

AMENDED IN SENATE APRIL 13, 2009

SENATE BILL

No. 195

Introduced by Senator Florez

February 23, 2009

An act to amend Section 66290 of the Education Code, relating to postsecondary education.

LEGISLATIVE COUNSEL'S DIGEST

SB 195, as amended, Florez. Equity in Higher Education Act.

Existing

(1) *Existing* law, the Equity in Higher Education Act, provides that it is the policy of the state to afford all persons, regardless of disability, gender, nationality, race or ethnicity, religion, sexual orientation, or other specified bases, equal rights and opportunities in the postsecondary institutions of the state. The act requires a postsecondary educational institution, as defined, prior to the receipt of any state financial assistance or state student financial aid, to provide assurance to the agency administering the funds that each program or activity conducted by the institution will be conducted in compliance with the act and all other applicable provisions of state law prohibiting discrimination on the basis of sex. The act permits a postsecondary educational institution to provide a single assurance, not more than one page in length and signed by an appropriate responsible official of the institution, for all programs and activities conducted by the institution.

This bill would additionally require a postsecondary educational institution to provide assurance that each program and activity conducted by the institution will be conducted in compliance with applicable provisions of federal law prohibiting discrimination on the basis of sex. The bill would require a postsecondary educational institution to provide

~~a single assurance, as specified, for the assurance provided by the postsecondary educational institution to be signed by specified officers of the institution, would require the assurance to apply to all programs and activities, including, but not limited to, academic and athletic programs, and would delete the one-page limit on the assurance.~~ The bill would require that assurance to include specified information, including information regarding compliance with the act. ~~The bill would require that information to be available for public inspection, upon request.~~ The bill would provide for a civil penalty ~~for a violation of these provisions~~ for a false declaration of specified matters required by these provisions. Because this bill would impose new requirements on community college districts under the act, it would constitute a state-mandated local program.

(2) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

Vote: majority. Appropriation: no. Fiscal committee: yes.
State-mandated local program: ~~no~~ yes.
