduce the property tax rate, as specified.

This bill would repeal these provisions.

This bill would instead require the Controller to ~~proscribe~~ *prescribe* and publish uniform accounting procedures for counties that conform to the Generally Accepted Accounting Principles.

(11) Existing law specifies the procedures for setting the compensation of city council members and establishes a compensation schedule based on city population.

This bill would raise the maximum compensation of city council members established in the compensation schedule and authorize city councils to raise the salary of council members under specified circumstances.

(12) Existing law authorizes a local agency to invest a portion of its surplus funds in certificates of deposit at a commercial bank, savings bank, savings and loan association, or credit union that uses a private sector entity that assists in the placement of certificates of deposit, as specified.

This bill would correct an incorrect cross reference in these provisions.

(13) Existing law requires each city, county, or city and county investor of public funds to provide a statement of investment policy to the California Debt and Investment Advisory Commission, as specified.

This bill would repeal this requirement.

(14) Existing law authorizes the board of directors of a community services district, by resolution, to change the name of the community services district, as specified, and requires the board to file a copy of its resolution with the Secretary of State, the county clerk, the board of supervisors, and the local agency formation commission.

This bill would also require the board of directors to file the resolution with the State Board of Equalization and the county auditor.

(15) Existing law authorizes a city to form any portion of the city into a special municipal tax district for the purpose of levying upon the taxable property in the district a special tax not to exceed \$1 a year on each \$100 of assessed valuation, as specified.

This bill would repeal this authorization.

(16) The Subdivision Map Act establishes standards and procedures for subdivision of land in the state by prohibiting the selling, leasing, or financing of any parcel of real property without compliance with the map review, approval, and recordation requirements of the act.

The act exempts from its provisions, among other things, a lot line adjustment between 4 or fewer existing adjoining parcels, where the land taken from one parcel is added to an adjoining parcel, and where a greater number of parcels than originally existed is not thereby created, if the lot line adjustment is approved by the local agency or advisory agency.

This bill would require a local agency or advisory agency to act to approve or disapprove a lot line adjustment pursuant to the Permit Streamlining Act.

The bill would also exempt the leasing of, or the granting of an easement to, a parcel of land or any portion or portions of the land in conjunction with a biogas project, as specified.

(17) The Subdivision Map Act requires that final maps and parcel maps be prepared by or under the direction of a registered civil engineer or licensed land surveyor and conform to all specified provisions, including that the exterior boundary of the land included within the subdivision be indicated by distinctive symbols and clearly so designated.

This bill would require that the exterior boundary of the land included within the subdivision not include a parcel that has been designated as a remainder of the subdivision or has been omitted from the subdivision and would require the designated remainder or omitted parcel to be labeled as a designated remainder parcel or omitted parcel.

(18) The Subdivision Map Act requires that dedications of, or offers to dedicate interests in, real property for specified public purposes be made by a statement on the final map, signed and acknowledged by those parties having any record title interest in the real property being subdivided.

This bill would require, if a subdivider is required under the act or any other provision of law to make a dedication for specified public purposes on a final map, that the local agency specify whether the dedication is to be in fee for public purposes or an easement for public purposes. The bill would require the subdivider to include certain language in the dedication clause on the final map or any separate instrument.

(19) Existing law authorizes a county board of supervisors to levy a special sanitary tax to prevent the introduction of, and to eradicate dangerous, infectious, or communicable diseases, and for general sanitation purposes, as specified.

This bill would revise these provisions to conform with Article XIII A of the Constitution.

(20) Existing law authorizes a county board of supervisors to levy a special tax to provide and maintain a home for veteran soldiers, sailors, and marines who have served the United States honorably in any of its wars, as specified.

This bill would revise these provisions to conform with Article XIII A of the Constitution.

(21) Existing law authorizes a county board of supervisors to levy a special tax to provide, maintain, or provide and maintain buildings, memorial halls, meeting places, memorial parks, or recreation centers for the use or benefit of one or more veterans' associations, as specified.

This bill would revise these provisions to conform with Article XIII A of the Constitution.

(22) Existing law defines various terms, for purposes of the Public Cemetery District Law.

This bill would define "interment right," for purposes of that act, to mean the right to use or control the use of a plot, niche, or other space for the interment of human remains.

(23) Existing law authorizes the governing board of a public cemetery district to establish a revolving fund, in an amount not to exceed 110% of $\frac{1}{12}$ of the district's adopted budget for the fiscal year.

This bill would instead authorize a public cemetery district to establish a revolving fund, not to exceed either \$1,000, if the purpose of the revolving fund is to make change and pay small bills directly, or 110% of $\frac{1}{12}$ of the district's budget for the current fiscal year if the purpose of the revolving fund is to pay any authorized expenditures of the district.

(24) The Public Cemetery District Law authorizes a public cemetery district to accept any grants, goods, money, property, revenue, or services from any federal, state, regional, or local agency or from any person for any lawful purpose of the district. Existing law also authorizes a public cemetery district to borrow money and incur indebtedness, as specified.

This bill would require the district to pay all money received or collected into a separate fund in the county treasury on or before the

10th day of the month following the month in which the district received or collected the money.

(25) Existing law requires the governing board of each air pollution control district to include one or more members who are mayors, city council members, or both, to be selected by the city selection committee or by the city in districts where the county and cities have agreed that each city shall be represented on the governing board, and one or more members who are county supervisors, to be selected by the county, as specified.

This bill would authorize the city selection committee or the city to also select a mayor or another city council member as an alternate to serve and vote in place of a member who is absent or disqualified from participating, as specified.

(26) Existing law authorizes a county recorder, in the last county of permanent residence of one or both parents of a child, to record a certificate of birth or of birth data issued by an agency of the government of the United States to authenticate a birth of a child to a United States citizen outside of the United States, as specified, and to record a certificate of death or death data issued by an agency of the government of the United States to authenticate the death of a United States citizen outside the United States, as specified.

