AMENDED IN SENATE APRIL 16, 2009

SENATE BILL

No. 416

Introduced by Senator Florez

February 26, 2009

An act to add Section 49437 to the Education Code, to add Section 18739 to the Food and Agricultural Code, and to add Section 4335 to the Government Code, relating to antibiotics.

LEGISLATIVE COUNSEL'S DIGEST

SB 416, as amended, Florez. Antibiotics.

(1) The Pupil Nutrition, Health, and Achievement Act of 2001 requires a school to follow the Enhanced Food Based Meal Pattern, Nutrient Standard Meal Planning, or Traditional Meal Pattern developed by the United States Department of Agriculture or the Shaping Health as Partners in Education (SHAPE) Menu Patterns developed by the state in order to qualify for reimbursement for free and reduced-price meals sold or served to pupils. The act additionally prescribes nutrition standards for snacks sold to pupils in middle, junior, or high school with certain exceptions, and prohibits the sale of certain beverages to a pupil at an elementary school, except as specified. Existing law, commencing July 1, 2009, prohibits schools from making available to pupils food containing artificial trans fat, as specified.

This bill would prohibit, commencing January 1, 2012, a school or school district from serving poultry and meat products treated with nontherapeutic antibiotics to pupils, thereby imposing a state-mandated local program.

(2) Existing law authorizes the Secretary of Food and Agriculture, if the secretary determines that an animal raised for the production of

any food product is or may be carrying in its body pesticides, poisons, or other deleterious substances, including, among others, antibiotics, which may render any food product from such animal injurious to human health, to order the animal held and segregated until the secretary has determined that the animal may safely be released for human food purposes.

This bill would, commencing January 1, 2015, prohibit a person from using antibiotics for nontherapeutic and prophylactic use in any animal raised for the production of any human food product.

Under existing law, a violation of this provision of the bill would be a crime. Because this bill would create new crimes, the bill would impose a state-mandated local program.

(3) Under existing law, in the purchase of supplies, state and local governments are required to prefer supplies grown, manufactured, or produced in this state.

This bill would also require state and local governments, when purchasing meat supplies, to prefer meat supplies produced without the use of medically important antibiotics as feed additives. Because this requirement would impose a new duty on local governmental agencies, the bill would impose a state-mandated local program.

(4) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that with regard to certain mandates no reimbursement is required by this act for a specified reason.

With regard to any other mandates, this bill would provide that, if the Commission on State Mandates determines that the bill contains costs so mandated by the state, reimbursement for those costs shall be made pursuant to the statutory provisions noted above.

Vote: majority. Appropriation: no. Fiscal committee: yes.
State-mandated local program: yes.

The people of the State of California do enact as follows:

36 or infraction, within the meaning of Section 17556 of the
37 Government Code, or changes the definition of a crime within the
38 meaning of Section 6 of Article XIII B of the California
39 Constitution.

1 However, if the Commission on State Mandates determines that
2 this act contains other costs mandated by the state, reimbursement
3 to local agencies and school districts for those costs shall be made
4 pursuant to Part 7 (commencing with Section 17500) of Division
5 4 of Title 2 of the Government Code.