This bill would repeal that provision and instead require a county recorder to issue a certified copy of a foreign birth or death recorded in the office of the county recorder only as an official record of the county recorder, and not as a certified copy of a vital record, as specified. This bill would prohibit a certificate of birth or death outside of the United States from being recorded by the recorder, except as specified.

(27) Existing law requires the governing bodies of county waterworks districts to use public bidding procedures for waterworks service contracts.

This bill would clarify that county waterworks districts are required to follow public bidding procedures when awarding contracts for public works, but are allowed to let service contracts in the same manner as counties and other public agencies.

(28) Under the Alquist-Priolo Earthquake Fault Zoning Act, prior to approving a project within an earthquake fault zone, a city or county is directed to require the preparation of a geologic report, subject to certain exceptions.

This bill would specifically exempt from this requirement projects relating to structures owned and operated by the state entities and

agencies listed on the California Register of Historical Resources or the National Register of Historic Places, including the California Memorial Stadium, if the state agency or entity submits a plan of proposed alterations to the State Geologist.

(29) Existing law requires a municipal utility district's general manager to publish its annual financial report in a general circulation newspaper.

This bill would authorize a municipal utility district to instead publish a summary of its annual financial report.

(30) The Resort Improvement District Law authorizes a district board to provide each director compensation of not more than \$25 and reimbursement for travel expenses actually incurred by the director not to exceed \$0.15 per mile for each meeting of the board, not to exceed two meetings in any calendar month.

This bill would instead authorize compensation of not more than \$25 for each meeting of the board, not to exceed two meetings in any calendar month, plus reimbursement for actual and necessary expenses incurred in the performance of duties pertaining to the board. The bill would also require any compensation provided to comply with the guidelines for providing compensation of legislative body members for attendance at specified meetings, and would require ethics training.

(31) Existing law requires a city to enter into a property tax exchange agreement with the county in which it is located before it may annex territory. Until January 1, 2010, existing law requires a city and county that are unable to reach a property tax exchange agreement to participate in a 3-step alternative dispute resolution process.

This bill would extend this alternative dispute resolution requirement to January 1, 2015.

(32) Existing law authorizes a county board of supervisors to form special road maintenance districts, and to estimate annually, the amount of property tax for highway purposes in each road district, and fix the amount of, and levy, the property tax in each special road district for highway purposes, not to exceed \$0.40 on every \$100 of assessable property in the district in any year.

This bill would revise these provisions to conform with Articles XIII A and XIII C of the Constitution.

(33) Under existing law, all streets, places, public ways, property, rights-of-way, tidelands, submerged lands owned by any city, open or dedicated to public use, any property for which an order for possession prior to judgment has been obtained, all tidelands or submerged lands

to which the right, title, and interest of the state have been granted to any city, and all tidelands or submerged lands which have been leased by the state to any city for the construction of improvements are open public streets, places, public ways, or property or rights-of-way owned by the city, for the purposes of the Improvement Act of 1911.

This bill would include among those open public streets, places, public ways, or property or rights-of-way owned by the city, all tidelands or submerged lands for which a permit, license, or easement has been issued by the United States Army Corps of Engineers, as specified.

(34) Existing law authorizes any public entity that supplies water at retail or wholesale for the benefit of persons within the service area or area of jurisdiction of the public entity, to adopt and enforce a water conservation program to reduce the quantity of water used by those persons for the purpose of conserving the water supplies of the public entity, as specified. Existing law requires any adopted ordinance or resolution to be published or posted, as specified.

This bill would authorize the public entity to publish a summary of the proposed and adopted ordinance, resolution, or amendment to an existing ordinance or resolution, with a certified copy of the full text of the ordinance, resolution, or amendment to an existing ordinance or resolution available at the office of the governing body, or to display an advertisement of the meeting at which the governing board will consider the proposed or adopted ordinance, resolution, or amendment to an existing ordinance or resolution, in a newspaper of general circulation in the county, as specified.

(35) The California Water Storage District Law authorizes directors to receive compensation of \$100 per day, not to exceed 6 days a month, \$0.10 per mile for each mile traveled from the board member's place of residence to the office of the board, and actual and necessary expenses while engaged in official business under the order of the board.

This bill would instead authorize directors to receive compensation of not more than \$100 per day, not to exceed 6 days a month, and actual and necessary expenses while engaged in official business under the order of the board.

(36) Under existing law, a waterworks district is empowered to sell surplus water outside of the district with the approval of the governing body of the local agency formation commission.

This bill would authorize a waterworks district to sell any water outside of the district if its governing body finds that the water is needed for public health, public safety, or emergency purposes, as defined.

(37) Existing law authorizes a waterworks district to sell or lease surplus property without public notice when the value of the property is \$100 or less, or when it is sold to another county waterworks district governed by the same board.

This bill would expand a waterworks district's authority to sell, lease, or exchange property, or an interest in property, without notice when the property is valued at \$5,000 or less, or is sold to another public agency with a service area or jurisdictional boundary that overlaps with the district.

(38) The North Delta Water Agency Act creates the North Delta Water Agency, defines the powers and duties of the agency, prescribes the boundaries of the agency, and specifies the mode of assessment to finance the agency. Existing law also prescribes the method for dissolving the agency.

This bill would make various revisions to the provisions relating to collecting assessments, levying special benefit assessments, and the agency's dissolution.

(39) This bill would incorporate additional changes to Section 66412 of the Government Code, proposed by SB 251, to be operative only if SB 251 and this bill are all enacted, both bills amend Section 66412 of the Government Code, and this bill is enacted after SB 251.

4 their governments to be run efficiently and economically and that
5 public officials should avoid waste and duplication whenever
6 possible. The Legislature further finds and declares that it desires
7 to control its own costs by reducing the number of separate bills.
8 Therefore, it is the intent of the Legislature in enacting this act to
9 combine several minor, noncontroversial statutory changes relating
10 to the common theme, purpose, and subject of local government
11 into a single measure.

13 the board of supervisors shall, in January of 1997, appoint one
14 attorney to a one-year term, one attorney to a two-year term, and
15 one attorney to a three-year term; and as each term expires, the

35 (4)

36 (2) Subject to compliance with subdivision (e) of Section 1351
37 of the Civil Code, all conveyances and other documents necessary
38 to effectuate the conversion shall be executed by the required
39 number of owners in the project as specified in the bylaws or other

SEC. 72. Section 66434 of the Government Code is amended to read:

66434. The final map shall be prepared by or under the direction of a registered civil engineer or licensed land surveyor, shall be based upon a survey, and shall conform to all of the following provisions:

(a) It shall be legibly drawn, printed, or reproduced by a process guaranteeing a permanent record in black on tracing cloth or polyester base film. Certificates, affidavits, and acknowledgments may be legibly stamped or printed upon the map with opaque ink. If ink is used on polyester base film, the ink surface shall be coated with a suitable substance to assure permanent legibility.

(b) The size of each sheet shall be 18 by 26 inches or 460 by 660 millimeters. A marginal line shall be drawn completely around each sheet, leaving an entirely blank margin of one inch or 025 millimeters. The scale of the map shall be large enough to show all details clearly and enough sheets shall be used to accomplish this end. The particular number of the sheet and the total number of sheets comprising the map shall be stated on each of the sheets, and its relation to each adjoining sheet shall be clearly shown.

(c) All survey and mathematical information and data necessary to locate all monuments and to locate and retrace any and all interior and exterior boundary lines appearing on the map shall be shown, including bearings and distances of straight lines, and radii and arc length or chord bearings and length for all curves, and any information that may be necessary to determine the location of the centers of curves and ties to existing monuments used to establish the subdivision boundaries.

(d) Each parcel shall be numbered or lettered and each block may be numbered or lettered. Each street shall be named or otherwise designated. The subdivision number shall be shown together with the description of the real property being subdivided.

(e) (1) The exterior boundary of the land included within the subdivision shall be indicated by distinctive symbols and clearly so designated. The exterior boundary of the land included within the subdivision shall not include a designated remainder or omitted parcel that is designated or omitted under Section 66424.6. The designated remainder or omitted parcel shall be labeled as a designated remainder parcel or omitted parcel. The map shall show the definite location of the subdivision, and particularly its relation to surrounding surveys.

(2) If the map includes a “designated remainder” parcel, and the gross area of the “designated remainder” parcel or similar parcel is five acres or more, that remainder parcel need not be shown on the map and its location need not be indicated as a matter of survey, but only by deed reference to the existing boundaries of the remainder parcel.

(3) A parcel designated as “not a part” shall be deemed to be a “designated remainder” for purposes of this section.

(f) On and after January 1, 1987, no additional requirements shall be included that do not affect record title interests. However, the map shall contain a notation or reference to additional information required by a local ordinance adopted pursuant to Section 66434.2.

(g) Any public streets or public easements to be left in effect after the subdivision shall be adequately delineated on the map. The filing of the final map shall constitute abandonment of all public streets and public easements not shown on the map, provided that a written notation of each abandonment is listed by reference to the recording data or other official record creating these public streets or public easements and certified to on the map by the clerk of the legislative body or the designee of the legislative body approving the map. Before a public easement vested in another public entity may be abandoned pursuant to this section, that public entity shall receive notice of the proposed abandonment. No public easement vested in another public entity shall be abandoned pursuant to this section if that public entity objects to the proposed abandonment.

5 statement on the final map, signed and acknowledged by those
6 parties having any record title interest in the real property being
7 subdivided, subject to the provisions of Section 66436.

8 (b) In the event any street shown on a final map is not offered
9 for dedication, the statement may contain a declaration to this
10 effect. If the statement appears on the final map and if the map is
11 approved by the legislative body, the use of the street or streets by
12 the public shall be permissive only.

13 (c) An offer of dedication of real property for street or public
14 utility easement purposes shall be deemed not to include any public
15 utility facilities located on or under the real property unless, and
16 only to the extent that, an intent to dedicate the facilities is
17 expressly declared in the statement.

18 (d) (1) If a subdivider is required under this division or any
19 other provision of law to make a dedication for specified public
20 purposes on a final map, the local agency shall specify whether
21 the dedication is to be in fee for public purposes or an easement
22 for public purposes.

23 (2) If the dedication is required to be in fee for public purposes,
24 the subdivider shall include the following language in the
25 dedication clause on the final map or any separate instrument:
26 “The real property described below is dedicated in fee for public
27 purposes: (here insert a description of the dedicated property that
28 is adequate to convey the property).”

29 (3) If the dedication is required to be an easement for public
30 purposes, the subdivider shall include the following language in
31 the dedication clause on the final map or any separate instrument:
32 “The real property described below is dedicated as an easement
33 for public purposes: (here insert a description of the easement that
34 is adequate to convey the dedicated property).”

35 SEC. 74. Section 66445 of the Government Code is amended
36 to read:

37 66445. The parcel map shall be prepared by, or under the
38 direction of, a registered civil engineer or licensed land surveyor,
39 shall show the location of streets and property lines bounding the
40 property, and shall conform to all of the following provisions:

1 (a) It shall be legibly drawn, printed, or reproduced by a process
2 guaranteeing a permanent record in black on tracing cloth or
3 polyester base film. Certificates or statements, affidavits, and
4 acknowledgments may be legibly stamped or printed upon the map
5 with opaque ink. If ink is used on polyester base film, the ink
6 surface shall be coated with a suitable substance to assure
7 permanent legibility.

8 (b) The size of each sheet shall be 18 by 26 inches or 460 by
9 660 millimeters. A marginal line shall be drawn completely around
10 each sheet, leaving an entirely blank margin of one inch or 025
11 millimeters. The scale of the map shall be large enough to show
12 all details clearly and enough sheets shall be used to accomplish
13 this end. The particular number of the sheet and the total number
14 of sheets comprising the map shall be stated on each of the sheets,
15 and its relation to each adjoining sheet shall be clearly shown.

16 (c) Each parcel shall be numbered or lettered and each block
17 may be numbered or lettered. Each street shall be named or
18 otherwise designated. The subdivision number shall be shown
19 together with the description of the real property being subdivided.

20 (d) (1) The exterior boundary of the land included within the
21 subdivision shall be indicated by distinctive symbols and clearly
22 so designated. The exterior boundary of the land included within
23 the subdivision shall not include a designated remainder or omitted
24 parcel that is designated or omitted under Section 66424.6. The
25 designated remainder parcel or omitted parcel shall be labeled as
26 a designated remainder parcel or an omitted parcel.

27 (2) The map shall show the location of each parcel and its
28 relation to surrounding surveys. If the map includes a “designated
29 remainder” parcel or similar parcel, and the gross area of the
30 “designated remainder” parcel or similar parcel is five acres or
31 more, that remainder parcel need not be shown on the map and its
32 location need not be indicated as a matter of survey, but only by
33 deed reference to the existing boundaries of the remainder parcel.

34 (3) A parcel designated as “not a part” shall be deemed to be a
35 “designated remainder” for purposes of this section.

36 (e) Subject to the provisions of Section 66436, a statement,
37 signed and acknowledged by all parties having any record title
38 interest in the real property subdivided, consenting to the
39 preparation and recordation of the parcel map is required, except

1 that less inclusive requirements may be provided by local
2 ordinance.

3 With respect to a division of land into four or fewer parcels,
4 where dedications or offers of dedications are not required, the
5 statement shall be signed and acknowledged by the subdivider
6 only. If the subdivider does not have a record title ownership
7 interest in the property to be divided, the local agency may require
8 that the subdivider provide the local agency with satisfactory
9 evidence that the persons with record title ownership have
10 consented to the proposed division. For purposes of this paragraph,
11 “record title ownership” means fee title of record unless a leasehold
12 interest is to be divided, in which case “record title ownership”
13 means ownership of record of the leasehold interest. Record title
14 ownership does not include ownership of mineral rights or other
15 subsurface interests that have been severed from ownership of the
16 surface.

17 (f) Notwithstanding any other provision of this article, local
18 agencies may require that those statements and acknowledgments
19 required pursuant to subdivision (e) be made by separate instrument
20 to be recorded concurrently with the parcel map being filed for
21 record.

22 (g) On and after January 1, 1987, no additional survey and map
23 requirements shall be included on a parcel map that do not affect
24 record title interests. However, the map shall contain a notation
25 of reference to survey and map information required by a local
26 ordinance adopted pursuant to Section 66434.2.

27 (h) Whenever a certificate or acknowledgment is made by
28 separate instrument, there shall appear on the parcel map a
29 reference to the separately recorded document. This reference shall
30 be completed by the county recorder pursuant to Section 66468.1.

31 (i) If a field survey was performed, the parcel map shall contain
32 a statement by the engineer or surveyor responsible for the
33 preparation of the map that states that all monuments are of the
34 character and occupy the positions indicated, or that they will be
35 set in those positions on or before a specified date, and that the
36 monuments are, or will be, sufficient to enable the survey to be
37 retraced.

38 (j) Any public streets or public easements to be left in effect
39 after the subdivision shall be adequately delineated on the map.
40 The filing of the parcel map shall constitute abandonment of all

1 public streets and public easements not shown on the map, provided
2 that a written notation of each abandonment is listed by reference
3 to the recording data or other official record creating these public
4 streets or public easements and certified to on the map by the clerk
5 of the legislative body or the designee of the legislative body
6 approving the map. Before a public easement vested in another
7 public entity may be abandoned pursuant to this section, that public
8 entity shall receive notice of the proposed abandonment. No public
9 easement vested in another public entity shall be abandoned
10 pursuant to this section if that public entity objects to the proposed
11 abandonment.

12 SEC. 75. Section 66447 of the Government Code is amended
13 to read:

14 66447. (a) If dedications or offers of dedication are required,
15 they may be made either by a statement on the parcel map or by
16 separate instrument, as provided by local ordinance. If dedications
17 or offers of dedication are made by separate instrument, the
18 dedications or offers of dedication shall be recorded concurrently
19 with, or prior to, the parcel map being filed for record.

20 (b) The dedication or offers of dedication, whether by statement
21 or separate instrument, shall be signed by the same parties and in
22 the same manner as set forth in Section 66439 for dedications by
23 a final map.

24 (c) (1) If a subdivider is required under this division or any other
25 provision of law to make a dedication for specified public purposes
26 on a parcel map, the local agency shall specify whether the
27 dedication is to be in fee for public purposes or an easement for
28 public purposes.

29 (2) If the dedication is required to be in fee for public purposes,
30 the subdivider shall include the following language in the
31 dedication clause on the parcel map or any separate instrument:
32 “The real property described below is dedicated in fee for public
33 purposes: (here insert a description of the dedicated property that
34 is adequate to convey the property).”

35 (3) If the dedication is required to be an easement for public
36 purposes, the subdivider shall include the following language in
37 the dedication clause on the parcel map or any separate instrument:
38 “The real property described below is dedicated as an easement
39 for public purposes: (here insert a description of the easement that
40 is adequate to convey the dedicated property).”

16 the Government Code.

17 (C) Reinforced concrete moment resisting frame buildings as
18 described in Applied Technology Council Report 21 (FEMA
19 Report 154).

20 (D) Any structure owned and operated by a state entity or agency
21 that is listed on the California Register of Historical Resources or
22 the National Register of Historic Places, including the California
23 Memorial Stadium. This exemption shall not apply unless the state
24 entity or agency submits a plan of proposed alterations to the State
25 Geologist. The addition of this subparagraph does not modify,
26 alter, conflict with, or supersede the intent of applicability of any
27 other provisions of this chapter.

28 (2) The exemption granted by subparagraphs (A), (B), and (C)
29 of paragraph (1) shall not apply unless a city or county acts in
30 accordance with all of the following:

31 (A) The building permit issued by the city or county for the
32 alterations authorizes no greater human occupancy load, regardless
33 of proposed use, than that authorized for the existing use permitted
34 at the time the city or county grants the exemption. This may be
35 accomplished by the city or county making a human occupancy
36 load determination that is based on, and no greater than, the
37 existing authorized use, and including that determination on the
38 building permit application as well as a statement substantially as
39 follows: "Under subparagraph (A) of paragraph (2) of subdivision
40 (e) of Section 2621.7 of the Public Resources Code, the occupancy

1 load is limited to the occupancy load for the last lawful use
2 authorized or existing prior to the issuance of this building permit,
3 as determined by the city or county.”

4 (B) The city or county requires seismic retrofitting, as defined
5 in Section 8894.2 of the Government Code, which is necessary to
6 strengthen the entire structure and provide increased resistance to
7 ground shaking from earthquakes.

8 (C) Exemptions granted pursuant to paragraph (1) are reported
9 in writing to the State Geologist within 30 days of the building
10 permit issuance date.

11 (3) Any structure with human occupancy restrictions under
12 subparagraph (A) of paragraph (2) shall not be granted a new
13 building permit that allows an increase in human occupancy unless
14 a geologic report, prepared pursuant to subdivision (d) of Section
15 3603 of Title 14 of the California Code of Regulations in effect
16 on January 1, 1994, demonstrates that the structure is not on the
17 trace of an active fault, or the requirement of a geologic report has
18 been waived pursuant to Section 2623.

19 (4) A qualified historical building within an earthquake fault
20 zone that is exempt pursuant to this subdivision may be repaired
21 or seismically retrofitted using the State Historical Building Code,
22 except that, notwithstanding any provision of that building code
23 and its implementing regulations, paragraph (2) shall apply.

24 SEC. 79. Section 13041 of the Public Resources Code is
25 amended to read:

26 13041. (a) Any compensation provided pursuant to this section
27 shall comply with Articles 2.3 (commencing with Section 53232)
28 and 2.4 (commencing with Section 53234) of Chapter 2 of Part 1
29 of Division 2 of Title 5 of the Government Code.

30 (b) The district board may authorize each director to receive
31 compensation not exceeding twenty-five dollars (\$25) for each
32 meeting of the board attended by the director within the State of
33 California, not exceeding two meetings in any calendar month,
34 plus reimbursement for actual and necessary expenses incurred in
35 the performance of these duties.

36 (c) The district board may authorize a director to receive for
37 performing duties for the district other than attending board
38 meetings:

1 (1) Not to exceed twenty-five dollars (\$25) for each day, but
2 payment is limited to five days in any calendar month as to each
3 director other than the president.

4 (2) Actual and necessary expenses incurred in the performance
5 of these duties.

6 (d) The secretary shall receive compensation set by the board,
7 which compensation shall be in lieu of any other compensation to
8 which the secretary may be entitled for attendance at meetings
9 pursuant to this section.

10 SEC. 79.1. Section 11938 of the Public Utilities Code is
11 amended to read:

12 11938. The general manager shall within 90 days from the end
13 of each fiscal year cause to be published a summary of the financial
14 report showing the result of operations for the preceding fiscal
15 year and the financial status of the district on the last day thereof.
16 The publication shall be made in the manner provided in this
17 division for the publication of ordinances and notices generally.

18 SEC. 79.5. Section 99 of the Revenue and Taxation Code is
19 amended to read:

20 99. (a) For the purposes of the computations required by this
21 chapter:

22 (1) In the case of a jurisdictional change, other than a city
23 incorporation or a formation of a district as defined in Section
24 2215, the auditor shall adjust the allocation of property tax revenue
25 determined pursuant to Section 96 or 96.1, or the annual tax
26 increment determined pursuant to Section 96.5, for local agencies
27 whose service area or service responsibility would be altered by
28 the jurisdictional change, as determined pursuant to subdivision
29 (b) or (c).

30 (2) In the case of a city incorporation, the auditor shall assign
31 the allocation of property tax revenues determined pursuant to
32 Section 56810 of the Government Code and the adjustments in tax
33 revenues that may occur pursuant to Section 56815 of the
34 Government Code to the newly formed city or district and shall
35 make the adjustment as determined by Section 56810 in the
36 allocation of property tax revenue determined pursuant to Section
37 96 or 96.1 for each local agency whose service area or service
38 responsibilities would be altered by the incorporation.

39 (3) In the case of a formation of a district as defined in Section
40 2215, the auditor shall assign the allocation of property tax

1 revenues determined pursuant to Section 56810 of the Government
2 Code to the district and shall make the adjustment as determined
3 by Section 56810 in the allocation of property tax revenue
4 determined pursuant to Section 96 or 96.1 for each local agency
5 whose service area or service responsibilities would be altered by
6 the formation.

7 (b) Upon the filing of an application or a resolution pursuant to
8 the Cortese-Knox-Hertzberg Local Government Reorganization
9 Act of 2000 (Division 3 (commencing with Section 56000) of Title
10 5 of the Government Code), but prior to the issuance of a certificate
11 of filing, the executive officer shall give notice of the filing to the
12 assessor and auditor of each county within which the territory
13 subject to the jurisdictional change is located. This notice shall
14 specify each local agency whose service area or responsibility will
15 be altered by the jurisdictional change.

16 (1) (A) The county assessor shall provide to the county auditor,
17 within 30 days of the notice of filing, a report which identifies the
18 assessed valuations for the territory subject to the jurisdictional
19 change and the tax rate area or areas in which the territory exists.

20 (B) The auditor shall estimate the amount of property tax
21 revenue generated within the territory that is the subject of the
22 jurisdictional change during the current fiscal year.

23 (2) The auditor shall estimate what proportion of the property
24 tax revenue determined pursuant to paragraph (1) is attributable
25 to each local agency pursuant to Section 96.1 and Section 96.5.

26 (3) Within 45 days of notice of the filing of an application or
27 resolution, the auditor shall notify the governing body of each local
28 agency whose service area or service responsibility will be altered
29 by the amount of, and allocation factors with respect to, property
30 tax revenue estimated pursuant to paragraph (2) that is subject to
31 a negotiated exchange.

32 (4) Upon receipt of the estimates pursuant to paragraph (3) the
33 local agencies shall commence negotiations to determine the
34 amount of property tax revenues to be exchanged between and
35 among the local agencies. This negotiation period shall not exceed
36 60 days.

37 The exchange may be limited to an exchange of property tax
38 revenues from the annual tax increment generated in the area
39 subject to the jurisdictional change and attributable to the local
40 agencies whose service area or service responsibilities will be

1 altered by the proposed jurisdictional change. The final exchange
2 resolution shall specify how the annual tax increment shall be
3 allocated in future years.

4 (5) In the event that a jurisdictional change would affect the
5 service area or service responsibility of one or more special
6 districts, the board of supervisors of the county or counties in which
7 the districts are located shall, on behalf of the district or districts,
8 negotiate any exchange of property tax revenues. Prior to entering
9 into negotiation on behalf of a district for the exchange of property
10 tax revenue, the board shall consult with the affected district. The
11 consultation shall include, at a minimum, notification to each
12 member and executive officer of the district board of the pending
13 consultation and provision of adequate opportunity to comment
14 on the negotiation.

15 (6) Notwithstanding any other provision of law, the executive
16 officer shall not issue a certificate of filing pursuant to Section
17 56658 of the Government Code until the local agencies included
18 in the property tax revenue exchange negotiation, within the 60-day
19 negotiation period, present resolutions adopted by each such county
20 and city whereby each county and city agrees to accept the
21 exchange of property tax revenues.

22 (7) In the event that the commission modifies the proposal or
23 its resolution of determination, any local agency whose service
24 area or service responsibility would be altered by the proposed
25 jurisdictional change may request, and the executive officer shall
26 grant, 15 days for the affected agencies, pursuant to paragraph (4)
27 to renegotiate an exchange of property tax revenues.
28 Notwithstanding the time period specified in paragraph (4), if the
29 resolutions required pursuant to paragraph (6) are not presented
30 to the executive officer within the 15-day period, all proceedings
31 of the jurisdictional change shall automatically be terminated.

32 (8) In the case of a jurisdictional change that consists of a city's
33 qualified annexation of unincorporated territory, an exchange of
34 property tax revenues between the city and the county shall be
35 determined in accordance with subdivision (e) if that exchange of
36 revenues is not otherwise determined pursuant to either of the
37 following:

38 (A) Negotiations completed within the applicable period or
39 periods as prescribed by this subdivision.

1 (B) A master property tax exchange agreement among those
2 local agencies, as described in subdivision (d).

3 For purposes of this paragraph, a qualified annexation of
4 unincorporated territory means an annexation, as so described, for
5 which an application or a resolution was filed on or after January
6 1, 1998, and on or before January 1, 2015.

7 (9) No later than the date on which the certificate of completion
8 of the jurisdictional change is recorded with the county recorder,
9 the executive officer shall notify the auditor or auditors of the
10 exchange of property tax revenues and the auditor or auditors shall
11 make the appropriate adjustments as provided in subdivision (a).

12 (c) Whenever a jurisdictional change is not required to be
13 reviewed and approved by a local agency formation commission,
14 the local agencies whose service area or service responsibilities
15 would be altered by the proposed change, shall give notice to the
16 State Board of Equalization and the assessor and auditor of each
17 county within which the territory subject to the jurisdictional
18 change is located. This notice shall specify each local agency
19 whose service area or responsibility will be altered by the
20 jurisdictional change and request the auditor and assessor to make
21 the determinations required pursuant to paragraphs (1) and (2) of
22 subdivision (b). Upon notification by the auditor of the amount
23 of, and allocation factors with respect to, property tax subject to
24 exchange, the local agencies, pursuant to the provisions of
25 paragraphs (4) and (6) of subdivision (b), shall determine the
26 amount of property tax revenues to be exchanged between and
27 among the local agencies. Notwithstanding any other provision of
28 law, no such jurisdictional change shall become effective until
29 each county and city included in these negotiations agrees, by
30 resolution, to accept the negotiated exchange of property tax
31 revenues. The exchange may be limited to an exchange of property
32 tax revenue from the annual tax increment generated in the area
33 subject to the jurisdictional change and attributable to the local
34 agencies whose service area or service responsibilities will be
35 altered by the proposed jurisdictional change. The final exchange
36 resolution shall specify how the annual tax increment shall be
37 allocated in future years. Upon the adoption of the resolutions
38 required pursuant to this section, the adopting agencies shall notify
39 the auditor who shall make the appropriate adjustments as provided
40 in subdivision (a). Adjustments in property tax allocations made

as the result of a city or library district withdrawing from a county free library system pursuant to Section 19116 of the Education Code shall be made pursuant to Section 19116 of the Education Code, and this subdivision shall not apply.

(d) With respect to adjustments in the allocation of property taxes pursuant to this section, a county and any local agency or agencies within the county may develop and adopt a master property tax transfer agreement. The agreement may be revised from time to time by the parties subject to the agreement.

(e) (1) An exchange of property tax revenues that is required by paragraph (8) of subdivision (b) to be determined pursuant to this subdivision shall be determined in accordance with all of the following:

(A) The city and the county shall mutually select a third-party consultant to perform a comprehensive, independent fiscal analysis, funded in equal portions by the city and the county, that specifies estimates of all tax revenues that will be derived from the annexed territory and the costs of city and county services with respect to the annexed territory. The analysis shall be completed within a period not to exceed 30 days, and shall be based upon the general plan or adopted plans and policies of the annexing city and the intended uses for the annexed territory. If, upon the completion of the analysis period, no exchange of property tax revenues is agreed upon by the city and the county, subparagraph (B) shall apply.

(B) The city and the county shall mutually select a mediator, funded in equal portions by those agencies, to perform mediation for a period of not to exceed 30 days. If, upon the completion of the mediation period, no exchange of property tax revenues is agreed upon by the city and the county, subparagraph (C) shall apply.

(C) The city and the county shall mutually select an arbitrator, funded in equal portions by those agencies, to conduct an advisory arbitration with the city and the county for a period of not to exceed 30 days. At the conclusion of this arbitration period, the city and the county shall each present to the arbitrator its last and best offer with respect to the exchange of property tax revenues. The arbitrator shall select one of the offers and recommend that offer to the governing bodies of the city and the county. If the governing body of the city or the county rejects the recommended offer, it shall do so during a public hearing, and shall, at the conclusion of

1 that hearing, make written findings of fact as to why the
2 recommended offer was not accepted.

3 (2) Proceedings under this subdivision shall be concluded no
4 more than 150 days after the auditor provides the notification
5 pursuant to paragraph (3) of subdivision (b), unless one of the
6 periods specified in this subdivision is extended by the mutual
7 agreement of the city and the county. Notwithstanding any other
8 provision of law, except for those conditions that are necessary to
9 implement an exchange of property tax revenues determined
10 pursuant to this subdivision, the local agency formation
11 commission shall not impose any fiscal conditions upon a city's
12 qualified annexation of unincorporated territory that is subject to
13 this subdivision.

14 (f) Except as otherwise provided in subdivision (g), for the
15 purpose of determining the amount of property tax to be allocated
16 in the 1979–80 fiscal year and each fiscal year thereafter for those
17 local agencies that were affected by a jurisdictional change which
18 was filed with the State Board of Equalization after January 1,
19 1978, but on or before January 1, 1979. The local agencies shall
20 determine by resolution the amount of property tax revenues to be
21 exchanged between and among the affected agencies and notify
22 the auditor of the determination.

23 (g) For the purpose of determining the amount of property tax
24 to be allocated in the 1979–80 fiscal year and each fiscal year
25 thereafter, for a city incorporation that was filed pursuant to
26 Sections 54900 to 54904 after January 1, 1978, but on or before
27 January 1, 1979, the amount of property tax revenue considered
28 to have been received by the jurisdiction for the 1978–79 fiscal
29 year shall be equal to two-thirds of the amount of property tax
30 revenue projected in the final local agency formation commission
31 staff report pertaining to the incorporation multiplied by the
32 proportion that the total amount of property tax revenue received
33 by all jurisdictions within the county for the 1978–79 fiscal year
34 bears to the total amount of property tax revenue received by all
35 jurisdictions within the county for the 1977–78 fiscal year. Except,
36 however, in the event that the final commission report did not
37 specify the amount of property tax revenue projected for that
38 incorporation, the commission shall by October 10 determine
39 pursuant to Section 54790.3 of the Government Code the amount
40 of property tax to be transferred to the city.

1 The provisions of this subdivision shall also apply to the
2 allocation of property taxes for the 1980–81 fiscal year and each
3 fiscal year thereafter for incorporations approved by the voters in
4 June 1979.

5 (h) For the purpose of the computations made pursuant to this
6 section, in the case of a district formation that was filed pursuant
7 to Sections 54900 to 54904, inclusive, of the Government Code
8 after January 1, 1978, but before January 1, 1979, the amount of
9 property tax to be allocated to the district for the 1979–80 fiscal
10 year and each fiscal year thereafter shall be determined pursuant
11 to Section 54790.3 of the Government Code.

12 (i) For the purposes of the computations required by this chapter,
13 in the case of a jurisdictional change, other than a change requiring
14 an adjustment by the auditor pursuant to subdivision (a), the auditor
15 shall adjust the allocation of property tax revenue determined
16 pursuant to Section 96 or 96.1 or its predecessor section, or the
17 annual tax increment determined pursuant to Section 96.5 or its
18 predecessor section, for each local school district, community
19 college district, or county superintendent of schools whose service
20 area or service responsibility would be altered by the jurisdictional
21 change, as determined as follows:

22 (1) The governing body of each district, county superintendent
23 of schools, or county whose service areas or service responsibilities
24 would be altered by the change shall determine the amount of
25 property tax revenues to be exchanged between and among the
26 affected jurisdictions. This determination shall be adopted by each
27 affected jurisdiction by resolution. For the purpose of negotiation,
28 the county auditor shall furnish the parties and the county board
29 of education with an estimate of the property tax revenue subject
30 to negotiation.

31 (2) In the event that the affected jurisdictions are unable to agree,
32 within 60 days after the effective date of the jurisdictional change,
33 and if all the jurisdictions are wholly within one county, the county
34 board of education shall, by resolution, determine the amount of
35 property tax revenue to be exchanged. If the jurisdictions are in
36 more than one county, the State Board of Education shall, by
37 resolution, within 60 days after the effective date of the
38 jurisdictional change, determine the amount of property tax to be
39 exchanged.

1 (3) Upon adoption of any resolution pursuant to this subdivision,
2 the adopting jurisdictions or State Board of Education shall notify
3 the county auditor who shall make the appropriate adjustments as
4 provided in subdivision (a).

5 (j) For purposes of subdivision (i), the annexation by a
6 community college district of territory within a county not
7 previously served by a community college district is an alteration
8 of service area. The community college district and the county
9 shall negotiate the amount, if any, of property tax revenues to be
10 exchanged. In these negotiations, there shall be taken into
11 consideration the amount of revenue received from the timber
12 yield tax and forest reserve receipts by the community college
13 district in the area not previously served. In no event shall the
14 property tax revenue to be exchanged exceed the amount of
15 property tax revenue collected prior to the annexation for the
16 purposes of paying tuition expenses of residents enrolled in the
17 community college district, adjusted each year by the percentage
18 change in population and the percentage change in the cost of
19 living, or per capita personal income, whichever is lower, less the
20 amount of revenue received by the community college district in
21 the annexed area from the timber yield tax and forest reserve
22 receipts.

23 (k) At any time after a jurisdictional change is effective, any of
24 the local agencies party to the agreement to exchange property tax
25 revenue may renegotiate the agreement with respect to the current
26 fiscal year or subsequent fiscal years, subject to approval by all
27 local agencies affected by the renegotiation.

31 maintenance districts and levy special taxes for road and highway
32 purposes to this chapter.

33 (b) Nothing contained in this section shall authorize any property
34 tax for highway purposes to be levied or collected by a county
35 within any city wherein work and improvements upon the streets
36 are done by virtue of any law relating to street work and
37 improvements within such a city.

38 SEC. 81. Section 1550.1 of the Streets and Highways Code is
39 amended to read:

1550.1. The board of supervisors may form special road maintenance districts in unincorporated areas of the county wholly outside of incorporated cities. Formation of these districts may be ordered by the board when in its opinion additional road funds are necessary to properly maintain highways and roads in specific unincorporated areas of the county. These districts shall be formed by order of the board setting forth the boundaries thereof. A district shall be in existence until the board shall by its order discontinue the district. If a district is to be formed, the board shall set a date for a hearing on the formation. This hearing shall not be held in less than three weeks after the date of the order for the hearing, and prior to the date of the hearing, a notice of the hearing shall be published twice in a newspaper of general circulation in the area, and, in addition, at least three notices shall be posted in public places within the proposed district. At the hearing, protests, if any, shall be heard on the proposed formation of the district. It shall be within the power of the board to determine from the results of the hearing the necessity for the special road maintenance district, and, if it be deemed necessary, the district may be formed.

SEC. 82. Section 1550.2 of the Streets and Highways Code is repealed.

SEC. 83. Section 1550.2 is added to the Streets and Highways Code, to read:

1550.2. The board of supervisors may levy a special tax pursuant to Article 3.5 (commencing with Section 50075) of Chapter 1 of Part 1 of Division 1 of Title 5 of the Government Code, and spend the proceeds for the purposes of this chapter.

SEC. 84. Section 1551 of the Streets and Highways Code is repealed.

SEC. 85. Section 1552 of the Streets and Highways Code is amended to read:

1552. Except as otherwise provided in this code, all revenues from special taxes levied for highway and road purposes collected in each road district shall be expended for highway and road purposes within the district in which collected.

The board of supervisors shall cause such tax collected each year to be apportioned to the several road districts entitled thereto, and to be kept by the county treasurer in separate funds.

SEC. 86. Section 1553 of the Streets and Highways Code is repealed.

1 SEC. 87. Section 1554 of the Streets and Highways Code is
2 repealed.

3 SEC. 88. Section 5100 of the Streets and Highways Code is
4 amended to read:

5 5100. (a) All streets, places, public ways, or property, or
6 rights-of-way, or tidelands, or submerged lands owned by any city,
7 open or dedicated to public use, and any property for which an
8 order for possession prior to judgment has been obtained, and all
9 tidelands or submerged lands to which all the right, title, and
10 interest of the state have been granted to any city, all tidelands or
11 submerged lands for which a permit, license, or easement has been
12 issued by the United States Army Corps of Engineers or the state
13 for work to be done pursuant to subdivision (m) of Section 5101,
14 and all tidelands or submerged lands which have been leased by
15 the state to any city for the construction of improvements
16 authorized by subdivision (g) of Section 5101, are open public
17 streets, places, public ways, or property or rights-of-way owned
18 by the city, for the purposes of this division, and the legislative
19 body of the city may establish and change the grades of the
20 respective ways, properties, and rights-of-way hereinbefore
21 enumerated and fix the width thereof and is hereby invested with
22 jurisdiction to order to be done therein, over or thereon, either
23 singly or in any combination thereof, any of the work mentioned
24 in this division under the proceedings described in this part.

25 (b) Nothing in this section shall supersede the legislative body's
26 obligation to obtain a lease or permit from the State Lands
27 Commission for the use of state-owned tidelands or submerged
28 lands.

29 SEC. 89. Section 376 of the Water Code is amended to read:

30 376. (a) Any ordinance or resolution adopted pursuant to
31 Section 375 is effective upon adoption. Within 10 days after its
32 adoption, the ordinance or resolution shall be published pursuant
33 to Section 6061 of the Government Code in full in a newspaper
34 of general circulation—~~which~~ *that* is printed, published, and
35 circulated in the public entity. If there is no such newspaper, the
36 ordinance or resolution shall be posted within 10 days after its
37 adoption in three public places within the public entity.

38 (b) The publication of ordinances or resolutions, as required by
39 subdivision (a), may be satisfied by either of the following actions:

(1) The public entity may publish a summary of a proposed ordinance, resolution, or proposed amendment to an existing ordinance or resolution. The summary shall be prepared by an official designated by the governing body. A summary shall be published and a certified copy of the full text of the proposed ordinance, resolution, or amendment shall be posted in the office of the governing body at least five days prior to the governing body's meeting at which the proposed ordinance, resolution, or amendment is to be adopted. Within 15 days after adoption of the ordinance, resolution, or amendment, a display advertisement of at least one-quarter of a page shall be published. The advertisement shall indicate the general nature of, and provide information about, the proposed or adopted ordinance, resolution, or amendment, including information sufficient to enable the public to obtain copies of the complete text of the ordinance, resolution, or amendment, and the names of those members voting for and against the ordinance, resolution, or amendment.
